

## Chapter 1 : Brave New Blues Guitar Book

*Greg Koch is a great blues player, and helps you through this great collection of blues licks featuring Eric Clapton, Albert King and so on. Published on March 6, Search customer reviews.*

It felt like a guitar classic when first released and a quick listen now still shows the man affectionately called the "Gristle King" was right on the money from the first. The spacey intro gives way to major league funky rock. The tasty mix of jazz and country swing on "The Damn Thing" lets Koch fly through the changes before an overdubbed harmonized line recalls stylists like Eldon Shamblin and other western swing players. As you might guess, "Sure Betts" tips its cap to the former Allman Brothers guitarist. The finish to the song is a perfect tribute to the built-from-the-bottom endings the Allman Brothers use on many of their songs, both in a live setting and in the studio during the later years. Koch adds a solo in the middle that lets him put his own stamp on the lovely chord changes while still retaining the ache of the original. *Vintage Guitar Magazine* 8. The man can do anything, in any style, with verve and passion. Imbued with a talent that seems to come from numerous lifetimes of cultivation, it is simply not possible to be this good a player. He is the envy of the best. That being said, this reissue of an early instrumental album is a must-have for all guitar enthusiasts. While it is based squarely in the Blues-Rock idiom, it touches on funk, jazz, fusion, and country -- all executed to perfection. This CD is a passionate tribute to the art of guitar playing, easily appreciated by layman and musician alike. The live bonus track is alone worth the price of admission. Get this CD, hear it, and be transformed. You will become a Koch fan: Steve Rosen Author 4. Both wonderfully wacky yet as serious as an hostile alien invasion, Greg paints with a broad brush, not only comfortable in every conceivable musical style, but morphing them together and "genre-busting" all along the way with a signature distinctiveness all his own.. How refreshing, engaging and ultimately human.. Greg Koch specializes in heart-palpitating high-wire-meets-trapeze fretboard gymnastics.. D-level single line solo work.. With total command and control of his instrument, he confidently plies the tools of his trade through rich and wonderfully janglicious Fenderific tonalities, smearing his delectable riffage all over the damn place with an unlikely yet astounding marriage of reckless abandon and the pinpoint accuracy of a laser-scoped sniper. Lavitz [keys] proceed to rip through a wide range of tunes, each one a master class in tone, feel, chops and groove. The set kicks off with the phantasmagorical fusion of the incredible Foolish Mortals into the ripping jazz-inflected bluesy shuffle of 2. Of special note is a live bonus track that rounds out the collection.. Incredible beauty from an incredible artist. Here is a true artist of the highest caliber.. His musical motto is [or at least should be]: Grooveyard is great guitar oriented label with quite a lineup of Strat players they wanted us to know about. Strat master Greg Koch has become better known in recent years with the help of Youtube, as a clinic player, instructor and Fender spokesperson in NAMM videos. A monster player, Koch is a walking, talking, playing lexicon of styles and licks. JP Holesworth Stratoblogster May
