I was so happy to find out he was getting his own book! Cade is in PA, going to get his masters in theater. Cade is the good guy, the best friend. My heart broke for him in the beginning of this book. He is still not over Bliss. But he has to move on. She is with Garrick, and things are getting more serious between the two of them. So he makes up a story about going home. He is in a coffee shop, stewing, when he sees her. A girl named Max. To be able to continue living her dream, she has to appease her conservative parents. When they show up unexpectedly for Thanksgiving, she knows she is in big trouble. Cade is sitting alone, looking handsome and respectable. She gets him to play along for a while and he charms the pants right off mom and dad. He is an acting student. MFA student, volunteer, mom-hugger, and your boyfriend for the next twenty-four hours. They go their separate ways and plan to meet in the morning. She is the first girl that makes him forget all about Bliss. She has a bit of a situation, and Cade saves the day. They both start to fall for each other a little bit that night. Cade lets her in a little bit, telling her some of his pasts. She knows he is special, but she also knows he is way out of her league. Max and Cade have both suffered pretty big losses. Even though they both appear to be strong on the outside, their pasts are both full of pain and they both have a fear of the future. Mine made me want to be perfect, so that no one would ever want to leave me again. Mine just made me angry. It made you passionate and alive. It made us both who we are. Their lives get more intertwined and things get more complicated between the two. Never before had I fell so intensely and so quickly. Max swept into my life like a hurricane, and I never stood a chance. Max pushes people away. Cade lets people go. It is their pattern. I actually liked it better. Cade was just AH-mazing! Max really grew on me. I loved the two of them together! A brilliant mixture of romance, humor, heat, and angst. It was smart, sexy and fun! A very enjoyable read.

Chapter 2 : Cora Carmack Books: My Books

Faking It (Losing It #2) Mackenzie "Max" Miller has a problem. Her parents have arrived in town for a surprise visit, and if they see her dyed hair, tattoos, and piercings, they just might disown her.

Faking It was a book of the truffle variety. But every so often she has to see her parents, and her alter ego comes out. The girl who greets them wears turtlenecks and is careful not to mention how much time she spends in bars. But Max is a bird of a different feather, and after she got out of high school she decided she was done playing Alex. Well, except when her parents are around, because if they knew about all the tattoos and such they would stop paying for her apartment. Max tries to deter them, but they hear her boyfriend talking over the phone and are instantly curious. Nothing she can say will stop them, and when she tells Mace of the impending parental visit, he flees. So Max is stranded, awaiting her parents in a busy shop, minus the boyfriend her parents are expecting to meet. One of the best things about this book was how different Cade and Max are. Cade is an all-American boy—short brown hair, well-dressed, very handsome. Max is a rockstar with purple hair and three birds tattooed on her neck. When Cade spontaneously agrees, the entire story is set into motion. They were worried about her, and ready to tell her they would no longer help pay for her apartment thus forcing her out of Philly and out of her life, but meeting Cade convinces them she might be somewhat grounded. I cannot stress enough how beautifully Cora Carmack handled all the strife. My biggest peeve when it comes to plots that center around family problems is that too often they work out perfectly. She also did a wonderful job crafting the characters of Max and Cade. Neither is perfect, but both are likeable. They truly bring out the best in each other, with Max challenging Cade to be more spontaneous and involved in life, and Cade helping Max to slow down and not be such a tough-girl all the time. Faking It was a surprise to me, something unexpectedly delicious amidst the sea of books that is my TBR pile. Buy Faking It by Cora Carmack:

Cora Carmack, New York Times bestselling author and New Adult sensation, reads from her second book Faking It at her launch event at Random House UK. Max is a good girl gone bad and Faking It is.

June 4, Well, folks. Cora Carmack has done it again! I think one of the reasons I liked this book a tiny bit more was because of the depth attached to it. Cade is hurting over the rejection of his best friend and is trying to move on. Which brings us to Max. Max carries significantly more baggage than Cade does. She is dealing with a lot when it comes to her family. Her parents basically expect perfection from her, when she is anything but. Max has a feisty personality and a lot of spunk. She likes her hair dyed bright colors, her plethora of tattoos and piercings, and her sexy outfits. She is a rocker chick in every sense of the word. Music is the one thing that makes sense to Max. Which leaves Max in quite a bind when her parents randomly show up to see her, wanting to meet her boyfriend. Watching Cade and Max interact is so much fun. And what was the point in living if I was only going to travel the same roads again and again? They aggravate the hell out of each other at times, but both are intrigued by the other. Not to mention- the attraction! He walks the straight and narrow, has a plan for his life, and is an all around good guy. She also spends a lot of her time pushing him away for fear of hurting him. The moments Max does let her guard down with Cade are so precious. He wants her to want him as much as he does her. And if that means stepping aside until she comes to her senses, then so be it. There is a constant push and pull between Max and Cade and I will say this: You do not need to read the first book Losing It before jumping into this one, though it always helps to have a little backstory first so you can truly appreciate the angst that Cade has over his best friend Bliss. This was a fun book about letting go of your past and becoming the person you want to be for the future and I definitely recommend you get it on release day!
