It featured a more rounded body style and interior. Japanese models received new twin cam engines: The Starlet for Japan and Indonesia have a rear center garnish and therefore the license plate is mounted on the bumper. Pre-facelift Toyota Starlet Van 1. The sports model have different bumpers, headlights, and tail lights from the regular models. Sports bucket front seats and a rear spoiler are also standard on the Gi and GT. The GT has a two-mode low and high turbo. It came with standard sports front seats, three-spoke steering wheel, sunroof, and rear spoiler. The UK model was the 1. For , the UK models were 1. All GLi models have a sunroof. New Zealand received the XL 1. There was also a van model for certain markets where the tax structure suited such a model, without rear seating and often with blanked out windows in the rear. While van versions of earlier Starlets had always been available in Japan, changes in the tax system meant that the fourth generation Starlet was only sold as a passenger car in the home market. The 1st facelift Starlet 1. A new front bumper and revised interior were installed, and the addition of a safety beam inside the doors were added for all models. The Starlet canvas top Si with folding canvas roof was offered in Hong Kong and certain European countries. The first facelift Starlet 1. The full-wide rear garnish was deleted. The hatch trunk now has smooth panel with small garnishes. The Gi and GT featured twin round headlights and mesh grille, also known as "quad" headlights. Hong Kong received Japanese market Soleil L. In New Zealand the sporty 1. Production in Japan ended in December , but continued in Indonesia until March The last series in Indonesia was marketed as the "Fantastic Starlet" with sporty bumpers, grille, and hood from the Japanese Gi. At the beginning, the Fantastic Starlet was offered in the mid-level SE and top-of-the line SE-G, but later the cheaper model was discontinued. As with other Japanese market Starlets, the GT Turbo received minor changes in January which included new bumpers and rear combination lamps. The second minor change was given in May , this time with four round quad headlights combined with the mesh grille. The tail lights remained the same, but the full length center garnish was replaced by the small ones on each side. Production of the car ended in December , but the popularity of the car is still maintained by a cult of drivers, mainly as a used import. The Starlet GT turbo and the normally aspirated 1. Two limited edition versions of the GT turbo were produced; the GT Limited and the GT Advance, both featured small changes such as different steering wheels and gear shifter knobs, a rear strut bar, ABS later versions only and were distinguishable by their two tone paint scheme. These models also featured an optional LSD which was available with the C transaxle. Fifth generation P90; â€“ [ edit ] 90 Series Starlet 1.

Unlike the Japanese counterparts, the North American Corolla at this time was only offered as a four-door compact sedan. A new all-aluminum 1ZZ-FE engine powered all Corollas, making this generation lighter than its predecessor. This new engine uses a timing chain instead of a timing belt. This prevents oil burning and valve guide failure in the future. In North America, only sedans were offered, and all came with day-time running lights. An optional powered sunroof was offered on the CE and LE models. An optional Touring Package with color matched side skirts, color matched rear mudflaps, a white faced instrument cluster with tachometer and outside temperature gauge, and aluminum wheels was reserved for the VE[ citation needed ], CE, and LE models. The introduced VVT-i optimizes cam and valve timing to reduce emissions, and the addition of individual coils for each cylinder helped control spark timing to each individual cylinder. The CE now became a base model still offered in 5 speed manual or 3 speed automatic transmission and the sporty S served as the new Touring Package which can be had with a 5 speed manual or 4 speed automatic transmission. As such, no sunroof option was available on the S models. The model year was short and was only produced until the end of to make way for the redesigned model which launched in early for the model year. Toyota official accessories available through dealerships for all trim of the 8th generation Corolla included a color-coded rear spoiler with LED brake light, front bumper bra, 6 disc CD changer, sunroof sunshade, trunk cargo net , keyless entry car alarm, cruise control, gold emblem kit, wood trim dash kit, and black rubber mudflaps. North American market engines: It can be distinguished by the round headlights and mesh grille. As a result, a sporting model with a six-speed gearbox was offered. In Australia the Corolla liftback is called Seca. Grades for sedan and Seca are Ascent, Conquest, and Ultima. New Zealand market Es had the 1. In , the Corolla Spacio , with its body panels stamped at long-time Toyota supplier Kanto Autoworks, was introduced as a two-box minivan version and sold as the Corolla Verso , which was technically similar to the Avensis in Europe and the Spacio in New Zealand. The E was the last generation of Corolla to have an upmarket Sprinter Carib offshoot; for Oceania this was based on the five-door station wagon. The 3-door hatchback was not sold in Japan, Australia or New Zealand. Locally produced components were also used, and included items such as tyres , seats , trims, and glass. This generation received a facelift in , featuring a different nose, and the new ZZ series engines with VVT-i replacing the old A series engines, except in Australia. The same vehicle was used as a taxicab in Singapore , although the North American version was offered in the private car market. The new "facelift" E came with its own new set of optional extras these however came standard on the SR models The Optional Extras included:
