

Chapter 1 : Bio of David Cochrane, Astrologer, Programmer & Teacher

AstroLocality Magic is a breakthrough: cutting edge research findings are presented in an entertaining and simple manner, and the reader is shown a whole new side of astrology which until now has been unavailable in the astrological literature.

There are several ways to determine how we function in different places. One of the most popular is to use the relocated chart. The relocated chart is constructed by making believe you were born in the place you are interested in. If you were born in New York City and you live in Los Angeles, you construct a chart for a baby who was born at the same instant in time that you were born but this baby is born in Los Angeles in stead of New York City. The clock time in Los Angeles is 3 hours earlier but it is the same instant in time. If the relocated chart in Los Angeles has Venus on the 7th house cusp, you are likely to find love and romance in that place! You may want to know where else the relocated Venus is on the 7th house cusp. The places where Venus is on the 7th house cusp move gradually from Los Angeles and can be placed on a map. This is what an AstroMap is. How about places where Jupiter trines the MC to help your career? Although Jim Lewis used only conjunctions to the house cusps, other astrologers started mapping other aspects. Using only conjunctions, few places are significant. If you use minor aspects and midpoints, there are influences in all places. How I stumbled into the Friendship and Family Map: It is a marriage chart and a dharmic path in life chart. From my experience with the 9th harmonic, I believed the 9th harmonic would be appropriate for the Friendship and Family Map. Marriage in India is often viewed as being about creating family, not about falling in love in the fashion that became emphasized in the later Middle Ages. What does that mean? This led to the pilot study that confirmed the theory as well as the anecdotal evidence from using the system. In India the 9th harmonic is extremely important. The 9th harmonic is the "alienation buster" like the "ghost buster"; it gets rid of alienation in your life! This marriage of East and West may be one that both the East and the West do not like because we tend to rely on what we have learned in astrology and sometimes we can be a bit skeptical that someone else knows as much or God forbid, more than we do. However, I believe that this marriage of East and West is a breakthrough for astrology. People who have lived in a place for more than 5 years or so and are very comfortable there have Moon or Venus in 9th harmonic aspect to an angle within a 1 degree orb. The hypothesis was validated in the pilot study. Having all the details correct: Also, the study showed that people who did not relocate did not have the aspects. The Detailed Friendship and Family Map shows what resources you have in a place. Rather than asking where to live, this can help you see what is available to you to help you feel comfortable and at home where you live. Also note that some "oddballs" want career success, artistic creativity, or inspiration more than bonding with friends and families. These people are actually less common than one might think, but there is no one answer for everyone.

I started going through one of them casually, and things became very quickly interesting. Many past events from my younger years, especially connected to behaviors, attitudes and tendencies became very quickly prominent. Certain issues which I am undergoing now were mentioned in some of the reports, especially the Harmonic and Karmic reports. The karmic insights report clearly told me the lessons I had to learn in this life and what karmic theme I was carrying forward from my past life. I especially found myself amazed at the Harmonic insight and accuracy of transits and recommendations day by day. I believe these in-depth reports are a powerful tool to navigate through daily life

and avoid unnecessary drama. Instead, I gathered the courage now and patiently and realistically work to realize them. I did Advance Pack and this Astrology reports helped me to learn about myself and to find reasons for my behaviour. I was shocked about the precision by which astrology reports summed up my life, my behaviour and also some bad events that happened to me in the past. When I learned why all of this things happened, the future suddenly felt brighter. Astrology reports gave me more optimistic approach to life in general.

AstroLocality Magic presents a new synthesis of several relocation methods into a new system. With unusual clarity and simplicity, the author explains the theoretical foundations for this new system. It really confused Astrology too. Saturn was the King, the lord of time, the god of Agriculture. If the cycles of nature were unfavorable to farmers, they figured Kronos was not pleased and tried to make him happy. Jupiter was the Crown Prince, who had dominion over laws and ritual – interestingly, Zeus is called Bhrispati or Guru in India, and is the high priest of the Devas. But these multi-faceted entities gradually became more polarized. Saturn became a child-eating Titan, and Jupiter became a benevolent king. But the Greek myths also portray Zeus was a shape-shifting rapist who made heroes to fight the creatures brought to life by elder goddesses. Jupiter can expand ambition, whereas Saturn can bring patience. But Saturn can also establish limits as fast as Jupiter tries to break them. And limits are not always an exclusively bad thing, but neither is ambition. Today, these planetary archetypes almost always assert themselves through the stories told by modern cinema, as they have done in literature and the spoken word since humans learned to record their stories. There are a few excellent examples of a good Saturn and a bad Jupiter in modern movies. My favorite is found in the Lord of the Rings series. We have Gandalf, the wise and old wizard who is kind, patient and reclusive. Then we have Sauron, the high wizard who will stop at nothing to achieve his aims. Guess which is which? Gandalf did everything he could to maintain his autonomy. He would not touch the ring; just its presence was enough for him to know what would happen if a being of his power wore it. He knew that it must be destroyed because of its evil mojo. He returned from the depth even more powerful and more serious about ridding Middle Earth of Sauron, the monster who was the nemesis of happiness and peace. Gandalf was an integrated, Good Saturn. Whom he could not control, he tried to enslave. The only greater good he could imagine was one in which he was the ruler over all. Sauron was possessed by the archetype of Bad Jupiter – which is usually what happens when belief goes wrong. As a side note, no one ever played Bad Jupiter as well as Christopher Lee. So Bad Jupiter vs, Good Saturn is a recurring theme in the movies these days, since the industry has been trying to portray heroes and villains as more than one-dimensional characters. A lot can be learned by binge-watching offerings on the various channels of mainstream media.
