So I tried my best to be good enough. Can somebody tell me if this really happening? If you care enough to save me, I wont let this define me. With love blind eyes things seem fineâ€¦ Until they grow tired of staring into the light. I wish someone would tell me, if this really happening. If you care enough to save me, i wont let this define me. Your love takes on the shape of suffering and silently I wish that I was anybody but me. Well trained eyes find that things are not alright. No one came to save me. I cant let this define me. When I take my time I can make things seem fineâ€¦ Because I got good at hiding you from the ones I love. We thought we had it all. The only thing we own is what we can give. Though we barely survived, I never felt more alive. Try and starve the devil inside. We burn out dull out of spite. The family crest is our medication. It was you or nothing. And nothing can hurt me like I hurt myself. If this sounds typical then congratulate yourself. So tired of being old and feeling cold and numb. I gave up on giving up and lost myself a bit trying to be a ghost. Hold your breath we may need the air. I write the bastard songs, they make me feel alive. Finally proud to live inside my own skin. You see, treachery in memories always takes a different spinâ€¦until it happens again and again. You said you want my pain? So i gave you pain. Why I crack under the pressure of always feeling guilty of never pleasing anyone because no one here can get over themselves. You say you want my heart, just to tear it apart. Would you die for me if I lived for you? But turn your back on me, if I continue to follow my heart? Throw me away, just let me be, and hate me for me. Loving a lie, deny me my life, but I still love by youâ€¦but why should I? But I got a feeling things are about to get much worse, before they get worse. Nothing seems to matter and no one seems to bother anymore. Remedy You can find me, always, getting lost in my head. You can tell me most anything I promise I wont understand. It was a rarity, that I felt emotions. Now they radiate down my extremities and it sets me on fire. It was a malady without a solution. You were my remedy, yea you ruined me. You can find me, always, hanging on by a thread. It was a rarity that I sensed emotions. I feel them radiate, gave me stomachaches, you set me on fire. I felt it satiate my sincerity. Without misery thought I had nothing to offerâ€¦ it was my way of carrying that weight. Until you came throughâ€¦and made me believe, I was worth being saved. Just let me go. I wanna be more conscious. I wanna live in the now. I wanna be the taste on your lips and the curse on your tongue, I wanna make you spit fuck. Dry your fucking eyes babies, lets shut our mouths not our hearts. This is the face of a pig who cares too damn much about what others think. I wanna live for a scream not a screen. Stop consuming everything because all I need is right in front of me. Not longingly stare at an empty sky that holds nothing but rain. Sometimes the place your trying so hard to escape is the only place you truly belong. Bathe in the fire. Leave a scar everywhere. This life is yours, if you want it. I just wish I knew which way I was going. Some people they get up after life has beat them down. Pretty sure I never made a sound. I hope somebody notices I was here. And I hope you loved me being here. Hope to god you loved me being here. Stuck in your side forever more. So low beneath the foam I cant feel the sunâ€¦ I sank to the bottom of the ocean like a stone. Wish I were good enough. I wish I was good enough. All you asked is, do I feel better now? All I said is, do I have a choice? All you ask is can I try and smile. All I said is, I thought I was. Would your love run out if my heart gave out? Like a star burns out. Like you feel when your uninspired. Are we still hanging on? Watch the color drain out of my face. On and on our own we give up. I feel everything all at once. Viva Indifference Imagine you and me we float among the wreckage. We drowned our love to save it from the fires. I left some dreams I had to rot in Boston because I saw myself shine brightly in your eyes. Curled up on a bed of silence. They lost their minds. I wear a cross but I believe in nothing, except for you and me, but does that count? Because I feel fine to waste my time trying to find my path along the way. My heart breaks for the artist, because it wears me out. Living life caught in the cross hairs of your own self doubt. I work in the garage all day long, painting pictures, inventing

songs. I accept myself and its all your fault. I think about it all the time. You made me feel like, I was more than enough. The greatest man that ever lived was born November 5th. He taught me everything I know, he proved to me that gods exist. The greatest man that ever lived, he died September 6th. The greatest man that ever lived was more than my best friend.

I was now close to the opening, just a few more steps until - I felt a hand on my shoulder and it pulled me back. I got pushed towards one of the vans. I tried to climb out of the white men's grasp as I screamed and kicked.

Harrison, a career Army sergeant. I had a good life. Army base at Wildflecken , West Germany. During that summer, prior to moving to Orlando , he spent a significant amount of time in Los Angeles under the tutelage of Hall of Famer Magic Johnson. Teamed with newly drafted Anfernee "Penny" Hardaway , the Magic finished with a record of 50-32 and made the playoffs for the first time in franchise history. They then defeated the Chicago Bulls in the conference semifinals. The Lakers made the playoffs, but were eliminated in the second round by the Utah Jazz in five games. He led the league with a 61-21, first in the Pacific Division , and were the second seed in the western conference during the NBA Playoffs. After defeating the Portland Trail Blazers and Seattle SuperSonics in the first two rounds, the Lakers again fell to the Jazz, this time in a 4-0 sweep. However, personnel changes were a source of instability during the 1999 season. The Lakers finished with a 31-19 record during the lockout-shortened season. Although they made the playoffs , they were swept by the San Antonio Spurs , led by Tim Duncan and David Robinson in the second round of the Western Conference playoffs. The Spurs would go on to win their first NBA title in He punched center Brad Miller after an intentional foul to prevent a basket, resulting in a melee with Miller, forward Charles Oakley , and several other players. It starts with c and ends with t. His trademark mobility and explosion had been often absent. The corrective options ranged from reconstructive surgery on the toe to rehabilitation exercises with more shoe inserts and anti-inflammation medication. He did not want to rush a decision with his career potentially at risk. For the season , the team made a concerted off-season effort to improve its roster. They sought the free-agent services of forward Karl Malone and aging guard Gary Payton , but due to salary cap restrictions, could not offer either one nearly as much money as they could have made with some other teams. Ultimately, both signed, each forgoing larger salaries in favor of a chance to win an NBA championship, which neither had accomplished in his career and which neither would achieve with the Lakers. Lakers assistant coach Tex Winter said, "Shaq defeated himself against Detroit. He played way too passively. He had one big game However, Miami showed interest, and eventually the two clubs agreed. There was no way ownership could give him what he wanted. He claimed one of the main reasons for wanting to be traded to Miami was because of their up-and-coming star Dwyane Wade , to whom he gave the nickname "Flash". He played in 73 games, his most since season, averaged I care about winning, not stats. Chicago would respond with two dominating performances at home to tie the series, but Miami would respond right back with a victory at home in game 5. Miami advanced to face New Jersey, who won a surprising game 1 victory before the Heat won four straight to assure a rematch with Detroit. His role in the offense diminished, as he attempted only 10 field goals per game, versus his career average of The Lakers won, The trainers had him concentrate on building his core strength , flexibility, and balance. My whole career I had to play people one-on-one. Never once had to double or ask for a double. I was trying to take the charge, trying to get a call. It probably was a flop, but flopping is the wrong use of words. Flopping would describe his coaching. I rarely get to play [Yao] one-on-one Big Baby [Glen Davis] breaks my hand and I had to sit out five weeks late in the year. I come back finally in the first round of the playoffs, and we lost to Boston in the second round. I know for a fact if I was healthy, we would have gotten it done that year and won a ring. I want to thank you very much. Talk to you soon.

"Get your ass up!" Ghoul yelled from my doorway and made me jump. I quickly looked up at Ghoul and dug my head into my pillow as I flipped him off. I heard a few chuckles and feet entering the room. "I swear to whatever is up there floating on a giant cloud or sitting on a huge mountain, if Fun.

Jeremy Bentham The origins of utilitarianism can be traced back as far as Epicurus , but, as a school of thought, it is credited to Jeremy Bentham , [67] who found that "nature has placed mankind under the governance of two sovereign masters, pain and pleasure", then, from that moral insight, deriving the Rule of Utility: He defined the meaning of life as the " greatest happiness principle ". Friedrich Nietzsche characterized nihilism as emptying the world, and especially human existence, of meaning, purpose, comprehensible truth, and essential value; succinctly, nihilism is the process of "the devaluing of the highest values". To Martin Heidegger , nihilism is the movement whereby " being " is forgotten, and is transformed into value, in other words, the reduction of being to exchange value. If God, as the supra-sensory ground and goal, of all reality, is dead; if the supra-sensory world of the Ideas has suffered the loss of its obligatory, and above it, its vitalizing and up-building power, then nothing more remains to which Man can cling, and by which he can orient himself. The knowledge disclosed by modern science has effectively rewritten the relationship of humankind to the natural world. Advances in medicine and technology have freed humans from significant limitations and ailments of previous eras; [74] and philosophyâ€™ particularly following the linguistic turn â€™ has altered how the relationships people have with themselves and each other are conceived. Questions about the meaning of life have also seen radical changes, from attempts to reevaluate human existence in biological and scientific terms as in pragmatism and logical positivism to efforts to meta-theorize about meaning-making as a personal, individual-driven activity existentialism , secular humanism. Pragmatism Pragmatism originated in the late 19th-century US, concerning itself mostly with truth , and positing that "only in struggling with the environment" do data, and derived theories, have meaning, and that consequences, like utility and practicality, are also components of truth. Moreover, pragmatism posits that anything useful and practical is not always true, arguing that what most contributes to the most human good in the long course is true. In practice, theoretical claims must be practically verifiable, i. Pragmatic philosophers suggest that the practical, useful understanding of life is more important than searching for an impractical abstract truth about life. William James argued that truth could be made, but not sought. Philosophical theism Theists believe God created the universe and that God had a purpose in doing so. Theists further hold that if there were no God to give life ultimate meaning, value and purpose, then life would be absurd. According to existentialism, each man and each woman creates the essence meaning of their life; life is not determined by a supernatural god or an earthly authority, one is free. One can live meaningfully free of despair and anxiety in an unconditional commitment to something finite, and devotes that meaningful life to the commitment, despite the vulnerability inherent to doing so. Salvation, deliverance, and escape from suffering are in aesthetic contemplation, sympathy for others, and asceticism. Accordingly, he saw nihilism "all that happens is meaningless" as without goals. For to hope in the possibility of help, not to speak of help by virtue of the absurd, that for God all things are possibleâ€™ no, that he will not do. And as for seeking help from any otherâ€™ no, that he will not do for all the world; rather than seek help he would prefer to be himselfâ€™ with all the tortures of hell, if so it must be. As beings looking for meaning in a meaningless world, humans have three ways of resolving the dilemma. Suicide or, "escaping existence": Both Kierkegaard and Camus dismiss the viability of this option. Religious belief in a transcendent realm or being: Kierkegaard stated that a belief in anything beyond the Absurd requires a non-rational but perhaps necessary religious acceptance in such an intangible and empirically unprovable thing now commonly referred to as a " leap of faith ". However, Camus regarded this solution as "philosophical suicide". Acceptance of the Absurd: Camus endorsed this solution notably in his allegorical novel The Plague or La Peste , while Kierkegaard regarded this solution as

"demoniac madness": Per secular humanism , the human species came to be by reproducing successive generations in a progression of unguided evolution as an integral expression of nature , which is self-existing. Humanism seeks to develop and fulfill: It is based on the premises that the happiness of the individual person is inextricably linked to the well-being of all humanity, in part because humans are social animals who find meaning in personal relations and because cultural progress benefits everybody living in the culture. In this light, every living creature has the right to determine its personal and social "meaning of life". There are many therapeutic responses to this question. For example, Viktor Frankl argues for "Dereflection", which translates largely as: On the whole, the therapeutic response is that the question itselfâ€”what is the meaning of life? The question then morphs into more specific worries such as "What delusions am I under? The things people, events in the life of a person can have meaning importance as parts of a whole, but a discrete meaning of the life, itself, aside from those things, cannot be discerned. Bertrand Russell wrote that although he found that his distaste for torture was not like his distaste for broccoli, he found no satisfactory, empirical method of proving this: Neither he nor his opponents could advance any argument. In a scientific question, evidence can be adduced on both sides, and, in the end, one side is seen to have the better caseâ€”or, if this does not happen, the question is left undecided. But in a question, as to whether this, or that, is the ultimate Good, there is no evidence, either way; each disputant can only appeal to his own emotions, and employ such rhetorical devices as shall rouse similar emotions in others Questions as to "values"â€”that is to say, as to what is good or bad on its own account, independently of its effectsâ€”lie outside the domain of science, as the defenders of religion emphatically assert. I think that, in this, they are right, but, I draw the further conclusion, which they do not draw, that questions as to "values" lie wholly outside the domain of knowledge. That is to say, when we assert that this, or that, has "value", we are giving expression to our own emotions, not to a fact, which would still be true if our personal feelings were different. Postmodernism Postmodernist thoughtâ€”broadly speakingâ€”sees human nature as constructed by language, or by structures and institutions of human society. Unlike other forms of philosophy, postmodernism rarely seeks out a priori or innate meanings in human existence, but instead focuses on analyzing or critiquing given meanings in order to rationalize or reconstruct them. Anything resembling a "meaning of life", in postmodernist terms, can only be understood within a social and linguistic framework, and must be pursued as an escape from the power structures that are already embedded in all forms of speech and interaction. As a rule, postmodernists see awareness of the constraints of language as necessary to escaping those constraints, but different theorists take different views on the nature of this process: Naturalistic pantheism According to naturalistic pantheism , the meaning of life is to care for and look after nature and the environment. Embodied cognition Embodied cognition uses the neurological basis of emotion, speech, and cognition to understand the nature of thought. Cognitive neuropsychology has identified brain areas necessary for these abilities, and genetic studies show that the gene FOXP2 affects neuroplasticity which underlies language fluency. George Lakoff , a professor of cognitive linguistics and philosophy, advances the view that metaphors are the usual basis of meaning, not the logic of verbal symbol manipulation. Computers use logic programming to effectively query databases but humans rely on a trained biological neural network.
