**Chapter 3 : 5 Reasons Kids Need to Help Clean**

*blog.quintoapp.com - the best free porn videos on internet, % free.*

Your kids may be following people like this right now. And starting to feel kind of crappy about it. Keeping tabs on the rich, famous, and just-plain-cool is nothing new, of course. But social media can take that fixation to a pretty dark place. The feeling is common enough that some doctors are calling it social media anxiety disorder SMAD -- although what most kids have is more like FOMO â€” on steroids. Just help your kid clean up their feed. Self-comparison is a natural part of the tween and teen years. And for most kids, so is social media. While there are plenty of good things kids get out of their online connections, sometimes the combo can lead to a negative feedback loop that gnaws away at them. Even for kids who know when to close their laptops and move on, their self-esteem may take a hit. And for the more self-critical, anxiety and depression are real risks. If your kid mostly enjoys social media but suffers the occasional bout of self-doubt, help them find a healthier balance. They may already be tweaking their social media feeds to limit posts that make them feel bad. Work together to prune out the parts of their social media feeds that trap them into judgy comparisons, and encourage the stuff that bolsters positive social connections, supportive relationships, and validation of their inner qualities. Encouraging your kids to see and appreciate their individual strengths has always been a part of parenting. And learning to stop comparing yourself to others is a part of growing up. Sharing your own FOMO-induced feelings will likely get your kid to open up. Once they recognize the cause of their emotions, they can take steps to manage triggers. Fine-tune levels of engagement. All social media offers ways to see and hear less from your contacts -- without totally unfriending them. Check out settings such as these from popular platforms like Facebook, Snapchat, Instagram, and Twitter: Most social media apps send updates -- and none of them are life-and-death. To prevent your kid from interruptions -- especially ones that might trigger negative thoughts -- you can encourage your kid to check their social media once or twice at a certain time of day -- say, 4 p. That might be a stretch, but you can still encourage them to turn off notifications either in the app itself or on their phone. Follow people who nourish your soul. Kim Kardashian may be all over social media, but there are lots of folks who post uplifting, life-affirming, thoughtful, inspiring things that get kids thinking -- and maybe even behaving -- in ways that make them feel good about themselves. Follow these kinds of people. Suggest apps to help with focus. Just as you can use technology to excess, you can use it to rein yourself in.

**Chapter 4 : MATURE UP :: MATURE, MILF & GRANNY PORN TUBE MOVIES**

*MommyBlowsBest - Let Mommy Help Clean You Up MommyBlowsBest - Let Mommy Help Clean You Up.*

Bring home the meat. If they brought home a ton of meat it would only have cost them eight dollars a pound. Opening the door, she slid her long, tanned legs to the ground, and slammed the door. That might at least let Mark know she was home. Her sleeveless white blouse was a lovely contrast to the tan of her arms. The bra, constraining the bouncing globes of her breasts, could be plainly seen. She opened the kitchen door and went inside. She rattled around in the kitchen, setting a bowl on the counter for the eggs, and got out the grill and plugged it in, turning the heat to high. Setting a loaf of bread on the counter, next to the eggs, she went to the fridge and got out the link sausage and butter. The syrup just out of her reach. She fell, both hands landing palms down on the red-hot grill. Her screech echoed throughout the house. Mark bounded down the stairs, taking them three or four at a time. He quickly helped her up, started cold water running in the sink, and held her hands under it for a few seconds. Wrapping the ice in the wet towel, he then wrapped her hands inside it. Two hours later, coming out of the hospital, Marcy was weak-kneed and staggering slightly. The pain medication the doctor had given her was plainly working. She could hear Mark banging around in the kitchen, cleaning up and preparing breakfast. It slipped through her heavily bandaged hands and fell on the floor. She took it between pursed lips, sucking it right out of his fingers into her mouth. He watched in rapt attention. This time her tongue came from between her full, luscious lips, licking the sausage seductively, before letting it slide between her parted lips. The medication had really taken hold. You gonna be okay? Go for your run. It was a hell-of-a-way to get him thinking about something else. Her thoughts drifted to last night and the hot, steamy sex she and Don had indulged in before he left. It had been good, but still left her hornier than hell. And him gone for a month, and her with her hands bandaged. The thoughts spread warmth through her groin and her nipples hardened with desire. Suddenly she realized she not only had to pee, she need to have a bowel movement too. She paced between the windows, looking out each one as she passed, looking for Mark to help her. Would Mark help her? Would it embarrass him to much? If she asked him really nice, she was sure he would help. Even if it embarrassed him. She heard him running up the drive and hurried toward the door as he came in. Standing in front of the toilet she turned to Mark. She sat down on the toilet immediately, the water jetting from her in a yellow stream, splashing into the bowl with wanton glee. Mark stood staring as he watched his mother pee, then turning a bright scarlet, turned and started to leave. He was staring, as if mesmerized, at the hairy juncture between her thighs, his breathing coming in short gasps, and not from the running. Like you do your own, except you come from back to front. He made a pad of the paper, then reached gingerly down between her legs and patted softly the damp mass of curly hair. She let him stay there for a long moment before saying, "Now wipe my ass. She caught her breath as he wiped, his finger entering her anus just the tiniest bit. He dropped the paper into the bowl and flushed the toilet, but kept kneeling there, one hand on her naked thigh, his eyes locked on her hairy pussy. She scooted forward on the toilet seat, spreading her legs even wider, "What? Want to help me get ready for bed. Might as well put on my nightgown now. Go bring me a nightgown from my bedroom, would you please. She gasped when he brought back the nightgown. The one that was to impress her husband on what he was missing while he was away. It was silk, almost transparent, mid-thigh, cut low in the back, with a string tie that tied behind the neck. It left little to the imagination. Her face was pink as she looked up at him, questioningly. He stood up then, pausing for a moment to admire the globes that almost burst out of their constraint, leaning over her shoulder, reaching for the clasp of her bra, struggling to get the snaps loose, the bulge in his sweats only inches from her face. Finally the snaps came undone, the loosened bra falling forward on her shoulders, her breasts bouncing free. He guided the straps gently over her hands, then threw the bra into the pile with the blouse. He stepped back, admiring the breasts his mother proudly displayed. Beautiful, symmetric globes, tipped with silver dollar sized aureole, the nipples jutting ever higher as they became more erect. They lifted and fell rapidly, to match her breathing. I feel silly being the only one naked. He helped her put the gown on, tied the strings behind her neck, then stepping back, reached out his hand for her, drawing her to her feet. She spun around, modeling the nightgown for him.

Smiling wickedly from under lowered lashes. She lay down on the couch again, spreading the nightgown over her legs as far as it would go. Shall we order a pizza? My hands are starting to hurt again. She sat up on the couch as he placed the pills between her parted lips, then held the glass of water while she drank. As she twisted, trying to get comfortable, one breast popped out of the gown, and the gown hiked higher on her hips. Mark sat on the recliner, and leaned back. From his vantage-point he could almost see underneath the edge of the short nightgown. One breast was in plain view, the other completely covered. He watched as his mother twisted in her sleep, finally raising one leg, bent at the knee and leaned it against the back of the couch. His mother stirred in her slumber, the medication had really zonked her. Mark hurried to the door, paid the pizza man, and brought the pizza back to the coffee table. The pizza guy brought the pizza. Mark moved around beside her, and sat on the edge of the couch. His hand resting on her bare belly. She stirred again, at his touch, but then again seemed to drift off to sleep. He moved his hand lower, into the hair covering her sweet slit. She made no move. He bent, his mouth covering the nipple that was exposed, sucking, licking, nibbling on her erect nipple. She seemed to moan softly at his touch. His finger slid gently inside the folds of flesh, surprised at the heat and moisture there. His lips kept worrying her breast, kissing, sucking, and exploring. His finger moved deeper, finding the entrance of her hot tunnel and plunged inside as far as it would go. She made a sighing sound, her hips twisted upward toward the searching finger. He withdrew, running his fingers up and down the length of her slit, gathering the hot sticky fluid, till again he came to the entrance of her hole. This time he plunged two fingers in. She let out an audible gasp, he withdrew, only to plunge them in once again. Her gasp this time was a soft moan. His thumb found the lump at the top of her slit and began rubbing it, slowly at first, then faster and harder. His fingers kept up their game of enter, withdraw Her breathing was becoming labored, her hips wildly gyrating, searching for release. Suddenly her body stiffened, her hips thrust wildly at the air, her back arched, a long slow moan escaped her barely parted lips, followed by two or three soft ohhh ohhh ohhhs, then she sank slowly back onto the couch. Mark sat there beside her, his hand still planted firmly over her pussy, his fingers gently stirring. She swayed groggily, resting one bandaged hand on his shoulder. But I had a marvelous dream.

Naughty Logan keeps checking out his step-mom Alana Cruise's assets. Alana gives in to the needs of her stepson needs and decides to clean up his cock.*

The following story is a work of fiction. Her position lifted the hem of her silky lavender nightie until it barely covered her full, round ass. Jason found himself fantasizing about having an excuse to lean down. He wondered if she was wearing panties. Maybe she had on her white thong. He always looked for that pair in the laundry. Smelling her musky panty crotch while he jacked off was one of his favorite ways to masturbate. She supposed it was only natural. She ignored the warm, flushed feeling that went through her. He moved up behind her, felt the warmth of her back through the thin fabric of her gown as his chest brushed against her. He moved back when he felt his body react. He concentrated hard, willing his cock not to stiffen. He was fine until she raised the screw driver and began pushing and turning it to insert the screw into the trim. The pressure she was exerting forced her back against him. Her sexy ass pushed and rubbed against cock, and the towel began to loosen. This is just great. This will only take a few more minutes. She reversed the direction of the screw driver. He knew the feeling of heaviness he was experiencing did not bode well for his vow not to get an erection. The visual stimulation made it even worse, and his cock grew quickly. Gradually, Lisa became aware of the hot pressure of his cock against her ass. She tried to hold still, but it was difficult to push and twist the screwdriver without moving. Her senses began focusing on the contact between their bodies. As his erection grew, she felt the swollen head of his cock poking at the backs of her thighs just below her ass cheeks. She was embarrassed to feel her nipples stiffen and her pussy swell. He leaned forward a bit, feeling the tip of his cock touch the base of her ass crack where her thighs met. Feeling a sticky wetness, he pulled back. Then the thought entered his mind that maybe it was her that the wetness came from. Could his mom be as aroused as he was? Jason felt his heart pounding in his chest. Fear and arousal overwhelmed him, and the arousal won out. He pushed his cock head against her again, using more pressure this time, until the sensitive head of his penis was wedged between her thighs and he could feel her pubic hair tickling it. The sensation was exquisite, and he nearly moaned. Lisa nearly moaned too, when she felt that delicious hot cock pushing into the warmth between her thighs. She wondered if he could feel the wetness seeping from between them. She knew this was wrong, but damn, it had been so long. She kept working, but as she turned the screw driver, she allowed her legs to move apart a bit more, and then heard his quick indrawn breath. As he exhaled, he leaned forward slowly, and she felt his mushroom-shaped head glide lightly along her lips, felt it brush through her short blonde pubic hair until his shaft was lying full-length along her pussy slit, and his smooth toned belly was pressed against her ass. Nor could she stop herself from gently moving her hips forward, causing his cock shaft to rub deliciously along her sensitive pussy lips. She held her breath for a split second, until she felt him move forward, felt the throbbing veins of his thick shaft sliding through her wet pussy hair, knowing that her aroused cunt was coating his shaft with slippery wetness. She inhaled deeply and her senses were assailed by the erotic, musky scent that drifted up from between her legs. Jason, his mind blurred with arousal, noticed immediately when his mom dropped her arms and leaned forward against the wall pushing her sexy ass toward him. Not sure what to do, he slowly pulled back again. The feel of her warm, sticky pubic hair dragging along his throbbing shaft had him shaking with need, his entire being focused on the site of his thick cock shaft sliding in and out between her thighs. He inhaled deeply, high on the musky scent of her aroused cunt. He jumped when he felt something gently grasp his balls, and then realized she had reached back between her legs to gently cup and fondle his heavy sack. Her forearm grazed the underside of his cock as he slid it between her wet thighs, and she pushed against it, forcing his shaft into the cleft of her pussy. He groaned when he felt the swollen heat of her full pussy lips surrounding his sensitive cock. Holding his erection tightly against her pussy, she pulled gently at his ball sack, encouraging him to move forward, then back. On each stroke, the head and rim of his cock dragged across her swollen clit, and then pushed past the upper cleft of her slit into her juice-matted cunt hair. His hands dropped from the curtain rod and grasped her by the hips. He leaned over

her back, reaching under her nightie to cup her full tits. Her thighs tightened, and she pushed his cock harder into her slit, moaning loudly. That would be very bad. Please just let me put my cock in a little ways? Can you smell the hot musky scent of it? Her small waist and full, curved hips framed a rounded pussy mound covered with closely-trimmed, blonde pubic hair. Her swollen cunt lips were red and glistened with her juices. His cock jumped at the sight of her stiff clit pushing out from between her puffy lips. As he pulled the gown off completely, he let it drop to the floor, then reached up to grasp her nipples and pull her toward him until the tip of his cock was nestled against her wet slit. Lie down on the bed and let me give you the fucking you need. Just a little, unless you say you want more. He turned and led her to her bed, one arm around her waist and the other kneading a tit as she walked. He inhaled sharply when she took hold of his cock. She lay back on the bed, pulling him to her by tugging at his erection. She pressed the tip of his cock against her stiff clit, rubbing it back and forth over her swollen bud until his throbbing purple cockhead was coated with a mixture of her juices and his precum. Gripping his shaft firmly, she slid the head up and down her slit, moaning softly each time it moved over her clit. She looked up at Jason. His glazed expression and lust-filled eyes followed her movements. The heat and wetness of her cunt surrounded him, and his eyes closed, his head dropped back as sensation overwhelmed him. Her hand pulled gently on his shaft, and he moved forward until his cockhead sunk into her heat. Her hand allowed him to go no further. As he leaned over her, both of them staring between their bodies at her hand wrapped around his cock shaft, the head buried inside her pussy, he felt her other hand go around him and cup his ass. He felt her hand pressing against his ass, pushing him forward as her other hand pulled on his throbbing shaft. His cock pushed her cunt walls open, burrowing inside her wetness until he was buried half way. Can you feel that? Does that feel nice? His cock leaped, and he pushed hard against her as he felt cum rising up his shaft. Her moans of release barely penetrated his consciousness. He collapsed on top of her, his softening cock being massaged by her orgasmic contractions as he relaxed and felt his breathing return to normal.
