Blaze is a novel by American writer Stephen King, published under the pseudonym of Richard Bachman. King announced on his website that he "found it" in an attic. King announced on his website that he "found it" in an attic.

What if I told you that a guy named Blaze pulled the crime of the century with a dead man? Another book by Stephen King called Blaze. Which was also written by Richard Bachman as well. Also as I read the summary about the book I began to wonder many questions about it, like "what happens to the baby, who is Blaze, does he get the money, and who is the dead man who pulled the crime with Blaze? The situation in the story is mostly about Blaze. About how he lived through his horrible childhood and how he lived through it as a boy. It goes back and forth between the story, how he tries to steal the baby and about many childhood memories and stories as a boy leading up to the final moments and chapters of the book. If he finally gets the money or if he actually succeeds in stealing the baby or not? The authors emotions and feelings about the book were very strong. Blaze, as I said earlier had a bad childhood. First of all, his father threw him down the stairs three times and made a huge dent on his forehead. The dent is still there till the end of the story and is mentioned several times throughout the book. Later on he moves to an orphanage called Hetton House and gets in more trouble there. He also gets into fights constantly. Then one day stopped all of it. Now as an adult he does cons and scams to get money and the things he wants. As he keeps doing these cons he has made a few new friends along the way, making the cons better and bigger. The book is more like a mystery and horror type book. Then it shocks you, what the results really are. This is another reason why I wanted to read this book over the summer. I recommend this book for people who like Stephen King. Oops or like a good mystery to read.

Chapter 2 : TheBlaze | Authentic. Unfiltered. Fearless.

"Blaze" is a straightforward, almost sappy, story from Stephen King -- and I definitely loved every sentimental moment of it. Read more 7 people found this helpful.

King therefore wanted to write under another name, in order to increase his publication without over-saturating the market for the King "brand". He convinced his publisher, Signet Books, to print these novels under a pseudonym. He says he deliberately released the Bachman novels with as little marketing presence as possible and did his best to "load the dice against" Bachman. King concludes that he has yet to find an answer to the "talent versus luck" question, as he felt he was outed as Bachman too early to know. The Bachman book *Thinner* sold 28,000 copies during its initial run and then ten times as many when it was revealed that Bachman was, in fact, King. *Richard* is a tribute to crime author Donald E. Bachman was inspired by Bachman's *Turner Overdrive*, a rock and roll band King was listening to at the time his publisher asked him to choose a pseudonym on the spot. Known "facts" about Bachman were that he was born in New York, served a four-year stint in the Coast Guard, which he then followed with ten years in the merchant marines. Bachman finally settled down in rural central New Hampshire, where he ran a medium-sized dairy farm, writing at night. His fifth novel was dedicated to his wife, Claudia Inez Bachman, who also received credit for the bogus author photo on the book jacket. The link between King and his shadow writer was exposed after a Washington, D. C. Two weeks later, King telephoned Brown personally and suggested he write an article about how he discovered the truth, allowing himself to be interviewed. King insisted that his name not be on the credits, and the screen credit for the film went to Richard Bachman. King used the "relationship" between himself and Bachman as a concept in his book *The Dark Half*. The two book covers were designed to be placed together to form a single picture. In the foreword by King included with *Desperation* he said that there may be another Bachman novel left to be "found". For its publication King rewrote, edited, and updated the entire novel. It was published in under the Bachman pseudonym, with a foreword by King under his own name. King has taken full ownership of the Bachman name on numerous occasions, as with the republication of the first four Bachman titles as *The Bachman Books: Four Early Novels* by Stephen King in 1991. After the Heath High School shooting, King announced that he would allow *Rage* to go out of print, fearing that it might inspire similar tragedies. *Rage* for a time continued to be available in the United Kingdom in *The Bachman Books* collection, although the collection now no longer contains *Rage*. His character, named Bachman, performed contract work quietly disposing of deceased bodies. In issue 29 of the comic adaptation of *The Stand*, Richard Rich Bachman appears as one of the top lieutenants of Randall Flagg, [6] replacing the character of Whitney Horgan from the original novel. He is drawn to resemble King.
