

Chapter 1 : Madden Best playbooks (offensive & defensive) - RealSport

We would like to show you a description here but the site won't allow us.

Aug 14, Do you love to play in the shotgun and pass it all over the field? Or do you prefer to use play action and short passes after pounding defenses with your running game? Whatever it is you like to do, there is a playbook for you.

Best passing playbook – New England Patriots Unsurprisingly, the Patriots have a diverse and deep shotgun section in their playbook. If you have a good receiving back, then this formation will get him open a lot. If the tight end is the strength of your receiving corps then fear not, because the Patriots shotgun set has some special plays for that too. Trips TE isolates the tight end away from a trips set and gives him all kinds of space to play in, while Trips Y Iso puts him out wide to terrorize smaller cornerbacks. There are also formations like Bunch that mess with coverages and Empty Ace Patriot that is a secondary empty set. The Patriots passing attack features a lot of double move routes and option routes that make it a difficult playbook to master.

Best running playbook – Seattle Seahawks The Seahawks have long seen themselves as a run-first team. While they are moving away from that due to personnel issues, their playbook in Madden 19 is still excellent for the ground game. Zone runs are the order of the day for Seattle, but this playbook includes 16 counters, 8 traps including a wham play, 14 read options, and one triple option, making it an incredibly diverse playbook for the run. What separates it from the likes of Carolina, which is also a terrific running playbook, is the formations. They all mess with angles for defenders and create clear running lanes. In shotgun the Seahawks have Wing Pair which is unique and gives you three tight ends away from the HB and has inside zone, outside zone, HB power, and HB counter in it. Those four runs from the same formation can really hurt defenses, and if you run them with the Cowboys or Steelers offensive lines, then you can cause chaos on every snap.

Best balanced playbook – New Orleans Saints The New Orleans Saints had one of the best offenses in modern history with both a devastating ground game and electric passing attack. That dual threat is mirrored in their Madden 19 playbook. They have Pistol Bunch TE that gives you a lot of options, and then an expansive shotgun set with 13 formations including the formidable Y Off Trio Weak which has been one of the most impressive formations of Madden 19 so far. This is a beautifully balanced playbook that combines a varied run game with complex passing concepts for seasoned Madden players and simple reads for beginners. If you had to use one playbook for any team, then the Saints would be it. That Wide 9 can be particularly devastating against outside runs and bootlegs. The Big Nickel Over G is a nice change up front if your opponent loves to run out of the shotgun. There are plenty of trap coverages in the Jaguars playbook, with Cover 6 Invert out of Nickel Normal looking like it will be a big one this year. The masters of physical defenses have a deep and difficult to read front with five different formations; Odd, Predator, Over Ed, Even, and Bear. Beyond just having cool names, each front plays with angles and forces offenses to adjust their blocking and even audible away from certain plays. Along with all those options from the package, you get a nine-play Split front, with zone blitzes, a Cover 2 Invert, and a Crash 3. This front is not in many playbooks, and will confuse a lot of your online opponents. You also get both a and nickel front, along with Double A Gap and Wide to give you multiple blitz options and coverage looks. The Ravens playbook gives you so many options without forcing you to sub linebackers or change your defensive ends. He brings a multiple front defense that can flip between a and with five alignments between them. Between those five alignments there are plays, more than enough to keep offenses off balance and create turnovers. There are so many pressure fronts and disguised blitzes here that you can have a field day with your opponent. Looking for money plays?

Read below to know which playbooks will be best for your team and playstyle. Your first playbook can be utilized in the Ultimate Team Mode where you get an excellent defensive option, thanks to the Dallas Cowboys. Best Defense Playbooks But when it comes to the best of the best in defense, there are five playbooks that stand out from the rest of others. Carolina Panthers carry the 5, 2 option to stop runs up the field. The Packers coming with the 1, 4, 6 or 2, 3, 6 formations. This provides a bunch of cornerbacks and secondaries to keep the ball and intercept it if need be. The Baltimore Ravens have the 3, 3, 5 formation including a pair of 3, 4. The Jaguars carry the dime formation and have pairs including 4, 3. The team that excels in defense is definitely the New England Patriots with their 3, 3, 5 formation including both pairs 3, 4 and 4, 3. Best Offense Playbooks The New Orleans Saints is a viable option since they have a tight control over the ball with the single back tight slots and their attacking options are favored thanks to the shotgun formation. They also have the Drag play available in their shotgun formation. Their Singleback Deuce Close and variable shotgun formations can pose a real threat to defenses of any strong team. The I Form Slot Flex also combines some great passing with an impeccable offense. The Jets also boost strong offense opportunities when it comes to an aggressive trio and slotbacks. They, however, lack some plays including the gun bunch, so your call really. Next up, the Seattle Seahawks have a good spread in their formation along with strong shotgun options and balance in the under-center. They also have access to the gunplay option. In their gun formation, you have got the Wing Pair play and many offset plays which are quite unique. For the whole running game, the Seahawks shine as well. Their playbooks are always about creating new angles and deceiving the opposition to cover some good yardage. The San Francisco 49ers carry one of the best offense options because of their strong gunners and split backs. This makes for a quick counter-attack and you can be sure to perform touchdowns without as much of an effort as the other teams, thanks to the I formation of the team. Best Overall Playbooks The Steelers Playbook is one of the better playbooks thanks to a number of formations that come with them. These include the single-backwing tight and single-backwing close. Then there are the I formation, pistol, and the trio formations in the shotgun category. In the single-back playbook, you have the Double South play option which only a handful of teams have. The Strong Tight in strong formation ensures some good ball-running options. Sharing the Bunch Tie in the Pistol formation with the Saints, this is an overall good playbook option. Lastly, the Gun Split Close is a must-have play as it covers most of the field. Finally, the New England Patriots, which some consider being the best playbook in the game. The strong formation has a bunch of plays for running the ball just fine. The shotgun formation really excels with the gun split close pats and the double flex plays. The Split Close Pats, Gun bunch, Y off and Trip plays only cement the Patriots as having all the options both offensively and defensively. Even when it comes to passing the ball, the Patriots have some dynamism about it. Formations like Deuce Close and Wing Slot really work well here. When they get down to business, it can be quite worrisome for the defenders to even predict their passing routes.
