This book is about a boy named Tullis Yoder. Tullis lost half of his hand on his first bull ride. Tullis soon after heard that his rodeo is broke and all of the 13 horses in that rodeo are going to be sold to be slaughtered to be made into dog food. But, Tullis just can;t let that happen so he teams up with a doctor and her father to steal the horses. Then, they go on a journey night and day with the horses being chased by many different people. A t I thought the Horse Thief was an amazing book. A theme for this book is love is a very strong thing. During the book it talks so much about how much Tullis loves the horses and his giant connection to them. It also shows his love for his lover, Clemsa. Love is also what drove Tullis to steal the horses. I showed his true love. He could not let them do this horrible thing to them. The Horse Thief was great! I was very detailed and it used incorrect grammar for the characters. It really shows character for the book. The book was also intense. I would totally recommend this book to other people. It is a must read! The ending was a lot different then I thought it would be. I would consider Tullis Yoder one of the luckiest boys in the world! Mar 14, Matthew Cranston rated it it was amazing I think this book was awesome. It was very realistic. It show the lofe of a rodeo cowboy. I think the author wrote this book because he wanted to tell the reader to do what they love. This book made me feel inspired. It told me to keep my love for rodeos and livestock. The character on the movie went through almost the same struggles as the boy in Horse thief has. This book also reminds me of the time on the news when a kid was seve I think this book was awesome. This book also reminds me of the time on the news when a kid was severley injured in a bull riding accident. The same thing as the young cowboy went through in this book. This book can relate to my life because of my love for rodeos and working with livestock. This book inspired me to keep doing what i love. If you like western books, then this book is right for you.

Between near-constant recommendations of amazing memoirs, new sequels and a terrifyingly long list of bookmarked Internet longreads, it can be stressful to choose what you should pick up next. These books by women are just a few of the incredible titles published recently -- an exhaustive list would be hundreds of books longer. Those listed here are some of the most-discussed, thought-provoking and life-changing books from a diverse group of women writers. They make you rethink what being a feminist means, offer life advice to women of all ages, and reinforce your long-held belief that Tina and Amy should be your best friends and life coaches forever. The novels are some of the finest writing from woman authors. Here are 21 books published in the past 5 years that all women should read: *Americanah* is indeed a novel about being black in the 21st century -- in America, Great Britain and Africa, while answering a want ad, choosing a lover, hailing a cab, eating collard greens, watching Barack Obama on television -- but you could also call it a novel of immigration and dislocation, just about every page tinged with faint loneliness. Donna Tartt has delivered an extraordinary work of fiction. A space where women can realize their difference and their nuances. Nothing is lonelier than being separated. Cut yourself in half. See how that feels and you will stop wanting a twin. Her approach is not strictly reporting, nor is it a full-blown memoir. And survivors, as we all know, can be the most dangerous people of all. Her last, *On Beauty*, managed to be interesting about aesthetics as well as about race and compassion, and the prose was well turned and sweet-natured to match. The themes in *NW* are more radical and the language more fractured. Though it remains absolutely rooted, stuck to the map, contexts change and narrative styles shift. This is a book in which you never know how things will come together or what will happen next. The first half takes place entirely within the foot-square room in which a young woman has spent her last seven years since being abducted aged 17. Raped repeatedly, she now has a five-year-old boy, Jack, and it is with his voice that Donoghue tells their story. It also raises sometimes uncomfortable questions with no clear-cut answers about whether people should be remunerated for their physical, genetic contributions to research and about the role of profit in science. In chapter after chapter, in a voice consistently recognizable as her own, Fey simply tells stories of her life: The slum dwellers have a skillful and empathetic chronicler in *Boo*, who depicts them in all their humanity and ruthless, resourceful glory. For most of 40 years he has lived alone, tending the orchard where he grew up with his mother and sister. His mother died when he was still very young, and his sister disappeared as a young woman -- a loss Talmadge has never quite recovered from. And it may be that secret pain that prompts him to take care of two pregnant teenagers who wander onto his property looking for food. Someone who wants to find a lasting romantic connection may play a tremendous role in creating a life of romantic isolation. To this end, unresolved conflicts can lead people to choose unsuitable partners and deeply unsatisfying relationships. The *Lowland* demonstrates in meticulous detail that facing painful dimensions from the past and acknowledging family secrets is often the key to finding true happiness. I Am the Ice Worm by: In both stories, a teenage character is stranded in the wilderness following a plane crash. In I Am the Ice Worm, year-old Allison is rescued from the Alaskan wild by an Inupiat trapper, who takes her to his village to stay until she can be reunited with her mother. Kids who like adventure stories. Find I Am the Ice Worm at your local library. The story is about Brian, 13, and how he manages to survive 54 days in the Canadian wilderness after a plane crash. Brian was flying to visit his father when the pilot dies of a heart attack in mid-flight. Brian crash lands the plane into a small lake and swims out of the wreckage. He has his clothing, a tattered windbreaker and a hatchet a gift from his mother. He endures a porcupine attack, a tornado and being utterly alone for almost two months. This is a tale of adventure but, more importantly, it is a tale of character growth. This edition includes a new introduction and sidebar commentary by the author. Find Hatchet at your local library. David Almond - Delacorte Press, pages. Here, Kit is invited by an odd neighbor boy to play a game called Death. This multi-generational tale is engrossing and chilling. Roland Smith - Harcourt, pages. When year-old Peak Marcello is caught scaling a skyscraper to place his signature graffiti tag, he is offered a choice: Everest with his long-absent father. Though the choice might be easy, the journey is not. Peak is physically and emotionally challenged by the grueling climb, the weather, and the politics and drama of climbing culture. Find Peak at your local library. Baseball in April and Other Stories by: Gary Soto - Harcourt Brace Jovanovich, pages. Set in a Latino community in Fresno, California, these contemporary short stories take on universal life lessons. Perfect for a fifth-grade reader, Soto is gifted at telling tales that intrigue and instruct kids. Baseball in April is sure to inspire discussion, so chat about it with your child. Originally published in Kids who like classic stories. Find Baseball in April and Other Stories at your local library. The Light Princess by: George McDonald, illustrated by: Maurice Sendak - Farrar Straus Giroux, pages. Just when you think your child might be getting too old for fairy tales, along comes this amazing 19th-century princess story to change both of your minds. Chock-full of puns and mixed with just the right blend of whimsy and ethics lessons, The Light Princess deserves a fresh set of 21st-century eyes. Find The Light Princess at your local library. The Phantom Tollbooth by: Norton Juster, illustrated by: Jules Feiffer - Random House, pages. Full of irony and insights, Juster created a masterpiece when he wrote The Phantom Tollbooth. Give this book to your child and let the wave of words and numbers sweep them into a fantastical world. A clever, almost indescribable book that you may already know about, but is too indispensable to keep from mentioning it here. Find The Phantom Tollbooth at your local library. Sir Cumference and the First Round Table: A Math Adventure by: Cindy Neuschwander, illustrated by: Wayne Geehan - Charlesbridge Publishing, 32 pages. This book is the perfect read-aloud to introduce the concepts of circumference, diameter and radius. Students will be exposed to many other geometric shapes as well. Children of all ages will enjoy this mathematical adventure. Sir Circumference and his Knight work to solve a mathematical dilemma. What would be the best-shaped table for Sir Circumference to gather his knights? Will it be a square, rectangle, parallelogram or circle? You must read to find out. Kids who like numbers. Bread and Roses, Too by: Katherine Paterson - Clarion Books, pages. Kids who like historical fiction. Find Bread and Roses, Too at your local library. The Secret Garden by: Frances Hodgson Burnett - J. Lippincott Company, pages. Mary is an orphan who is angry at the world when she arrives at a forsaken mansion on the British moors. She shows her cousin the garden and his ecstatic encounter with nature is as healing for him as it has been for Mary. The young people flourish along with the garden, as the lonely mansion becomes a loving home. Want to see the movie? Check out the adaptation featuring Maggie Smith as Mrs. Find The Secret Garden at your local library. Island of the Blue Dolphins by: Karana is a year-old Native American who refuses to abandon her 6-year-old brother when her island, Ghalas-at off the Southern California coast is evacuated. Shortly thereafter, he tragically dies after being attacked by wild dogs, and Karana begins her solitary wait for a ship to come for her. She waits 18 years. Karana survives by foraging, fishing in the ocean, defending herself from wild dogs and elephant seals, and hiding from the Aleut tribe. Told from her point of view, we share the details of her day-to-day life, watch

the days turn into years, and wait for the ship to carry her off her lonely island. Find *Island of the Blue Dolphins* at your local library. *The Mystery of Rascal Pratt* by: This is great historical fiction for children. The story takes place in at the tip of the Marin Headlands in Northern California. Shipwrecks, pirate adventure, bigotry, friendships, local flavor – this book has it all to hold the attention of the tween crowd. The protagonists are Emma, Sue and Harris all 12 years old and Rascal Pratt, a self-proclaimed pirate who is older than he looks. The action takes place at a lighthouse and the nearby shoreline and ocean. Find *The Mystery of Rascal Pratt* at your local library. *Number the Stars* by: Lois Lowry - Houghton Mifflin Co. A brave Danish girl helps smuggle her Jewish friends to safety. A riveting read, but your kids may have questions afterward. Find *Number the Stars* at your local library. *On the Wings of Heroes* by: Richard Peck - Dial Books, pages. This book is a funny, poignant book about life on the home front during World War II. There is some violence: Families can talk about the differences between life then and now. Which are completely different? Does it sound like it was fun to grow up then? Is it more fun now? What else have you seen and read about World War II? Find *On the Wings of Heroes* at your local library. *The Shakespeare Stealer* by: Gary Blackwood - Puffin Books, pages.
