Two-page progress review after every unit with self-assessments and I can Reference section which includes a Language focus reference, a pronunciation bank, an alphabetical Wordlist with illustrations and a phonetic chart, an Expression bank, and an Irregular verbs list Workbook: Features activities per level including integrated video and audio, speak and record practice and writing practice Online Practice: Unlimited attempts on activities and the ability to check the correct answer inspires autonomous learning Online Practice: Set writing and speaking practice that you can mark and give one-to-one feedback on outside the classroom to free up teaching time Online Practice: The access code for Online Practice is on a card with the Workbook Beschreibung Vocabulary, grammar, reading and writing exercises are provided at three levels in the Workbook. These are marked using a star system: This provides support for mixed-ability classes and ensures that all students can enjoy a successful outcome. To encourage autonomous learning, students are able to evaluate their own progress in a two-page Progress Review after each unit. This gives them a clear learning objective at the start of the lesson, and a sense of achievement at the end of it. The Wordlist includes phonetic transcriptions and pictures to engage students and help lower-level students or visual learners understand new language. The Wordlist also features all active and some passive vocabulary, and is organised by unit with a clear layout for ease of use. Use the Online Practice to practise and extend the work you cover in each unit. Assign different practice activities to different groups of students and use the online features to track their progress and communicate with them outside class. Speak and record practice gives students the chance to improve their Everyday English. Students can submit their speaking and writing tasks. You can then mark it and give personalised, one-to-one feedback. Engage your students in an interactive learning experience with brand new video and comprehension questions, and additional audio for listening and speaking activities. Activities are automatically marked saving you time. Students can see the right answers, check if they answered correctly and practise the activities as many times as they need, helping them to review their learning. This helps with planning for mixed-ability classes, enabling you to create differentiated learning paths for groups of students. The Online Practice access code comes on a special card with the Workbook with instructions for students.
