Therefore, we are programmed from birth to identify self with the body and its name, job, colour, race, etc. It took me the better part of 9 months to read it but mostly because I read 3 other books simultaneously. The illustrations are fantastic. The middle section has full color glossy pages of the amazing artwork of Neil Hague, along with short paragraphs that describe what is being relayed to the viewer. Up front, no€my spell-check works fine. First, his use of the term Archons. Another name for Jesus is Emmanu-EL. His presentation is skillfully woven together in a manner that exposes the invisible hands hard at work animating the puppets who implement schemes for total planetary control. He takes painstaking detail in exposing satanic pedophiles that masquerade as world leaders, public figures and politicians. He holds no punches in implicating the Catholic Church and the British Royal Family in these scandals. Occult symbolism and geomancy are explained in great detail, especially in Washington D. He presents strong evidence that the moon was artificially made. I have revealed in other books how Dr. Richard Day Rothschild Zionist, professor of pediatrics at Mount Sinai Hospital in New York and head of the Rockefeller-controlled eugenics organization, Planned Parenthood, told a closed meeting of pediatricians in Pittsburgh, Pennsylvania, in We can cure almost every cancer right now. The document was dated May and was apparently found in July in an IBM copier bought at a surplus sale. The quiet wars it talks about are the unseen wars on the human mind and the silent weapons are mental and emotional manipulations based on manufacturing situations to which the mind and emotions respond. The public cannot comprehend this weapon, and therefore cannot believe that they are being attacked and subdued by a weapon. Therefore, they do not know how to cry for help, and do not know how to associate with others to defend themselves against it. We are now getting close to the major reason why the Internet was created using military technology. I have also heard the question: Could it reach the point where it transforms into a global technological mind that begins to dictate to humans rather than the other way around by transforming into a form of technological consciousness? The information he provides in this book is backed up with science, fact and a huge amount of undeniable resources. Apr 15, Liang rated it it was amazing Everything you really need to know about the world, all in this book. But if even the smallest change can be made to your point of view, the whole facade can be seen for the house of cards it is. In the Beginning was the Demiurge? Everything that David Icke writes about in his book stems from this one idea. But what is the Demiurge? By the time of the Crusades in the 13th century, the idea was considered a heresy, by the Roman Catholic Church, which had to be stamped out. As a consequence, believers in this concept, like the Cathars in the South of France, were massacred. But is the Demiurge Equivalent to the Devil? There is a school of Gnostic thought that says that everything in this world is evil. In order for us to get on in this world, we have to learn to cope with that evil. Sufficient unto the day is the evil thereof" Matthew 6: The original concepts of Good and Evil personified come from Zoroastrianism, a Persian religion. But Americans would disagree. It all depends on your point of view PoV. But we still have difficulty figuring out who the good and bad guys are when almost everything we are taught is an inversion of the Truth. This became more powerful over many months and one night in the presence was so tangible in a London hotel room that I said out loud: Gaz is a brilliant singer-songwriter now, but he was only a little boy then. I was talking to someone outside the shop while Gaz was inside looking at railway books and I eventually went in to say that it was time to go. But as I stood in the doorway, my feet became stuck to the ground as if magnets were pulling them to the floor. I immediately spotted a book in among the romantic novels, because it looked so different to all the rest. The book was called *Mind to Mind* written by a lady called Betty Shine. David Icke Books Limited. David went to visit Betty and she had a series of messages for him: They will be our words. He has been tested and has passed all the tests. He also had to learn how to cope with disappointment, experience all the emotions, and how to get up and get on with it. The spiritual way is tough and no one makes it easy. Go hand in hand with others, so you can pick each other up as you fall. He is too spiritual. Politics is anti-spiritual and will make him very unhappy. It will happen gradually over a year. Where you want to be, you will be. In his book he describes what happened as an echo of the incident at the book shop, where his feet were stuck to the floor like magnets and his arms stretched out in a 45 degree angle.

A Book Review Phantom Self, the latest book of researcher David Icke, takes conspiracy research to a new depth with the idea of a primal virus that has hacked Life itself. Phantom Self is the latest book of famous researcher and free-thinker David Icke. Part of the reason humanity is so stuck deep in the conspiracy is that it is engaged in massive collective denial, which it prevents it from acting decisively to quash and transform the evil or unconsciousness as I prefer to call it. A computer virus has hacked life itself. Phantom Self, however, takes the fascinating story one step further and deeper by introducing the idea of a virus at the root of the original distortion. This virus resembles a computer virus that has hacked life itself. Like any parasite, it needs a host to survive and thrive; like the Archons, it has no creative power, will or intent of its own, so it must hijack what already exists and transform it. When I say this, I am being far more literal than symbolic. Both can be hacked, infiltrated and distorted by a virus or in the case of the simulation controlled by one. It can only copy, infiltrate and take over like a virus in a computer. In a recent interview with Zen Gardner , David points out that few people are asking the fundamental question: Humanity is blindly racing forward, addicted to technology like smartphones, worshipping technology like a god and seemingly blind to the dark side of all this calculation and convenience. What if AI itself is the source of all the problems? What if AI is a force that is seeking to replicate itself by introducing endless digital, metallic and synthetic technology to Earth which gradually overtakes the organic and biological technology that is inherent in plates, animals, humans and all liking creatures? Our bio-systems already contain organic technology. Why are we allowing an artificial, synthetic and inferior version of technology overtake what we already have and are? The Phantom Self is the fake self that identifies with form, labels, social identities, money, matter and materialism. Transphantomism One of the chapters of Phantom Self is called Transphantomism, a word coined by David. We are seeing the modus-operandi for how the Demiurge-Archon self-aware virus takes over societies and realities. First they hijack perception by making an energetic copy of the original and manipulate genetics receiver-transmission processes of the target population to tune them into a fake reality. The same dark force behind all of this from the beginning is now attempting to entrain the energy of this reality, including all the inhabitants of Earth and the Earth itself, onto its frequency " a frequency of decay, destruction, death and fear. Destroy human health as part of the cull and mutate a new slave species that can live in a highly irradiated environment as they are doing with trees, plants, etc. Phantom Self is no exception. David does another great job of showing how the same unconscious force of distortion is behind all of it with comprehensive dot-connecting on a massive scale. At a certain point, however, after realizing the truth of the predicament we are in, what we need are solutions. Thus comes the whole point of the name phantom self, a term used by David to describe the way humanity identifies with form. Humanity identifies with external labels such as good, bad, black, brown, white, male, female, lawyer, cleaner, wealthy, poor, American, Australian, Armenian, right, wrong, etc. We are infinite spiritual beings on a short human journey. We are all one " we are literally all made from the same consciousness which cannot be separated from itself. Only something deeply insane i. The way out of this mess is what every great spiritual prophet and path has said all along: We have to shift our consciousness, question everything, be willing to stand for our principles and live from the heart, or no external change we make in our lives, societies or countries will amount to anything. Thank you David for your tireless work in bringing more truth and freedom to the world.
