

## Chapter 1 : Can a Jumbo Jet Sing the Alphabet?

*Can a Jumbo Jet Sing the Alphabet?* overflows with fun songs that will have your child dancing along while he or she encounters themes such as vocabulary, shape recognition, problem solving, spatial awareness, numbers, and cultural diversity. Included in the liner notes is an extensive teaching guide, which lists skills and concepts, vocabulary, lyrics, suggested activities, variations, and follow-up questions for each song.

This release is the third in a comprehensive guide that creatively teaches basic skills and fundamental concepts through music and movement. Great liner notes for teachers, too. Parent Magazine November Seasoned pro Palmer, who helped pioneer the use of music and movement in teaching basic skills, covers all the bases. There are songs dealing with letters, numbers, shapes, body parts, even "relating spatial concepts to basic fractions" - not to mention learning "hello" and "goodbye" in a dazzling array of languages try Yoruba, Macedonian, and Cantonese. Palmer gets tots moving, too, with sprightly, beautifully produced tunes such as "The Bean Bag" and "Boogie Down and Cruise. Hap Palmer delivers another winning recording that successfully combines music, movement, and other activities in the learning process. From the 16 short songs, children can learn numbers and phonics, identify tools and utensils, and discern the difference between fantasy and reality, among other concepts. Background instrumentation is effective, nicely supplementing the clear vocals. Lyrics and suggested activities are included in the guide, as is a list of the skills and concepts presented. Because each song deals with multiple concepts, it may be possible to use the music throughout the school year without repeating a single concept. Adult guidance is required. The lively variety of musical styles make the songs appealing to students in the intermediate grades as well. The movement activities are helpful for remedial review of basic concepts while giving students a chance to get up and move, take a break from seat work, cleanse the mind, and relax the body. Innovative original songs teach a wide range of concepts such as identification of letters, phonics, rhyming, counting patterns, comparison of number value, and fractions, including initial consonant sounds, blends and word endings. Some old favorites have also been included with updated lyrics and contemporary musical treatments. A complete guide is included which contains song lyrics and suggested ways of presenting activities to the students along with variations and follow up activities to make learning stimulating, challenging and fun! Young children learn best by doing. These songs invite active involvement in developing vocabulary and mastering a wealth of basic skills and concepts. The joy of moving generates enthusiasm to learn about: The up-beat musical arrangements appeal to students in the intermediate grades as well, making the activities beneficial for review of basic concepts. His songs enhance the development of motor skills, language acquisition, reading readiness, and math concepts as well as nurture the imaginative process and encourage creative problem solving. His widespread popularity in schools and day-care centers for over twenty years, makes him a living legend within the teaching community for young children. Teachers have used his music for more than two generations to teach letters, numbers, phonics, days of the week, colors, shapes and more. A third generation of children are now learning with his songs and movement innovations. His "Baby Songs" live-action music video series for young children has sold over 2 million units. Using his background in music, education, and dance, he helps teachers find innovative, imaginative and fun ways to teach their students with enjoyable music and lyrics that children love to listen to over and over again. With a Masters Degree in Dance Education from the University of California, Los Angeles, and a love of music, Hap Palmer gives the world of early childhood education and young children a lasting gift of learning that spans the generations.
