If we have a dispute that we cannot resolve on our own, we will use Binding Arbitration instead of filing a lawsuit in a regular court except that you can use small claims court. Binding Arbitration means our case will be decided by one or more arbitrators who are chosen and paid by all parties to the dispute. Arbitration is a faster and less formal way of resolving disputes and therefore tends to cost less. To begin an arbitration proceeding, please send a letter requesting arbitration and describing your claim to: If you do win a case against us, the most you can recover from us is the amount you have paid us.

Free Algebra 2 worksheets (pdfs) with answer keys-each includes visual aides, model problems, exploratory activities, practice problems, and an online component.

We currently have worksheets covering order of operations, evaluating expressions, adding and subtracting rational numbers, and multiplying and dividing rational numbers. These Basics for Algebra 2 Worksheets are a good resource for students in the 9th Grade through the 12th Grade. We currently have worksheets covering handout for complex numbers, finding the absolute value of complex numbers, graphing and writing equations for complex numbers, working with complex numbers, operations with complex numbers, and rationalizing imaginary denominators. These Complex Numbers for Algebra 2 Worksheets are a good resource for students in the 9th Grade through the 12th Grade. We currently have worksheets covering graphing and properties of parabolas, equations of parabolas, graphing and properties of circles, equations of circles, graphing and properties of ellipses, equations of ellipses, graphing and properties of hyperbolas, equations of hyperbolas, classifying conic sections, eccentricity, and systems of quadratic equations. These Conic Sections for Algebra 2 Worksheets are a good resource for students in the 9th Grade through the 12th Grade. Equations and Inequalities Worksheets This section contains all of the graphic previews for the Equations and Inequalities Worksheets. We currently have worksheets covering multi-step equations with integers, decimals, and fractions. We have absolute value equations, multi-step inequalities, compound inequalities, and absolute value inequalities. We have several word problem in this section such as two step equations, "distance, rate, and time" problems, mixture problems, and work word problems. These Equations and Inequalities Worksheets are a good resource for students in the 9th Grade through the 12th Grade. Exponential and Logarithmic Functions Worksheets This section contains all of the graphic previews for the Exponential and Logarithmic Functions Worksheets. We currently have worksheets covering the meaning of logarithms, properties of logarithms, the change of base formula, writing logs in terms of others, logarithmic equations, inverse functions and logarithms, exponential equations with and without logarithms, graphing logarithms, and graphing exponential functions. These Exponential Functions Worksheets are a good resource for students in the 9th Grade through the 12th Grade. We currently have worksheets covering evaluating functions, function operators, and inverse functions. These General Functions Worksheets are a good resource for students in the 9th Grade through the 12th Grade. We currently have worksheets covering review of linear equations, graphing absolute value functions, graphing linear inequalities. These Linear Functions Worksheets are a good resource for students in the 9th Grade through the 12th Grade. Matrices Worksheets This section contains all of the graphic previews for the Matrices Worksheets. These Matrices Worksheets are a good resource for students in the 9th Grade through the 12th Grade. Polynomial Functions Worksheets This section contains all of the graphic previews for the Polynomial Functions Worksheets. These Polynomial Functions Worksheets are a good resource for students in the 9th Grade through the 12th Grade. Quadratic Functions Worksheets This section contains all of the graphic previews for the Quadratic Functions Worksheets. We currently have worksheets covering properties of parabolas, vertex form, graphing quadratic inequalities, factoring quadratic expressions, solving quadratic equations, completing the square, solving equations by completing the square, solving equations with the quadratic equation, and the discriminant. These Quadratic Functions Worksheets are a good resource for students in the 9th Grade through the 12th Grade. We currently have worksheets covering simplifying radicals, operations with radical expressions, dividing radical expressions, radical and rational exponents, simplifying rational exponents, square root equations, rational exponent equations, and graphing radicals. These Radical Functions Worksheets are a good resource for students in the 9th Grade through the 12th Grade. Rational Expressions Worksheets This section contains all of the graphic previews for the Rational Expressions Worksheets. We currently have worksheets covering graphing simple rational functions, graphing general rational functions, simplifying rational expressions, adding and subtracting rational expressions, multiplying rational expressions, dividing rational expressions, complex fractions, and solving rational equations. These Rational Expressions Worksheets are a good resource
