The English Premier League is broadcast all over the world. This league is one of my top favorites not only because of the level of play, but also because the long history of the league dates back many, many years. The Serie A season runs during the same time most other leagues play, including the English Premier League. It begins in September and concludes in May the following year. My favorite team when I was growing up was AC Milan. I loved watching them play because of the players on the team, particularly Ricardo Kaka. Unfortunately for Serie A, they seem to always have a bit of controversy in the air. They had a big match fixing scandal in that is still hanging over the league today. Spanish La Liga logo Source 3. It has been in existence since the late s and still includes three teams today who have never been knocked out of the league. La Liga is best known for two powerhouse teams that in recent years have dominated not only this league but other club tournaments throughout Europe. Besides these players, each squad is brimming with superstars too many to mention here. Barcelona has won the championship in La Liga 25 times. They have won the title for multiple years in a row on a few occasions. However, Real Madrid has won the championship 33 times. It is not uncommon to see scores of or even in some games. German Bundesliga Logo Source 4. Although formed relatively recently in , it boasts incredible fan support. It saw a record level of fan attendance with an average of over 45, fans in each game during the season. They have recently won the championship six years in a row. While Bayern Munich is made up of at least 7 German national team players, the Bundesliga includes other world class players such as Robben, Ribery, Huntelaar, and several American team members. The season runs from August through May, following a similar schedule as many other European leagues. I enjoy the Bundesliga because of strong players, passionate fans, and packed stadiums. The games tend to be very competitive and exciting, making it one of the best leagues every soccer fan should follow! Major League Soccer Logo Source 5. The MLS is the top soccer league in America. It was formed about 20 years ago to provide both players and fans professional soccer in the US. These stadiums provide an incredible atmosphere during the games and, for any American soccer fan, is a must-visit. MLS is one of the top leagues every soccer fan should follow because it has grown significantly in the last 15 years, and appears to be set to grow even more in the years to come. The Ligue 1 is the cradle of many rising stars that later excel in the French national team. Talent production has always been a guarantee in the French domestic league. Ligue 1 Cons Loss of parity. Uncertainty about which team would be crowned champion had always been high, but when clubs like Paris Saint-Germain PSG or Monaco were bought by millionaires, parity between French title contenders started to vanish. While Monaco saw a disinvestment in past few years, PSG continued to build a stronger and more balanced squad. The Parisian side now usually leads the championship with dozens of points ahead of the pack and became the French chronic league winner. This made Ligue 1 a less interesting football league to follow when compared to some years ago. This might be over, though. No matter how bad they start what matters is how they finish them. Serie A Cons Economic difficulties in Italy. Serie A has been down in the past few years mainly due to great economic difficulties in the country. The obvious loss in purchasing power made Calcio clubs lower their investment in new international players which translates to poorer squad quality across the teams. The biggest club from the city of Torino is back at its fullest strength after being demoted as a punishment for their involvement in the Calciopoli scandal. They have won the last 6 Serie A titles and seem fairly unbeatable; this reduces the interest in following the Italian domestic football. It is contested by 18 teams on a promotion and relegation system and the domestic soccer league with the highest average stadium attendance. Other Bundesliga title contenders are clearly not as strong as Bayern Munich but, nevertheless, are still successful clubs. Among them we have Borussia Dortmund and Schalke. The Munichians won the last five Bundesliga titles and seem to be the most equipped team to win again this year. The fact brings less uncertainty to the German league making it a bit less interesting to watch. It is contested by 20 teams on a promotion and relegation system.
