Opponents say the telescope will desecrate sacred land on the Big Island. Supporters say it will bring educational and economic opportunities to the state. The advanced telescope will answer some of the most fundamental questions of the universe, and Native Hawaiians will also benefit from it, the ruling added. Further legal action is still possible, state Attorney General Russell Suzuki said. There can be a motion for reconsideration filed within 10 days and following that, a request can be made to the U. Supreme Court to review the decision, he said. David Ige, who said he is pleased with the ruling, vowed to protect rights of protesters and telescope builders. State Department of Land and Natural Resources Chairwoman Suzanne Case said the next steps involve telescope builders submitting construction plans. The department will review the plans before issuing permission to proceed. Plans for the project date to , when scientists selected Mauna Kea after a five-year, around-the-world campaign to find the ideal site. The project won a series of approvals from Hawaii, including a permit to build on conservation land in . Protests disrupted a groundbreaking and Hawaiian blessing ceremony at the site in . After that, the protests intensified. Construction stopped in April after 31 protesters were arrested for blocking the work. A second attempt to restart construction a few months later ended with more arrests and crews retreating when they encountered large boulders in the road. Scientists revere the mountain for its summit above the clouds that provides a clear view of the sky with very little air and light pollution. The telescope will allow astronomers to reach back 13 billion years to answer fundamental questions about the advent of the universe, touts a website for the project. That meant the application process needed to be redone, requiring a new hearing. After oftentimes emotional testimony for the hearing that spanned 44 days, the retired judge presiding over the proceeding recommended granting the permit. Opponents appealed again after the land board approved the permit. They complained about various due process issues, including that the hearings officer had a conflict of interest because she was a member of a Big Island astronomy center. A group of universities in California and Canada make up the telescope company, with partners from China, India and Japan. Compared with the largest existing visible-light telescope in the world, it would be three times as wide, with nine times more area. Telescope parts have been built in California and partner countries while construction on Mauna Kea was halted. Reactions to the ruling from two Native Hawaiians showed how the issue has divided the community. Telescope opponent Kahookahi Kanuha, who was arrested twice for blocking construction, said Hawaiians need to be ready to resist construction with non-violent protests. He had a message for them:

Njihova misija je bila samo na izgled jednostavna. Kapetan Stjuart Stuart i ja, kao oficiri, nosili smo izvesna uputstva iz Kaira, koja su se morala zapamtiti i usmeno preneti. Vremenske prognoze bile su povoljne. U zoru smo se naglo povratili. Vazduhoplovna posada primila je novo uputstvo. Bela kupola jednog padobrana ledbela je nedaleko od mene na istoj visini sa mnom. Bio je to Stjuart, pa smo doviknuli jedan drugom pozdrav. Samo su jarki odblesci topovske vatre osvetljavali sveobuhvatnu tminu. Duvao je jak vetar. Nije bilo nikakvog znaka vatri niti zvuka. Posle nekoliko trenutaka sudario sam se s nekim mekim predmetom. Odgovorio sam istim tonom, da sam britanski oficir. Bilo je jos rano. S one strane jezera, u kristalnom vazduhu, dominirala je prizorom planina Durmitor s padinama manjih grebena na bokovima. Ustali su da nas pozdrave. Jedan od njih stupi napred, sa izgledom prirodnog autoriteta. Znao sam samo da se komandant partizanskih snaga u Crnoj Gori krije pod pseudonimom Tito. Onda smo redom istupali i rukovali se sa Titom i oficirima oko njega. Neprijateljske patrole bile su u neposrednom dodiru s njima. Trebalo je da zajedno raspravimo o tim stvarima. Puste planine Durmitora imaju svoje tajne: Buka aviona predstavljala je ranije za njih uvek znak opasnosti. Njegova zdepasta prilika mogla se videti u svako doba: Poginuo je za vreme jedne docnije akcije. S vremena na vreme teturali smo se i kretali samo uz svestan napor volje. Kretali smo se s kratkim zastancima, prema desnoj obali kanjona Pive. Zavesa magle i oblaka bila se podigla, i Nemci su preko dana tragali iz vazduha za ciljem - jedinim preostalim mostom preko Pive ispod nas. U toku dana 3. Bila je to pozornica jedne zlokobne trke. Dan je pripadao neprijatelju. Svaki dobijeni dan bio je korak napred. Jedinice ispred nas i na bokovima borile su se za svaki vis, za svaku kosu. Svaki vrh morao se zauzeti i osigurati pre neprijatelja. Tada donesene odluke bile su poslednje naredbe iz centra izdate za proboj glavne operative grupe. Izgleda da smo 8. Drugi front nije san Dvojica su poginula u ranijim borbama. Ali to nije bio jedini neprijatelj. Imao sam samo vremena da doviknem Stjuartu: Stjuart se nije video. Ispod nas je bila strma provalija, a odmah iznad nas - greben brda. Odobreno je da se sahrane tela Bila Stjuarta i ostalih. Bili su pokriveni granama, a uzde smotane. Bilo je tu Jevreja iz gradova koji su pobegli da bi se spasli od koncentracionih logora. Ove senke nisu bile vezane za nas. Ponekad su ti ljudi predstavljali opasnost za nas. Halucinacija o jahanju u mongolskoj hordi bila je trenutna. Tito je izvukao preko deset hiljada ljudi. Ali u tom trenutku svi smo bili gladni i iscrpljeni. Sanjam o kivanom puding u jabuka preliveu kremom. Doneli su ih begunci i iznurene grupe. Nije bilo nade za probijanje prema istoku. Nije bilo nikakvog izbora. Poslednja stoka je poklana i obroci hrane razdeljeni. Iznenada se iz bunkera digla jedna prilika. Ove devojk su svakodnevno donosile vodu sa obale Pive, no jednog jutra nisu se vratile. Ranjenici su nastojali da ih oteraju kamenjem. Dani su sporo proticali. Bio je kraj juna. Za ovima su narednih dana. To je bilo poslednjeg dana juna Dok je ona bila u jeku, efekat prethodne osovinske ofanzive u zapadnoj Bosni bio se izgubio: Ovo se nije smelo ponoviti. Nije bilo dovoljno nanositi gubitke partizanskim vojnim jedinicama i slabiti njihov moral pokoljem ranjenika. Sva naselja morala su se spaliti, a stoka zapleniti. Partizani kao organizovana snaga nisu se smeli vratiti. Bilo je tu radnika, studenata i seljaka iz svih krajeva Jugoslavije - simbol jedinstva za koje su se borili. Drugi su bili rasejani na razne strane. Ovakvi postupci bili su retki. Cviljenje se nastavilo i panika je obuzela ljude. Majka je sama udavila dete. U durmitorskom srezu ubijeno je civila, od toga u selima na platou iznad klanaca Pive. Pedeset sela bilo je spaljeno posle bitke.
