B is for Burglar, from Sue Grafton's #1 New York Times bestselling Kinsey Millhone Alphabet mystery series. Although business has been slow lately for P.I. Kinsey Millhone, she's reluctant to take on the case of locating Beverly Danziger's sister Elaine Boldt.

Oh, as I told you, recent printings of the above books omit quote marks. But you can argue what Begoon said in terms of design. Are the sources flawed? Are book covers of unlisted novels inadequate or less reliable? Unless of course we think her site is "wrong" in some way? I suppose it could be. If so, perhaps we need to educate her? And we wonder why people laugh. That does knock the wind out of my argument a bit, when her site is even inconsistent itself. My sense of neatness, like your continue as you begun, was happy with that. Now that does raise the possibility that later ones are marketed and referred to differently by her and her publisher. It is germane, to my mind, by the way, because that same sense of neatness would want us to deal with "all" the books in one discussion, not just the ones listed. Seems, if you look at this LOC search if that times out I found you need to click new search and enter "Grafton Sue", the later editions are being changed - "A" for instance being listed as "A" in and, then A in - "C" in then C in, suggesting all reprints may be done this way by the new publisher from around Mea culpa - sorry. Please do not modify it. Subsequent comments should be made in a new section on this talk page or in a move review. No further edits should be made to this section. Article needs a Review section, Character list, to add to the Awards section[edit] This article has a decent Plot summary, and Awards, yet needs a Reviews section and a list of Characters. Titles are in place for the two sections. Reviews can usually be found on line. I suggest checking Kirkus Reviews and Publishers Weekly as well as newspapers.

Chapter 2 : WikiZero - "B" Is for Burglar

B is for Burglar is very easy to figure out but the ride is still enjoyable as watch Kinsey solve the case. I don't feel like the author hid anything from the readers and that we had just as much information as Kinsey.

A is for Alibi When Laurence Fife was murdered, few mourned his passing. A prominent divorce attorney with a reputation for single-minded ruthlessness on behalf of his clients, Fife was also rumored to be a dedicated philanderer. B is for Burglar Beverly Danziger looked like an expensive, carefully wrapped package from a good but conservative shop. Only her compulsive chatter hinted at the nervousness beneath her cool surface. It was a nervousness out of all proportion to the problem she placed before Kinsey Millhone. C is for Corpse He was young—maybe twenty or so—and he must once have been a good-looking kid. Kinsey could see that. But now his body was covered in scars, his face half-collapsed. It saddened Kinsey and made her curious. E is for Evidence It was the silly season and a Monday at that, and Kinsey Millhone was bogged down in a preliminary report on a fire claim. It was on that sandy beach seventeen years ago that the strangled body of Jean Timberlake had been found. Maybe a bodyguard is a good idea after all Enter Robert Dietz, a burnt-out detective, "late forties, five ten, maybe , [who arrives in] jeans, cowboy boots, a tweed sport coat with a blue toothbrush protruding from the breast pocket like a ballpoint pen. Then someone came along and put paid to that line of work. And to any other. Her most intricately plotted novel to date, it is layered in enough complexity to baffle even the cleverest among us. J is for Judgment "J" is for Jaffe: Wendell Jaffe, dead these past five years. Or so it seemed until his former insurance agent spotted him in the bar of a dusty little resort halfway between Cabo San Lucas and La Paz. Her death had raised a host of tough questions. The cops suspected homicide, but they could find neither motive nor suspect. Even the means were mysterious. She is about to meet her duplicitous match in a couple of world-class prevaricators who quite literally take her for the ride of her life. Call it Kinsey Millhone in bad company. Call it a mystery without a murder, a treasure hunt without a map, a quest novel with truly mixed-up motives. M is for Malice "M" is for money. N is for Noose Kinsey Millhone should have done something else—she should have turned the car in the direction of home. Instead, she was about to put herself in the gravest jeopardy of her career. And S is for superb: Kinsey and Grafton at their best. Beginning slowly with the day-to-day life of a private eye, Grafton suddenly shifts from the voice of Kinsey Millhone to that of Solana Rojas, introducing readers to a chilling sociopath. Twenty-one years before, a four-year old girl disappeared. A recent reference to her kidnapping has triggered a flood of memories. Sutton now believes he stumbled on her lonely burial when he was six years old. W is for Wasted Two dead men changed the course of my life that fall. The first was a local PI of suspect reputation. X Perhaps her darkest and most chilling novel, it features a remorseless serial killer who leaves no trace of his crimes. Once again breaking the rules and establishing new paths, Grafton wastes little time identifying this sociopath.
