

Chapter 1 : blog.quintoapp.com - Human Validation

Collaborative Minds is the premier independent psychiatric clinic for southeast Louisiana and the Gulf South, offering skilled medical professionals and comprehensive, modern treatments for a range of psychiatric disorders.

Baton Rouge Psychiatrist - Collaborative Minds 5 Your Journey Towards Wellness Begins Here We ensure that all of our patients are treated as unique individuals with unique perspectives, problems, and circumstances. Larry Warner, Collaborative Minds is an independent psychiatric clinic serving patients from southeast Louisiana and beyond. Based in Baton Rouge, our board-certified clinicians offer comprehensive, compassionate care that prioritizes dignity and respect. If you or someone you know is in need of treatment for mental health issues, we invite you to learn more about us and about what we can do for you. At Collaborative Minds, your wellness is our goal. Depression In conjunction with medication, We offer in-depth interviews and histories to determine the underlying conditions for depression, focusing on a comprehensive approach for treatment. Anxiety We work to understand the conditions for your anxious, nervous feelings, focusing on a range of treatments for anxiety and social anxiety, investigating your unique medical history and circumstances. ADHD Collaborative Minds uses board-certified assessments to accurately diagnose your illness, and relies on a range of treatments including medications to help you find focus and concentration again. Bipolarism As soon as you begin treatment at Collaborative Minds, we work to diagnose the exact type of this condition that you are suffering from, so that we can tailor your treatment plan accordingly. His area of expertise includes treatments of depression, bipolar disorder, anxiety, psychosis, ADHD and comorbidities of psychiatric illness with substance abuse. She has worked in nursing for over ten years, with further specialization in mental health. Hilton is a social worker with a focus on serving marginalized populations. Jaime has over 8 years of experience working diverse clients and implementing both long-term and brief interventions. Shantell Burns Jaime C. It is especially helpful with treatment-resistant depression, for those who do not respond to antidepressants, as well as people who wish to avoid the side effects frequently caused by medication. TMS treatment usually includes four to six weeks of non-invasive, in-office treatments that take less than an hour each day, five days a week. Find Out More New Patients Welcome Collaborative Minds welcomes all prospective patients, but due to the specialized nature of our care, the process does require just a little more than a phone call. Our staff will review your case, and if you are accepted, we will begin the scheduling process for your first appointment. Call to begin the process.
