Have a game plan. Do you want to go back just one generation, or do you want to document your family as far back as you can go? Do you want to include both sides of the family? Should you include offspring and siblings of distant relatives? Family trees, obviously, are different for each family. It is up to you to design and compose this ancestral archive, and you should feel free to mock it up the way you want. Your spouse or daughter may want to contribute ideas. You no doubt know the names of your immediate family. Filling in the names, dates of birth, and dates of death of the family members closest to you is a simple way to get started on your family tree. Now, you must do a little more research and communication. Reach out to other family members and friends of family members to discover more names and dates. You may find that a niece or a brother has taken an interest in genealogy, too. You can share this hobby with your son or daughter for a family activity. Perhaps your family tree is looking good now. What should you do? Looking through the Kentucky vital records may be the answer. The Kentucky vital records will include birth certificates and death records.
