Chapter 2 : UPNEBookPartners - A Variorum Commentary on Poems of John Milton : Cheryl H. Fresch

The general editor of A Variorum Commentary on the Poems of John Milton, he is the author of The Essential Milton: An Annotated Bibliography of Major Modern Studies; Paradise Lost: An Annotated Bibliography, and editor of The Faerie King and John Milton: An Annotated Bibliography,

It is one of the most frequently dramatised of all novels. The influence of Treasure Island on popular perception of pirates is vast, including treasure maps with an "X", schooners, the Black Spot, tropical islands, and one-legged seamen with parrots on their shoulders. Leavis, William Empson and I. Richards have all given celebrated and widely influential talks as the keynote speaker. Forster had recently published his masterpiece, A Passage to India, and rose to the occasion, delivering eight spirited and penetrating lectures on the novel. The decision to accept the lectureship was actually a difficult one for Forster, as he had deeply ambivalent feelings about the use of criticism. Although suspecting that criticism was somewhat antithetical to creation, and upset by the thought that time spent preparing for the lectures was time away from his own work, Forster accepted. His talks were witty and informal, and they consisted of sharp, penetrating bursts of insight rather than overly-methodical analysis. They were a great success. Published later as Aspects of the Novel, the ideas articulated in his lectures would gain widespread recognition and currency in twentieth century criticism. A "flat" character, according to Forster, can be summed up in a single sentence and acts as a function of only a few fixed character traits. Instead, he argues that there are compelling artistic reasons for a novelist to employ flat characters. And there are unquestionably great novelists, such as Dickens, who use only flat characters. Yet it would be a mistake to reduce this book to its most famous line of argument. Aspects of the Novel also discusses the difference between story and plot, the characteristics of prophetic fiction, and narrative chronology. Throughout, Forster draws on his extensive readings in English, French and Russian literature, and discusses his ideas in reference to such figures as Joyce, Tolstoy, Dostoevsky, James, Sterne, Defoe and Proust. A landmark in literary criticism, Aspects of the Novel has also provoked its fair share of disagreement. No one else in Shakespeare is so legitimate a representation of supreme authority Bob Dylan - Winner of the Nobel Prize for Literature From the first screech of his electric guitar upsetting musicians at a folk festival to his writing and paintings, Bob Dylan has risen to become a seminal force in American popular culture.
