History[ edit ] The self-formation of political organizations of Indigenous peoples of North America has been a constant process over many centuries—the Iroquois Confederacy and the Blackfoot Confederacy are two prominent pre-colonial examples. Other groups formed to enter into Treaties with colonial governments. In , the Allied Tribes of B. Rickard organized an annual celebration to assert border crossing rights, Indian rights generally, and respect for the value and dignity of Indigenous culture. A split took place in the League of Indians in , and in the Indian Association of Alberta was formed. After the Second World War, the other faction formed "The Protective Association for Indians and Their Treaties" to advocate for native title and recognition of rights over traditional territories and resources. Its objective was to protect Indian treaties and treaty rights; to promote the welfare of the Indians of Saskatchewan, to foster progress in the economic development, education and social life of Indians; and to cooperate with civil and religious authorities in matters pertaining to Indian interests. Indian Chiefs to oppose the new proposed policy. A report of the federal Interdepartmental Committee on Indian and Eskimo Policy in July formed the basis for the Secretary of State Core Funding program for native organizations approved by Cabinet. The government envisaged a neat package of three national aboriginal associations and one regional association per province or territory for each. An adjustment was made in the case of Ontario where Indians had already organized four associations on tribal and treaty lines. The objective was to assist groups "to communicate their needs and views effectively to all levels of government, to participate in the political, social and economic institutions of Canadian society, and to contribute to the development of aboriginal leadership. This has led to a situation in which the then vice-president of the Native Council of Canada for non-status people was a status Indian, while the president of the CYI and the vice-president of the Dene Nation were non-status Indians at this time. Supported by a churches, labour and other citizen groups, the NIB mounted massive opposition to the government plan. Startled by the strong opposition to the White Paper, the Prime Minister told the delegation the White Paper would not be imposed against their will. Undoubtedly, this was one of the last steps in ending the Canadian Residential School System , long opposed by Indigenous people, but also a first step in the push for Indigenous self-governance. The NIB gained consultative status with the United Nations Economic and Social Council in , until such time as an international Indigenous organization could be formed. However, the NIB was not without its problems. Individual chiefs and regional groupings begin to chafe because their only access to the national scene was through their respective PTOs. The chiefs complained they were not being heard. The Chiefs were delighted with the opportunity, and at a second All Chief Conference, announced that hereafter, the All Chief Conference would be "the one and only voice of Indian people in Canada. The question arose as to what would happen with the Treaty and aboriginal rights that had been guaranteed by the Imperial Crown if Canada took over its own governance. Strong national leadership from the Chiefs became essential. The Chiefs formalized their governance structure, compromised by incorporating a "Confederacy" composed largely of the NIB leadership, and made the NIB, an incorporated body, its administrative secretariat. Documents acquired through access to information requests, reveal that heads of the RCMP, and the Ontario and Quebec provincial police met in the summer of with then AFN national chief Phil Fontaine to "facilitate a consistent and effective approach to managing Aboriginal protests and occupations.

Muslim Brotherhood must have plan The Muslim Brotherhood has been part of the political scene in Egypt for more than 80 years. It was formed there by Hassan al-Banna in Teacher al-Banna and his followers were initially united by a desire to oust the British from control in Egypt, and to rid their country of what they saw as "corrupting" Western influences. The original Brotherhood slogan was "Islam is the solution. In its early years, the group concentrated on religion, education and social services, but as its membership grew, it moved into the political sphere, organizing protests against the Egyptian government. In the s, an armed wing of the Brotherhood was blamed for a string of violent acts, including the assassination of Egyptian Prime Minister Mahmud Fahmi al-Nuqrashi in -- shortly after he had ordered the dissolution of the Muslim Brotherhood. Al-Banna himself was assassinated soon afterwards -- his supporters claimed he had been killed on the wishes of the government. In the s, the group disavowed violence and attempted to join the mainstream political process, but it was banned by the regime of former Egyptian President Hosni Mubarak. Nonetheless, the Brotherhood grew throughout the decade, as part of a general growth of interest in Islam, and the U. Mubarak cracked down on the group, jailing hundreds of members. Why is it important in Egypt? The Brotherhood is the oldest and largest opposition group in Egypt. Up until , it was illegal under Egyptian law banning all parties based on religion. But in December that year, its political party -- the Freedom and Justice Party -- dominated parliamentary elections, winning about half of the seats up for grabs. So how successful has the Brotherhood been in power? Morsy came to power on June 30, , but since then his approval ratings have plummeted. The chaos drove away many tourists and investors. Morsy has few friends as deadline looms Is there still support for the Muslim Brotherhood? Columnist Frida Ghitis says one of the most striking things about the protests against Morsy has been the intensity of anger towards the Muslim Brotherhood. She points out that in June , more people had signed a Tamarod -- or rebel -- petition to withdraw support for Morsy than voted for him in the election -- a sign, she says that "discontent has spread beyond the liberals, or former regime supporters. Give Morsy a chance to fix this Egyptians accuse Morsy and the Brotherhood of engaging in a process of "ikhwanization" -- or "Brotherhoodization", Ghitis says, describing it as "a quest to take control of state institutions and impose their Islamist views on the population. And they thought secular was synonymous with atheist. Egyptian historian Khaled Fahmy says Morsy adopted a "hard line, exclusive approach," choosing Muslim Brotherhood members or sympathizers for powerful and not so powerful positions in his government and the broader Egyptian administration. For decades they were oppressed, sidelined, sometimes torture and even killed - most recently under the Mubarak regime, he says, but they managed to stay organized. He says losing power after so long could be a bitter pill to swallow. How influential is the Brotherhood elsewhere? There is also a branch in the U. Its offshoots outside Egypt are markedly more conservative in their views: The Kuwaiti branch is said to oppose the right of women to vote. Sayyid Qutb, a member of the Muslim Brotherhood in the s and s, developed the doctrine of jihad, and the radical group Hamas is believed to be an offshoot of the Palestinian Muslim Brotherhood.

Here is part of this interview: We lived in peace. We were never in conflict. Americans and Europeans exported the conflict created by Hitler in our Land. The Holocaust was a massacre against a race, against a religion -- it is a really big crime, but we were never accused of it. Why do the Palestinians pay the price of Nazis? In so doing, he wipes out in one swoop a 3,year span of Jewish history, including Jewish rule in the land for nearly an entire millennium before the Roman conquest. And even after that conquest which sent many Jews into exile, there remained a continuous Jewish presence in the Holy Land for the next 2, years. Long before the Holocaust, Jews by the thousands and tens of thousands lived in dozens of Jewish communities across the Holy Land. Compounding his perverted history, El-Erian also ignores the pre-Holocaust Balfour Declaration of when the British Government, anticipating victory in World War I and the breakup of the Ottoman Empire, called for the "establishment in Palestine of a national home for the Jewish people. That same year, the U. Congress also followed suit in endorsing the Balfour Declaration. All these events took place before the Holocaust. And wielding this perversion of history, El-Erian again uses the Holocaust as a phony historical marker when he asserts that Jews and Arabs lived in perfect harmony in the Holy Land before World War II and it was only after the war that relations soured when Americans and Europeans "exported the conflict created by Hitler to our land. El-Erian conveniently erases from the historical record a dozen Arab massacres of Jews, pre-Holocaust. In Hebron, in a two-day rampage, an Arab pogrom in took the lives of 67 Jews. Jewish homes and synagogues were ransacked. In Jerusalem, 34 Jews were killed; in Safed Unfortunately, Weymouth drops the ball in her interview. She lets El-Erian propound his lies without any challenge on her part. Worse, she lets this Muslim Brotherhood propagandist get away with the last word -- "Why do the Palestinians pay the price of Nazis?"
