Chapter 1 : Review: Let's Pretend This Never Happened by Jenny Lawson - It's My Genre, Baby

Jenny Lawson, aka "The Bloggess", recounts her life from childhood through school, romance, marriage, and motherhood in her first book, Let's Pretend This Never Happened: A Mostly True Memoir. Lawson starts off the book by throwing the reader into the deep end of her humor and really doesn't let them resurface until after finishing the.

This is so not my fault. Victor broke his arm by falling down some stairs in Mexico, so I went with him on a business trip to North Carolina so I could help him. The trip was uneventful, until we stopped at a little shop on the way to the airport. He was missing one hand, and he was nineteen dollars. His tiny belt hung sadly, and I appreciated the irony of an alligator wearing a belt that was not made of alligator. I remembered my vow to not buy any more taxidermied animals and feverishly searched for loopholes while Victor looked through the aisles for me. He had me at the beret. He was far too brittle to go in my suitcase, so I put him in my purse, and Victor insisted there was no way they were going to let me get on the plane with a dead alligator. I turned to the experts everyone following me on Twitter. Have you met you? It probably expired, like, forty years ago. Besides, these are the risks you take when you bring a dead alligator on a plane trip. Victor was stopped for a full body search. Probably because he was sweating, and the vein on his forehead was popping out. In the confusion, Jean Louise and I calmly walked through with no problem. Victor could learn a lot from that alligator. Victor glared at me. The man sitting across the aisle was staring at Jean Louise, so I swung him toward his face. The man stared at Jean Louise with a slightly open mouth. Victor put his head in his hands. I gestured at her and smiled widely as she walked near me, Jean Louise on my lap. And a hook for his missing hand. And a saucy little ponytail. You have no idea how true that is. You seem to be logged out. Refresh your page, login and try again. Chapter 2 : Jenny Lawson - Wikipedia

Let's Pretend This Never Happened (A Mostly True Memoir) by Jenny Lawson *The #1 New York Times bestselling (mostly true) memoir from the hilarious author of *Furiously Happy*. "Gaspingly funny and wonderfully inappropriate."*

Which speaks volumes about the role of blogging and the internet in helping all of us have our say. Contributors control their own work and posted freely to our site. If you need to flag this entry as abusive, send us an email. Jenny Lawson is a big booming voice on the web. Her online name -- the Bloggess -- demands attention and, looked at through a certain lens, worship. Her tales are bawdy, irreverent, searingly honest, big and loud. Her following is outsized, too, with 2 to 3 million hits per month. *A Mostly True Memoir* , her voice is much the same. Hers is a small voice, sweet and lovely. And right there is the power and possibility of the Internet. Unlike many of the most popular mom bloggers, though, Lawson did not start out online. Stories like the one about Beyonce the five-foot-tall metal chicken that she brought home from a trip to the outlet mall after she and Victor had a fight over buying towels and she got back at him by bringing home Beyonce instead. She placed it outside his home office window. And, in time, they become part of her crusade to change the world or, at least, one small part of it, which, like her online persona, has become far larger than its modest, unassuming beginnings. Readers jumped in and volunteered to help. And like the Red Dress. She had always wanted a big red ball gown, she says, and about two years ago a friend made her a gift of one, then took her to a local graveyard and took artistic photos of the bright red against the pale headstones. Lawson met her there , the original dress in hand. Since then, it or its descendants has been worn by women undergoing chemotherapy, celebrating their 40th birthday, buying their first house, having a sex change at age The dress, too, has a Facebook page , and most recently was worn by Susan Niebur , who wrote the blog Toddler Planet, before her death from breast cancer in February. Readers could say the same about Lawson herself. Jenny Lawson, aka The Bloggess, describes the physical representation of something less tangible , but just as fierce and bright, as a red ball gown: Things like flying lessons, and ballet shoes, and breaking into spontaneous song, and building a train set, and crawling onto the roof just to see the stars better. Chapter 3 : Let's Pretend This Never Happened by Jenny Lawson - Review | BookPage

Let's Pretend This Never Happened (A Mostly True Memoir) is a collection of stories from the life of Jenny Lawson, who is also known as *The Bloggess* on her blog of the same name. I was somewhat familiar with Lawson from reading bits of her often irreverent blog posts and laughing my ass off.

This is the story of my life, except completely different. So then we "what? I will tell you when we get to the weird part. Can you just listen? People give me the half cocked flopped ear expression of the RCA Victor dog. You probably have no idea who that is. Jenny Lawson just wrote it for me. Did I mention I love you? Because it is about me. Except, as I already said, completely different. Mine had way less taxidermy but far more domestic violence. I even love the subtitle *A Mostly True Memoir*. All of those things, they happened. Why would I bother to make something like that up? I never understood what they were feeling. Suddenly I knew what it was like to be a normal person waiting for me to get to the weird part. That was a gift. It was such a gift I said thank you, because I am polite like that. Even Malachy McCourt told me to write a book. I am sure if the opportunity to starve in an Irish slum presented itself she would have taken mental notes for her future memoir. She is also not a teacher. This is a loss to children everywhere but possibly a relief to their parents. Set a calendar alarm. Because I thought it was hilarious. Yes, this is something of a blog to book experience. While I would have moved a chapter here or there and ended in a different place those are minor quibbles. Jenny Lawson deserves a cabinet full of awards and a truck full of money dumped into an empty swimming pool for her enjoyment.
