Animal Stickers Animal stickers are the perfect embellishment for photos of a day at the zoo or a visit to a farm, but they can also be used to accent your every day photos. For example, I have used a cute Reminisce cow sticker to embellish this layout. While it would be a perfect page for photos of your little one with farm animals, you could just as easily use it as a little girl page or a page about your little one and their soft toys. Take a step outside the box and see what you can come up with! To recreate this scrapbook page idea, follow these steps: Cut a piece of your lightest shade of brown Bazzill cardstock measuring approximately 12" x 12". Ink the two long edges with brown ink. When dry, use a brown pen to draw a line down the two long edges. Then glue in the centre of your brown cardstock piece from step 2, as shown above. Cut four pieces of your darker shade of brown Bazzill cardstock each measuring 3" x 3". You will use these to create a square. To create your square, glue the first piece of brown Bazzill cardstock from step 4 along the bottom of your page approximately 1/2" from the bottom edge. Glue the second piece of brown Bazzill cardstock from step 4 down the right side of your page approximately 1/2" from the right edge. Glue the third piece of brown Bazzill cardstock from step 4 across the top of your page approximately 1/2" from the top edge. Glue the fourth and final piece of brown Bazzill cardstock from step 4 down the left side of your page approximately 1/2" from the left edge. You have now completed your square. It should be on top of your pink paper and within the square you have created. If you have followed my measurements, it should be about 3" x 3". Cut a piece of brown ric rac approximately 9" x 12". Glue horizontally underneath your photo as shown above. And there you have it! A cute and versatile scrapbooking layout featuring animal stickers. Play around with your favourite animals and have fun creating some adorable layouts for your albums! Please leave a comment in the comments box below.
