

## Chapter 1 : Verbs with "-ing" | Worksheet | [blog.quintoapp.com](http://blog.quintoapp.com)

*This set of -ing word spelling worksheets will help children practice words with the "ing" sound. These spelling worksheets contain the words sing, wing, ring, king, swing, and spring.*

To develop fact fluency, I think the best thing to do is just a ton of exposure and practice. Have students partner up and take turns rolling 2 dice or use 4 dice and have them roll at the same time and adding it together. Then, they each write their addition sentence they made on a whiteboard or scratch paper. I also love this game with playing cards! Students take turns drawing 2 cards at the same time, add them up, and the person with the bigger sum keeps all 4 cards. Make sure you take out all the face cards. You can easily differentiate by taking out the higher numbers so they only do sums to certain amounts. You can also play this game with dominoes! Have them put all the dominoes upside down and each take one and flip it at the same time, add up the dots on each side, and the person with the biggest sum keeps both dominoes. For this game, each kid gets a gameboard. Use double-six dominoes and take out any that have sums bigger than 10 6 and 6. Students start by turning all the dominoes upside down. Then, they take turns drawing dominoes and covering the sum it makes on their board. The first person to cover their entire board wins! Games like all the ones I mentioned above are a great way for students to practice adding without realizing they are. I also think flash cards can help a ton! I recommend putting them on a ring! If you keep them on a ring in your classroom, students can just grab the set to practice at their seat and none get lost! I like to put them on binder rings by number. For example, all of the 3s facts are green and on their own ring. Only doing 1 set at a time makes it a little more manageable and less scary for students and parents. When they master a ring, they send it back to school and take home the next ring. For example, when they master the 3s, they bring them back to you and you give them the ring of 4s. Another option is fluency baggies! I made 3 levels of each test -- the bigger the paper, the more challenging. So everyone starts on the 3 to a page sheets then moves on to the half page sheets then the full page sheet. I made 3 levels for each number with sums to 10 bottom row of above picture , 3 levels for each number with sums to 20 top row of above picture , and 2 levels of subtraction within 10 for each number not pictured. Celebrating the other kids with fun things for reaching goals may seem awesome but the kids who really need the motivation realize they are not being celebrated and it might hurt their confidence, give them test anxiety, etc. On to the fun stuff!! A-maze-ing Fluency is one of my favorite fluency activities. I made them for several different numbers - this one is for 7. So kids look at the problem in each box and if the sum is 7, they color it in to get to the end of the maze in the opposite corner! You can easily put this in a sheet protector and have them use a dry erase marker to make it a reusable center. Another fun one is "Circle the Each sheet focuses on a different sum in this case, also 7 and they circle all of the numbers next to each other that make that sum to find as many as they can! As usual, I made a bunch of various cut and pastes: I think kids are more careful with them, too, because they see glue as oh so permanent. You can also make them into reusable centers by laminating them and using velcro! I print each cut and paste worksheet onto 2 different colors of paper and laminate them. Then, I cut the answers off of ONE of them and put velcro on the backs of them like this: I buy the rolls of velcro and just cut little strips to put on the back. Notice the strips on the right side of the above picture - you just cut them to the size you need. I do the scratchy side on the back of the answers. I am seriously obsessed with doing this for cut and paste activities - it makes it 3D too the way the numbers pop up which kids love and they can move them all around until it makes sense and is correct. I made one for each number so each one is practicing fluency for that number. So this one focuses on 4s facts for example. They roll the dice and add it to 4. So every time they roll the dice, they are practicing their 4s facts. And of course there are puzzles. I hope you can use some of these ideas to help your students build fact fluency!! All of these activities are in my First Grade Math Unit Making 10 to Add! I also have a Multiplication Fact Fluency Unit like this! If you want activities like this but for multiplication, check it out! Want to read more MATH ideas from me? Check out these fun posts:

### Chapter 2 : Printable Root Words Worksheets | Add S, ED and ING

*1st Grade Word Ending Ed And Ing. Showing top 8 worksheets in the category - 1st Grade Word Ending Ed And Ing. Some of the worksheets displayed are Suffix ed ing name suffix word endings, Name base words and endings er and est, Name base words, Adding ed and ing, Practice book o, Adding ed practice, Inflectional endings grid, Word endings.*

Level Correlation Chart Why Use Fluency Practice Passages Fluency is a key foundational skill that helps students read complex text with greater understanding. When students read with accuracy and expression at an appropriate reading rate, their fluency supports their comprehension. Repeated reading practice with short passages improves word recognition and automaticity. How to Use Fluency Practice Passages Passages are provided from Levels F to Z and are original fiction or nonfiction text that can be used for one-on-one reading, independent timed reading, or partner timed reading. Read the Fluency Assessment Passage to the student so she or he can hear fluent reading. Have the student read the passage. If the student gets stuck on a word, read the word and have her or him repeat it. Have a student start a stopwatch as she or he begins a passage, and stop it at the end of the passage. The student can record the words per minute and reading time on a chart or graph. One partner times the other partner reading a passage. At the end of one minute, the partner with the timer says, "Stop" and circles the last word read. This partner then marks the number of words read on the table at the bottom of the page. After several readings the partners then switch roles. Tell the student that if she or he has trouble struggling for more than 3 to 5 seconds, you will say the word so she or he can keep reading. After one minute, say "Stop," stop the stopwatch, and circle the last word read. During the reading, resist the urge to correct mistakes. Mistakes and self-correction will be accounted for in the score. If the student has extreme difficulty, stop the test. Reassure the student that she or he will redo the assessment after further reading practice. You should select a lower level passage for the next assessment. Follow along on your copy word by word with your pencil. Mark a dash above words skipped. Skipped words Word substitutions, including incorrect forms of the word Words in the wrong order; both or all words are counted as wrong Struggling that lasts for 3 to 5 seconds, or more The following are not considered misses: Added words Varying pronunciation due to accent, dialect, or speech impediment Repetitions in which the wording is correct Self-correcting a mistake; the word is scored as correct. Count the total words the student reads in one minute using the words-per-line totals listed in the margin. Write this in the chart at the bottom, along with the date of the reading. Count the number of errors slashes. Record the number in the "Errors" line for the read. Subtract the number of errors from the total number of words read to find the words correct per minute WCPM.

### Chapter 3 : 1st Grade Reading Comprehension Worksheets | First Grade Passages

*Words Ending In Ing For 1st Graders. Showing top 8 worksheets in the category - Words Ending In Ing For 1st Graders. Some of the worksheets displayed are Suffix ed ing name suffix word endings, Practice book o, Name base words and endings er and est, Name base words, Spelling principle word list words, Word endings suffixes and doubling, Spelling work, Inflectional endings grid.*

### Chapter 4 : Miss Giraffe's Class: Fact Fluency in First Grade

*Introduce your child to the present progressive tense! Have him complete these sentences by adding -ing to verbs so they talk about on-going actions. Understanding tense helps kids become more fluent readers and writers. You can give your child more practice writing in the present progressive tense with these verbs ending in -ing worksheets.*
