

Dragon Voice Volume 7 has 65 ratings and 1 review. Beatmen, Privee dan Seiren bertarung dalam satu panggung! Siapakah grup terbaik yang akan keluar sebag.

January , Volume 4, Number 1 Greetings! Nuance is pleased to present you with this edition of eTIPS where you will find tips about: How to resolve the error, "Server Unavailable," that may occur when attempting to login to the Dragon Medical Enterprise Network Edition. Today, structured information is captured through templates and checkboxes within the EHR, whereas unstructured information unique, detailed patient notes oftentimes require clinicians to type copious amounts of information. At Nuance Healthcare we are giving clinicians back their voice - allowing them to capture both structured information and the unique patient story, the narrative, in the easiest way possible - just by speaking. Submitting a service request in iSupport takes approximately one minute, which is about the same amount of time as calling directly. However, once you complete a service request in iSupport, you can easily continue working while a Nuance analyst reviews the request and works on a solution. Service Requests submitted via iSupport during normal business hours Monday through Friday 8 am to 5 pm Eastern time are normally processed within 1 hour. Requests submitted outside of business hours are generally processed on the next business day. Perform the following to create a Dragon Medical Request for Service: Launch your Internet Browser and navigate to <https://www.nuance.com/Support/ServiceRequests>: If you do not have an iSupport account, you can easily create one by clicking the link [Click here for registration information](#), and then follow the steps under [How to Self-Register](#). If you are not presented with the option to Select Request Type, continue to the next step. On the Create Service Request: Identify Problem page, perform the following: Scroll down to the Problem Summary section and enter a brief statement about the issue you are experiencing. Enter any specific error messages or codes at the beginning of this field. In the Problem Details section, enter any additional information about issue. In the Attachments section, click the Add Attachment button to include a file with this service request. Click the Next button, located on the far right near the top or bottom of the service request. You may need to use the scroll bar to move to the far right of the page to access the Next button. When the Suggested Solutions page appears, you have the option to view solutions related to the information you entered into the Problem Summary section or click the Next button to continue creating the service request. When the Review page appears, review the information and then click the Submit button to continue. Service Request Created page appears, you have successfully submitted the service request. Click the Home tab to move to the iSupport Home page. Your newly submitted service request will appear in the Service Request group. You can make changes or check the status of your service request by clicking the Request Number. This error might surface during an installation of Dragon Medical Network Edition on Windows 7 workstations. The failure is specific to an installation file such as the `natspeak`. The following will resolve most related errors: Confirm Windows Local Administrator rights on the workstation being installed. Copy the contents of the Dragon software media DVD to the local hard drive of the workstation, and execute the setup. Uninstall the Windows Update KB if present. This can be reinstalled after Dragon is successfully installed. Reboot PC and close all non-essential applications. Uninstall any previous version of Dragon Medical software using a Dragon software remover tool available from the Nuance iSupport website. If the above suggestions do not resolve this issue, continue with the following: Open Internet Explorer by right clicking the icon or menu item and selecting the Run as administrator option. In the Certificates group, click the Certificates Select Trusted Root Certification Authorities tab. If you do not see it, contact Nuance Technical Support. In Certificate intended purposes group, click the View button. Select the Details tab. Click the Edit Properties Under the Enable only the following purposes radio button, check the box for Code Signing. If you are unable to resolve the issue from the above solutions, please contact Nuance Technical Support for additional information. [Click here to navigate to an article explaining how to contact Nuance Technical Support](#). A specified logon session does not exist. It may already have been terminated. Perform the following to resolve this error: The Workstation can be locked, but must not be logged out. Verify there are no problems in the Windows Scheduled Tasks log. Therefore, check the following: Create and run a separate

non-Dragon Windows Scheduled Task to confirm this Windows user has the proper rights. An example error from either log will be similar to the following: Re-register the task ensuring the credentials are valid. Verify that a group policy restriction, shown below, is not in place preventing the task from running with this Windows account. Do not allow storage of passwords and credentials for network authentication In the above example, this policy would need to be disabled. The following provides information about possible problems along with related solutions: The Windows account used to login to the client workstation does not have proper permissions to the Network User Profile Location. Ensure the local cache on the client workstation has read, write and modify permissions. Ensure the Windows login has read, write and modify permissions to their profile within the master user profile directory. A null Server Location value as seen below. Conversations Healthcare is the most effective way to expand your knowledge, network with your peers, and gain valuable continuing education credits. So mark your calendars now and start planning for what will be an exciting event. A number of important knowledge base articles have been added or reissued with updated information to iSupport, as follows: Getting Started with iSupport: Click [Getting Started with iSupport - Dragon-Medical](#) to see step-by-step instructions on how to register to become an iSupport member. You will also learn how to access and log into iSupport, configure your iSupport profile, search our knowledge base for solution, manuals and quick reference materials, and how to use iSupport to submit a request for service. There is valuable information which will help you optimize your iSupport User Profile, thereby enabling you to submit a service request in minimal time. You will also learn how to enable additional time-saving features, requested by our customers, on the iSupport home page. Nuance Healthcare Technical Support This organization can offer assistance via remote on-line connectivity to your systems. So Say, "Dragon Medical Support" at the prompt. If you are not an iSupport subscriber click [here](#) to learn more about iSupport and how you may get started. Click [here](#) to navigate to the Nuance Technical Support website for additional details on contacting Dictaphone Enterprise Speech Systems customer support.

Chapter 2 : Dragon Medical eTIPS from Nuance Healthcare Solutions

In the first volume he meets the Beatmen, who are a boy band that recognize the potential his powerful 'dragon voice' has. The manga centres around Rin and the Beatmen, as they strive to understand each other, work together and find success in what is sometimes a very cut-throat pop music industry.

Before you can use this program, however, you must create a user profile, set up your microphone and train the software to recognize your voice. Setting up the microphone ensures that Dragon Naturally speaking will achieve the best possible voice recognition rate. The Profile Wizard opens Click "Next" and follow the on-screen instructions as the wizard helps you create your user profile. Click "Create" when prompted. The wizard builds your profile and displays the "Position Your Microphone" page. Position the microphone in front of your mouth as instructed by the wizard and click "Next. Click "Start Volume Check. Read the text until you hear a beep, then click "Next. The software analyzes your speech and beeps when done. It then displays a message letting you know whether the quality check passed or failed. If the wizard displays a "Sound Level is Too Low" message, proceed to the next section to correct that problem. Otherwise, click "Next" to complete the microphone setup task. You can then train Dragon to understand your voice by following the on-screen instructions as the wizard guides you through that task. Alternately, you can elect to perform this task later; the next time you launch the program, it will bypass the microphone setup step and take you to the voice-training task. Correct Low Volume Problem Right-click the "Speaker" icon in the system tray at the bottom of your desktop. Click "Recording Devices" to display the "Sound" window listing your audio devices. Locate your microphone in the list and click it. Click "Properties" and then click "Levels. Drag the slider to the right. As you drag, a number appears to the right of the slider. Drag the slider until that number is "30" and then click "OK. Continue adjusting the volume until the wizard displays a "Passed" message. Tips When positioning a handheld microphone during setup, hold it to the side of your mouth about one to three inches away. If you use a headset, position the microphone to the side of your mouth about a half-inch away. Do not let the microphone touch your mouth. Place an array microphone 18 to 30 inches away from the mouth and eliminate any background noise within 15 feet of the array microphone during setup. These microphones are sensitive and pick up stray sounds easily. Nuance, the maker of Dragon Naturally Speaking, stresses the importance of positioning your microphone consistently after the initial setup. When you use the software, place the microphone in the same position you used when you set up the program. Dragon Naturally Speaking User Guide About the Author After majoring in physics, Kevin Lee began writing professionally in when, as a software developer, he also created technical articles for the Johnson Space Center. Today this urban Texas cowboy continues to crank out high-quality software as well as non-technical articles covering a multitude of diverse topics ranging from gaming to current affairs.

Chapter 3 : Nuance Dragon NaturallySpeaking 13 Premium KA-G B&H

Get this from a library! Dragon voice. Volume 7. [Yuriko Nishiyama; Mike Kiefl] -- The final trials to decide who will sing at Koshien begin and the competition between the Beatmen, Baby Naked and Privee heats up.

Scroll down and select Relax recognition to accommodate my accent. If you have a Chinese or Indian accent If you have a Chinese or Indian accent, and Dragon generally misunderstands what you say, try the following: To create a new profile with an accent Open Dragon Settings. Scroll down and select Reset Dragon. Select Yes, reset Dragon. Your existing Dragon profile will be removed, Dragon will restore its settings to default and restart. Continue through the wizard to complete your new profile setup. You can also improve recognition by sending Dragon to school. Open Settings and see Training Your Dragon. For more information, see My custom dictionary. If Dragon spins around in the processing state for a long time, tap or click the avatar to stop it. Tap the avatar to wake Dragon up. Right click or hold down your finger on Dragon to open the popup menu, and select Quit Dragon, then restart Dragon. For help with Dragon states, see What is Dragon doing? Back to top If you notice limitations using Windows Modern view Dragon is primarily a Windows desktop program and consequently the following limitations apply in the Windows Modern view: To switch back to desktop view, say "Cancel" and then "Switch to Desktop" or press the Windows key. Close the Settings window to resolve the problem. To set Internet Explorer to open on the desktop If Internet Explorer is opening in Windows Modern, please change the settings as follows: If necessary, select Make Internet Explorer my default browser and set Internet Explorer as your default browser you can change it again later as needed. Select the Chrome Customize and Control button. Your dictation is not lost, because Dragon places your text on the Windows clipboard. Paste your dictation using any method available in the target application. Back to top If you are using Dragon NaturallySpeaking If you are using both Dragon Assistant and Dragon NaturallySpeaking on the same device, you may see your dictation entered twice if the Dragon NaturallySpeaking microphone is turned on. For example, if you dictate, "What time can you be home for supper? What time can you be home for supper? Back to top If you have trouble with the tutorial On rare occasions, it might not be possible to repeat the dictation lesson when you click Back. Open the Windows Task Manager. Select the Processes tab. Locate any Internet Explorer processes iexplorer. Select End process or End task. Retry the dictation lesson.

Chapter 4 : Dragon Voice, Volume 1 by Yuriko Nishiyama

DOWNLOAD DRAGON VOICE VOLUME 7 DRAGON VOICE dragon voice volume 7 pdf Get more done faster by voice with Dragon, the world's best-selling speech recognition software.

Comments Belated Happy New Years to everyone! As usual, the new download link is up and running link to the old version of ch10b has been removed. Do beware that we will not scanlate the oneshot at the end of volume 5 as we already released it as Himitsu v2 Special. Comments The long overdue release of Himitsu v5 c10b! As usual, the download link is up already and should be working fine. Here you have Yoroshiku Master v2 Oneshot - Gates of Eden, which is a oneshot that was released with volume 2 and we skipped for later. This release also puts an end to the long absence in regards to releases Alongside the Himitsu releases yes the next one is much overdue but will be out before the end of the year! Today I bring you the long awaited Himitsu v5 c10a! Jiraishin Diablo c5 joint with the awesome ladies at Storm in Heaven of course. Comments This sure has been the longest time since the last update, causing people to believe that DV has closed down. Sorry for worrying everyone, but rest assured that is not the case! But for now, our goal is to reach our tenth anniversary at the very least: Anyway, here you have Sayonara Watashitachi Story1 the first of a slew releases to come! Himitsu v03 Omake consisting of two parts really. The first part has a definite Halloween feel to it, so consider it as a Halloween appetizer: P Anyway, with the next Himitsu release we will move onto the fifth volume so look forward to that! Comments Wow, it sure has been a while since the last release. Anyway, here you have the long awaited Kaguya Hime v05 c22! Comments A quick update: Himitsu volume 4 Special has just been released and is available as direct download link on the website as usual. That completes the whole volume 4! We start off with Himitsu vol4 ch9b complete c9 has replaced the parts on the Himitsu project page and Secret Keepers Story 3. Next is Kaguya Hime v05 c21 released on Monday 18th April! Now to the release update: Himitsu vol4 ch9a is out and as usual the download link is already available on the website. Himitsu vol3 ch7b and Himitsu vol4 ch8 have been released. But if you only want the second part you can get it here instead. Download link for chapter 8 is up as well of course. Comments Himitsu vol3 ch7a has been released and the download link is up and running on the website. I realize another group has started scanlating Himitsu, but DV has brought you the first 3 volumes of this manga and we will continue our high quality releases irrespective of any other group releasing it. Thanks to everyone who are patiently following our Himitsu releases and thanks for all the support. Until next time or rather next week: Rin have both been dropped due to lack of interest. The latter is being scanlated from scratch by Starlight Scans and I wish them the best of luck with it! You can expect the rest of the first volume pretty soon though. Http link is available on the website. And here are the late halloween releases: Yasha c3 and for those that crave some non-horror stuff Piece c1 by Ashihara Hinako! DV has finally awoken from its slumber with the release of the all-colored oneshot Nostradamus to Sakaki-kun by Ayuko http release is up and can be found in the complete project section XD Sorry for the extreme long wait! Been too busy since I got back from vacation, but things are finally calming down now so you can expect regular releases from now on. Eyeball Deep Swag by Han lu, which is a collection of oneshots. A short update, the direct download links for the unlicensed projects are up and running again for now. Be sure to download our releases here on the website or in our IRC channel and nowhere else! If you see our scanlations uploaded elsewhere please help enforce our policy by notifying us at dragonvoice gmail. These are more than enough to keep us quite busy for a good time to come, so no more future projects this year hopefully! I will rethink the hosting situation when I get back, but DV most likely resume the hosting of the unlicensed projects. Secondly, we keep track of which projects have been licensed and ensures that none of them are hosted on the website as we stop scanlating them when a license has taken place. The Moon and the Lake Tsuki to Mizuumi story2 has just been released! The new release is available on IRC and the http link will be up on the website in a couple of days. So, our 7th anniversary is at the door! Scarlet Chair v03 c10 that finally wraps up this project!!! You can grab the whole first batch [HERE](#). Anyway, DV wishes you a happy reading! Anyway, a quick update: Scarlet Chair v03 c version 2 have just been released. Allow me to present the following release: Jiraishin Diablo v01 ch01, joint with the lovely ladies at

DOWNLOAD PDF DRAGON VOICE VOLUME 7 (DRAGON VOICE)

Storm in Heaven!!! Once again, the direct download link is up already. Sorry about the extreme slow release pace on these two projects, but rest assured that Yaya will be completed this year and the next Himitsu release is planned for our anniversary for those who want to keep track!
