

WHO IS THAT HERO FOR HIRE? Rick Westley: When a letter bomb destroys his office he figures it's a fluke--who'd want to hurt him? He isn't exactly the action/adventure hero type.

The Android continued in the role of antagonist, appearing in *Tales of Suspense* 72 Dec. The Android reappeared as part of a supervillain team in *The Avengers* Feb. The Android was reclaimed and upgraded by the Thinker in a humorous storyline in the series *She-Hulk* ; and made a brief appearance in *Exiles* vol. Fictional character biography[edit] The villain Mad Thinker creates an artificial lifeform based on the research notes of *Fantastic Four* leader Mister Fantastic. A synthesis of ape DNA and unstable molecules incorporated into an almost indestructible body with a microcomputer and a solar-power source, the newly christened Awesome Android is directed against the *Fantastic Four*, although the superhero team defeats both the Android and the Thinker. After a brief battle, Rom successfully deactivates the Android. The group is eventually defeated by the superhero team the *Avengers* with Namor the Sub-Mariner deactivating the Android by ripping off its head while in the water, causing his torso to flood and sink. The Android is neutralized by Captain Marvel. The Thinker upgrades the Android to absorb additional abilities, such as musical talent and animal traits. The Android is legally emancipated from the Thinker, with a court recognizing the being as a male with a new name, "Awesome Andy. The board, originally depicted as a chalk board, was retconned into a digital display screen with a Wi-Fi connection to his CPU. Upon realizing she does not actually reciprocate these feelings, the character deactivates his powers, and, after being rejected by her, leaves the law firm. He was shot into space by the Zero Cannon. The character has limited artificial intelligence and no capacity for self-motivated activity, and is totally dependent on its programming or on the spoken commands of its programmer, and usually deactivates itself when not active. The Android has super strength and durability, and can also mimic an ability one at a time after touching an opponent, such as the strength and epidermis of the Thing or the frost coating of Iceman. The character can also emit close-range blasts of gale-force wind from its mouth. The Android is given one weakness by the Thinker: This version is named Andy Erwin and is introduced in the episode "Enter: Iron Monger" as a goth like his sister Rhona. Andy does managed to convince Rhona to allow Tony to use a lifeline from the captives that Tony frees. Displeased that Tony won the D. Andy manages to beat up Happy Hogan. Tony becomes Iron Man and ends up fighting Andy. Iron Man manages to damage Andy much to the disappointment of Rhona. This version was an experiment found in Dr. Helicarrier in brick form. Before the science fair begins, Awesome Android comes to life and starts eating everything. Phil Coulson states that it is an artificial intelligence and that it eats inorganic matter to increase its growth. Awesome Android then goes on to eat up much of the city. During the fight, the S. Trainees discover that Awesome Android contracts to cold as it causes him to shrink. Awesome Android is then reclaimed by S. When Awesome Android devours some bad chemicals as a way of disposing it, he causes a fire where he ends up freeing Sandman who ends up dousing the flames and stopping Awesome Android. Afterwards, Spider-Man helps Awesome Android clean up the mess from the resulting battle. Miscellaneous[edit] Awesome Android appears in the comic book spin-off to *The Avengers*: He was seen with Mad Thinker and Quasimodo where they were committing a criminal activity.

He was the son of Esther and James Lucas , a retired N. Lucas spent his youth causing trouble on the streets with his friends Willis Stryker and Reva Connors. He eventually joined a gang called The Rivals along with his best friend Stryker. He fought the rival gang the Diablos and committed various petty thefts, often on behalf of deformed crimelord Sonny Caputo a. He dreamed of becoming a major New York racketeer until he finally realized how his actions were hurting his family. He sought to better himself as an adult, finding legitimate employment. He was badly attacked in a mob hit, but Lucas there to save him. After that Reva ended their relationship and turned to Lucas for comfort. This created a rift between the two former friends and Stryker believed Lucas was the cause of the break-up. He spent his time getting into brawls along with various escape attempts. Because of this he was transferred to Seagate Prison one of the toughest facilities off the coast of Georgia. On his first day he became target of racist and sadistic prison guard; Albert "Billy Bob" Rackham. His brutality toward Lucas was the reason he was later demoted, which made him hate the inmate even more. Noah Burstein came to the prison to carry out secret medical research and recruited Lucas as a volunteer. He was secretly working on experimental cell regeneration based on a variant of the Super-Soldier process. He had previously used to empower Warhawk. When he left equipment unattended, Rackham tampered with the controls, hoping to kill Lucas. Lucas used his new-found powers to escape the prison and make his way back to Harlem. A chance encounter with criminals inspired him to use his new powers for profit. Now he had powers he decided to don a distinctive costume, and start a new career as a "Hero for Hire". He would help anyone who could meet his price. He first met Claire after he was attacked by hitmen hired by his old friend Stryker. At the clinic he met old friend Dr. Claire was kidnapped and Luke tracked her to the perpetrators lair, where he was surprised to find that it is his old friend and betrayer Stryker. The two former friends fought. During the fight Stryker fell through a skylight and was blown up by one of his own trick switchblades, ruining any hope Luke had that Stryker could clear his name. Gideon Mace , an embittered veteran who planned revenge on the US government. Mace enlisted disgruntled veterans, to paralyze Manhattan for a day to distract the cops. However this was a decoy as he planned to attack and rob Wall Street. Luke was next hired by Jasper Brunt to investigate the "Phantom of 45th Street". The two men fought but they fell out the window to their deaths. Luke arrived to find two thugs beating on Jenks. He managed to fight off the attackers but not before Jenks was stabbed. Luke tracked the ambulance back to a warehouse on 17th street. He noticed an ambulance pull out of the warehouse but once the driver spotted Luke he turned around and quickly drove back inside. Suspicious, Luke went in after him, fully expecting an ambush. Luke pretended to get knocked out and was dragged before Black Maria herself. Luke sprung back into action and beat up his captors. Maria tried a different tactic and lunged at Luke, using her weight and enormous size to her advantage. Reluctant to hit a woman, Luke braced himself against a wall and let Maria run into it. Thinking herself bested, Maria tried to flee on a speedboat. Luke jumped from a gantry and landed on the boat, capsizing it and leaving Maria floating in the water. She was later arrested.

Shiva has also trained the third Robin, Tim Drake. Over time, she has become more closely associated with Batman and related characters, both as an enemy and an ally. She is a martial arts grandmaster, one of the most skilled combatants in the entire DC Universe. She is an assassin-for-hire, who specializes in bare-handed kills. Contents History Sandra Wu-San Shiva was born in a shanty town, in an unknown country, and raised to be a warrior and protector of the village. Eventually, Shiva successfully fled the village with her sister. There, they devoted their time to practicing the martial arts. Out of love for her sister, Sandra held back in her spars with Carolyn. The assassin David Cain saw this restraint in Sandra one day when he visited Detroit to see the siblings perform. In the heat of a losing battle, Sandra realized how Carolyn had held her back, and how much undeveloped potential she had. Cain spared her life, and in exchange, Sandra agreed to bare Cain a child, and leave it for him to raise. With Carolyn gone, Cassandra and Sandra were the only two humans known to share this gift. Shiva set out with her martial arts and began training to perfect them. She went on adventures with Richard Dragon and became addicted to the adrenaline rush that is gained from life or death situations. She eventually became a mercenary for hire in order to finance her activities. She became so skilled that people will pay high prices for her services. Shiva in her prime Shiva continued to work as a mercenary for money, challenge, and perfection of her skills. Though she has kept close ties with the League, she sometimes works against their interests, as seen during Batman: Eager to finally face Batman uninterrupted, Shiva knocked Robin unconscious and challenged the Dark Knight. Initially underestimating Shiva and thinking that she was just showing off, Batman soon found that her skills were such that she could kill him, and began to fight in earnest. It took intervention from Robin to knock Shiva unconscious and subdue her for interrogation. When Batman dosed her with sodium pentothal, Shiva claimed to have no children, confirming that Jason was not her son. Batman left her in the desert reasoning that she would soon free herself from her bonds. Shiva eventually traveled to Manchuria to visit with her godfather the O-Sensei , former instructor of Richard Dragon and Bronze Tiger. After living over years, he had finally decided to die. The O-Sensei had Shiva select three warriors to aid him in the search for her remains: Compelled to test his skill, Shiva immediately fought the vigilante only to be stopped by the O-Sensei. They did, however, convince Batman to aid them. In their search for Green Arrow, Shiva encountered slave traders, killing all except one who successfully cut her, whom she rewarded with a kiss on the forehead. After locating Green Arrow, she met Black Canary for the first time, and sparred with the hero. Although Canary did not know it at the time, the two had both studied under Sensei Otomo, though nonconcurrently. Getting involved with Gotham In further pursuit of her art, Shiva tracked the defeats of martial arts masters, in order to discover new techniques. In this way, she developed an interest in the defeat of Koroshi, master of the art of empty-handed fighting. Gaining no information from Koroshi himself, she began to search for King Snake, the man rumored to have defeated him. Shiva saw potential in Drake, and took him on as a student. As a bonus, she offered to train him in one weapon, and he chose the bo staff. Shiva derisively mentioned that it was not a lethal weapon, and Drake explained that was the reason he had chosen it. At the end of his training, he defeated Shiva in a sparring match with the bo, and she gifted him with a collapsible bo staff. Eventually, they discovered that the Ghost Dragons were creating a virulent plague. Robin, Shiva, and ally Clyde Rawlins attempted to stop them from releasing it, but the Dragons escaped with a few canisters. After tracking them to Hong Kong, they eventually defeated King Snake , though Rawlins died in the attempt and Shiva mostly witnessed the proceedings. While King Snake hung precariously on the ledge of a building, Shiva ordered Robin to kill him to signify his "graduation" and become her "weapon. Shiva then threw the King Snake off the ledge herself, though he survived the fall. Though she deemed him unworthy of her efforts, she devised a training regimen, out of respect for what he had been before his injuries. As part of this training, Shiva killed Gotham native, the Armless Master, a sensei notable for training Catwoman , while wearing a tengu mask, making sure that his

death was both witnessed and relayed to his best students. Shiva then made Batman wear the mask while performing training missions. Batman simply feigned using the maneuver on an assailant to trick her into believing he used lethal force. Shiva later discovered the truth, but did not seek vengeance. The trail had led Batman to Calcutta, India. Since their knowledge of the city was limited, Oracle contacted Shiva, who agreed to help Batman. Granted superspeed by a drug Dava gave him, and unused to its effects, Robin unwittingly used lethal force, killing Shiva in battle. He quickly administered CPR, both reviving Shiva and dosing her with the drug. Thus enhanced, she killed attacking soldiers while Robin and Dava made their escape, vanishing immediately after. As repayment for saving her life, Robin asked her to spare Connor. She relented, warning Robin that this use of her favor meant she would challenge and kill him when he was older. Over the years, Shiva amassed groups of followers who worship her as an incarnation of Shiva, the Hindu incarnation of death. She pays them little attention, occasionally using them as lackeys or killing them when it suits her whims. Some of her followers have even created temples to honor her victories, one of which was Gotham, which she later destroyed. Seeing promise in Cassandra, Batman and former Batgirl, Barbara Gordon, gave Cassandra their blessings to take up the mantle of Batgirl. Without telling her of their relationship, Shiva challenged Batgirl to a battle to the death. Wanting to fight Batgirl at her peak, Shiva refrained from killing her, and promised to retrain her on the condition that they have a rematch in one year. The secret to being undefeatable, Shiva explained, was to not fear death, even to seek it. Realizing that Batgirl had not given her all, Shiva revived her. Batgirl admitted to harboring a death wish ever since Cain first forced her to kill. Her ability to perfectly read the agony of her victim had deeply traumatized her. Having overcome her death wish, Batgirl fought again, shattering the sword Shiva wielded. In the midst of battle, Batgirl accused Shiva of having a death wish herself, really only traveling and fighting in search of her own death. Batgirl defeated Shiva by breaking her jaw, but refused to kill her. Cheshire ties up, gags and locks Shiva in the trunk of a car wired with explosives, so as to use the similarly Asian charred corpse in a plan to fake her death and flee the country after murdering a senator. Fortunately, Shiva is saved when Catwoman discovers her. After Cheshire confesses to murdering their sensei, Black Canary kicks her out of a helicopter to prevent Shiva from killing her in a vengeful rage. Shiva subsequently offers to share her knowledge with Black Canary, who takes her offer under consideration. In battle, Cassandra sacrificed her life to save former League member Tigress from an attack by her own unsuccessful experimental predecessor, Mad Dog. Shiva decided to resurrect Cassandra in a Lazarus Pit to reveal the truth of her heritage, and fight her once more. On reviving her, Shiva admitted that the reason she agreed to give birth was that she hoped her child would be the one to kill her. Shiva, still alive, begged Cassandra not to heal her in the pit. Powers and Abilities Martial Arts: Lady Shiva is a deadly assassin and one of the prominent martial artists on the planet. She has combined many moves and elements from numerous martial arts including a few forgotten ones to create a combat form that matches her own strengths. It has been said that Shiva can heal as deftly as she can harm. Shiva is very literate in body language. She can often predict what an opponent will do before they do it and better plan her attacks this way. She can control her nervous system enabling her to deaden her body to physical pain, control her emotions. She can even control her bleeding rate. In Other Media Shiva appears in Batman: Where she teams and betrays all the heroes, and was later captured.

But what message are you sending with your body language? And check back on Friday for Part 2! Be careful of the culture. The following tips are applicable based on the norms of North American culture. But body language in different countries can be as diverse as verbal language. For example, an appropriate distance between in the United States might be too close in many Asian countries. Worse, many common American gestures are downright offensive in other places. A handshake lasts just a few moments, but since it happens in the beginning of any interaction it creates a lasting first impression. Keep your hands dry by avoiding cold drinks and relaxing. Avoid shaking with both hands which can be an invasion of personal space. The perfect handshake should grasp the whole hand firmly but lightly, shake once and release. Keep eye contact and smile. And never wipe your hands on your pants afterwards – it seems like you think the other person is unclean. Smiling is crucial to maintaining a lasting business relationship. Not only do people like you more when you smile, you become more memorable as well. But not just any smile will do. So whenever you smile, think of a happy memory beforehand so you seem sincere. Then, smile strategically when in conversation. Look at the other person for a second and then smile slowly. Finally, consider finding reasons to smile in tense situations to help reduce stress in both yourself and others. So spend a few minutes before a big meeting sitting it standing with your arms and legs spread out wide like a star, or your legs spread wide and your arms on your hips like Superman. While these poses are best done in private, you should watch your posture with others too. The more space you take up, the more powerful you seem. So stand up straight – slouching is a sign of disrespect. Adopt a wide stance, with your feet firmly on the ground. For best results on projecting solidity and confidence, stand up straight with your feet about 7 inches apart and one slightly in front of the other. Move any physical barriers to keep an open line of communication. This includes moving both objects and yourself, like uncrossing your arms. Talking head-on can come across as confrontational – which is why you should always stand at an angle in an argument to help diffuse the tension. But not too much. Eye contact is one of the toughest body language techniques to master. There are several tricks you can use to help you do that. When you need to come up with an answer, look slowly off to the side since looking down seems submissive. But if you still feel bored or uncomfortable after several tries, you might be staring for too long. In business, how you sound is just as important as what you say. A high-pitched squeak makes you seem unsure and more nervous. So take a deep breath, lower your pitch and slow down. What did you think of this article?
