

Chapter 1 : Paint by Number Tips & Techniques "Fill Me In" | Easy Art

*I Can Paint! (Starting Art) [Irene Luxbacher] on blog.quintoapp.com *FREE* shipping on qualifying offers. Illustrated step-by-step painting projects include bustling street scenes, sunny fields of flowers, night skies popping with fireworks and more.*

So much FUN to do! Erika from NJ Just wanted to thank you for the great product. Thank you for making it easy! I love to paint but I am color blind! But you make it possible for me. They ran home and put it right up in their living room. Thanks again for all your help. I have attached the original photo and the painting. Thanks, I will definitely order more in the future! Thanks for all your help. Needless to say, they were blown away at how beautiful the painting turned out. I had captured a picture of them walking arm in arm a couple years prior to painting it, and the photo encapsulated their love for each other. My dad has since passed away, but the picture remains as a reminder of the love they shared. I hope it can be used on your website. I was really nervous to see what he would think. Thank you! Sharon, MO Just wanted to thank you for the paint-by-numbers. It made a great gift! Jim from Pottstown, PA Having never painted before, I can not believe how well the portrait of my two daughters turned out! I was a big hit this year for Christmas. Enjoyed the project and look forward to doing another one with your company. I received my extra paint today. My family loves the picture so far. I will definitely be ordering more. Was my proudest accomplishment for ;0 Tammy from Tehachapi,CA I would have never guessed it would turn out as great as it did. And, it was so much fun! Thank you for a great product and quick delivery. It was the BEST gift my father said he received. He painted and framed it, and still to this day hangs in our family room. It will always be treasured. Thank you for bringing this memory back into our lives! It was the only gift I felt worth giving. You provide an amazing service! Kristen from IL What a surprise! I was so touched. It came out so perfect. And he knows nothing about art! Jeanie from NC I thought you would want to know that the two pictures to paint by number are finally finished, delivering the last one to my second daughter this past week. I had them framed and personally delivered the last one I did it and am so very proud. Reba from Goodlettsville, TN What a masterpiece! And I did it myself! Everyone who sees our painting goes wild. I can barely wait to begin my next painting. Thanks so much for making me look like an accomplished artist! Will from Birmingham, AL I gave my husband a custom paint by number for Christmas -- it shows him canoeing on a lake just before sunrise. He was delighted, and we have just finished doing it together. Kristin Wow that was fast! I got the new, landscape PBN in the mail yesterday. At a glance I can tell it is going to look really cool. Thanks for your help! Jen from Saskatchewan, Canada I had a paint by number kit made of my daughter and her horse for Christmas. She is 19 and absolutely loves it Just wanted to let you know you made one horse loving daughter very happy. I just love the paint by number I received from my mother for my birthday. It is so clever and ingenious! I excitedly sat down to work on it, and when I was done, I was amazed at how life-like and beautiful it turned out. I am so extremely pleased, it was the best gift I ever received. I am looking forward to ordering another one. Calandra from Mesa, AZ Thanks! It was so fun. Thank you so much! It is way too hot here in TX to be out in the middle of the day, so this has been a delightful distraction. Kathy I appreciate your product. Having wanted to paint for many years but with no painting experience, your EasyArt is teaching me and giving me confidence to paint. Barry I can not express adequately my joy in being able to spend time with my daughter while we listen to music and paint. Kathy I was so happy with this painting! I have friends who have seen it and ordered for themselves. Good Luck with a great business. It was delivered Christmas Eve, in the nick of time for our gift exchange and everyone loved the originality of the gift. Tess from Manteo, NC.

Chapter 2 : Wall Murals - Tips & Techniques to Make Your Mural Project As Easy as

Find helpful customer reviews and review ratings for I Can Paint! (Starting Art) at blog.quintoapp.com Read honest and unbiased product reviews from our users.

Painting Tips Acrylic is an easy water-based medium to work with that cleans up easily from most surfaces with soap and warm water. However do protect your clothing to prevent possible stains. Details in faces are important, so for portraits we recommend starting with the eyes. If paint becomes thick, add one drop of clean water at a time until desired consistency. Painting Techniques These techniques may help you fine-tune your artwork. To be sure you get the desired effect, try them out before using them on your canvas. Go Lightly Painting conservatively in thin layers will preserve the genuine canvas texture without completely sealing it. Highlighting Once dry, select a lighter color than the painted area. Apply color to a dry brush and streak until the paint is tacky. Apply lightly to highlight canvas texture. Blending As you complete a number field, use the bristles of a dry brush to blend the wet edge with the adjacent field, softening the contrast. Streaking Softly paint fine streaks of a lighter shade over a darker shade. This is a good technique to add texture to hair and backgrounds. Glossy Finish To saturate colors with a brilliant shine that protects, you may add a clear gloss layer. Brush a Gloss Medium and Varnish over the completely dried painting. Brush one coat horizontal, allow to dry. Brush a second coat vertically, allow to dry. Glass is not necessary when framing painted canvas pieces. Congratulations, you are an original Easy Artist! Now you canâ€¦ Share with The World! Scan or take a clear image of your painting and upload it to our Gallery. Comment, meet other artists and grab votes! Thank you for inspiring us!

Chapter 3 : Personalize A Custom Paint by Number Kit | Easy Art

Starting Art introduces art concepts such as colour, form and texture, reinforced and put into practice through the creative process. Each book includes a visual glossary of key art terms and a note to parents and teachers on how to ensure a good art experience every time.

Versatile, vibrant and affordable, acrylics can be painted on almost anything. Discover how to get started with acrylic painting. Acrylics are fast drying paints that can be used straight from a tube, like oil paints, or can be thinned with water, like watercolour. They are extremely versatile and vibrant, offering the artist a wide range of textures, colours and consistencies. Affordable option Acrylics are also affordable, making them ideal for covering large areas with paint. Because these paints are opaque and fast drying, they can be very forgiving, allowing you to cover up mistakes with more paint. They can be painted on almost anything and dry into a water resistant surface. While you need to be aware of how quickly they dry, acrylics can be blended beautifully. The heavy body colour of acrylics is buttery and smooth, blending on the canvas almost like oils. Because they basically dry into a plastic surface, they are ideal for using in multimedia painting as well. I will begin by introducing you to four brush shapes that will be useful in your journey into acrylic painting and what each shape can be used for. I will also cover how to care for your brushes – which is an especially important factor in acrylic painting. Every artist has their favourite brand for acrylic painting and I encourage you to look into what you enjoy working with. The tips in this article can be put into practice with any heavy body acrylic paint, student or professional grade. Simple techniques such as mixing and misting are also introduced to help you get started with this wonderfully versatile and rewarding medium. Get started with acrylic painting, from choosing your brushes to fundamental techniques Oil brushes and watercolour brushes should not be used. The Filbert brush is a great all-purpose brush that can offer a straight or rounded shape. Acrylic paint is essentially plastic; more specifically, pigment suspended in a polymer emulsion. You can break that emulsion with too much water, so take care when thinning it out. Mixing Mixing paints is a precise process Mixing paints is a precise process. Red and yellow can be combined to make a variety of oranges. Using a palette knife, a plastic knife, or even an extra brush is ideal when acrylic painting. Mix thoroughly and remember that some paints can dry a slight shade darker. Misting One way to keep paints moist easily is to mist them with water Acrylics dry quickly – sometimes too quickly. You can buy gardening misters at hardware or gardening stores. This can be a valuable trick to quickly lie in an under painting to get started. Gesso Gesso is a white paint mixture used as a ground for acrylics and oils Gesso is a white paint mixture used as a ground for acrylic painting and oils. Linen is stretched for canvas then painted with gesso to provide a smoother and more resistant surface for the paint to be pushed around on. Acrylic gesso is a little different from traditional gesso as it contains latex. Glazing Glazing is a great way to seal pencil sketches to paint over Glazing is a great way to seal pencil sketches to paint over. Using a gel medium is the best and most even way to achieve a glaze. I mix a bit of gel medium and paint together with just a little mist of water to loosen it all up. Blending Working wet into wet is the best way to blend Blending is a tricky technique to master with acrylic painting. First I lay in a layer of white then using a filbert brush, add in blue along the bottom of the area being blended. I stroke back and forth, rapidly up and down the area, until I get a nice gradient from darker blue to white. Working wet into wet is the best way to blend. You can also dry blend by laying in colour, letting it dry then dry brushing colour over it. I start by loading up my brush with a deep purple and paint a shape into the dry orange paint. From here I can drag out the other side of the stroke to feather it into the canvas and orange paint below. You can see that acrylics have an incredible amount of control and will stay put pretty much where ever you put them.
