

Chapter 1 : Leave Me Breathless (Audiobook) by Cherrie Lynn | blog.quintoapp.com

So, although I do strive to write each of these books as a standalone, if you have not read Leave Me Breathless and Watch Me Fall, in particular, you might be a bit lost. Maybe not lost, but you will have missed out on things that will most certainly matter in Breathless.

Aside from a torrid, one-night fling in a backseat a few months back, her love life has been sorely lacking, but fortunately she has devious friends who feel like playing Cupid. Seth "Ghost" Warren has just returned to town after an extended absence. Cautious cowgirl Macy is the last thing he needs thrown into the mix. Contains explicit sex, graphic language, road trips, troublemaking exes, emotional baggage, and an unconventional but exceptionally hot hero tattooed and pierced for your pleasure. When I stumbled across the cover of Leave Me Breathless, I knew I was buying it regardless of the fact that it was not the first book in the series and I had not read the two before it. I took one look at the man on the cover and my only coherent thought was: And I am so happy with my impulse purchase! I fell absolutely in lust love with Ghost, aka Seth Warren. The guys run a tattoo parlor and are very talented at what they do. The girls grew up in families where money was never a problem, and the story definitely has the feel of forbidden love. Back to my favorite character: And there are piercings. Seth is so much more than his uber sexy appearance. He is such a great guy. Macy Rodgers is one intriguing lady. That is something completely unbeknownst to the friends, but neither Macy nor Seth thinks anything else will ever happen between the two of them. She thinks Seth wants just one thing from her; and, while she is more than happy to give it to him, she shocks herself by realizing she wants more. Cue the angst because what follows is a bit of an emotional roller coaster. It contains some truly tender and beautiful scenes. The relationship between Macy and her parents is so sweet. There is a moment between Macy and her dad that involves healing and moving on, and that part of the book had me in tears. You go after it, Macy. And if something is standing in your way, you go through it. This is a mature story. If detailed sexy times make you squeamish, then this one may not be for you. The book is aptly titled "it will definitely Leave You Breathless. I thought about Seth long after I turned that last page. I still think about Seth.

Chapter 2 : Read Leave Me Breathless online free by Cherrie Lynn - 1Novels

"Lynn's third Ross Siblings novel is a blazing-hot success that blends touching romance with sinful sensuality." RT Book Reviews " Leave Me Breathless is an emotional journey of self discovery for two very different people who simply wind up together on the same path.

Aside from a torrid, one-night fling in a backseat a few months back, her love life has been sorely lacking, but fortunately she has devious friends who feel like playing Cupid. Cautious cowgirl Macy is the last thing he needs thrown into the mix. Ms Lynn did a wonderful job separating this story from book 2. Though on the surface, it appears to be a similar story—rich girl attracted to a bad boy—the author clearly tells a different story in this book. Seth and Brian have been friends since high school; Seth describes Brian as the brother he should have had. You learn why he would prefer Brian to be his own brother. You feel for Seth and feel the depth of his emotion, particularly towards his Nana. Seth sees Macy to the depth of her soul, scary for her and powerful for the reader. Despite the rough exterior, this is a compassionate gentleman who still opens doors. Macy is a true country girl, a girl with a wound in her past that is a physical wound but more importantly an emotional one. The bond Macy has with her parents, seeing her through their eyes, adds another layer to this book. This relationship does not operate in a vacuum. Ms Lynn uses the relationships with other characters to move the story along. And again for those of you who love Brian and Candace, they are seen in this book a number of times. The attraction between Macy and Seth is something the reader is able to feel; it becomes tangible as do the obstacles that bar their way. You will have to read this one to find out if they can overcome the death of a loved one as well as crazy ex-lover and wounds from both their pasts. I was provided with an ARC copy of this book in exchange for an honest review. About the Author Cherrie Lynn has been a CPS caseworker and a juvenile probation officer, but now that she has come to her senses, she writes contemporary and paranormal romance on the steamy side. Cherrie lives in East Texas with said husband and their two kids, all of whom are the source of much merriment, mischief and mayhem. You can reach her at cherrie.cherrielynn. She loves hearing from readers!

Chapter 3 : leave me breathless ross siblings 3 cherrie lynn ebooks preview

Leave Me Breathless by Cherrie Lynn It's Valentine's Day, but Macy Rodgers isn't feeling the love. Aside from a torrid, one-night fling in a backseat a few months back, her love life has been sorely lacking, but fortunately she has devious friends who feel like playing Cupid.

I wholeheartedly connected to him and his bad boy persona, and absolutely felt everything that story had to throw at me. I mean, sure, both were hot tattooed rockers, but where Brian was sweet, Ghost seemed brash. Where Brian was subdued, Ghost was obnoxious. Especially the socialites that have suddenly become a part of their entourage. You look a little flushed. I laughed and cringed and blushed. Okay where was I? Brian has those dimples. Nothing can beat dimples. Except maybe a shaved head. That might do it. And ummm Ghost has those. Both are him, and both fit him. And his story rocked my world. How could I ever doubt it? A perfectly timed growl, chuckle, raised eyebrow, even a fleeting dirty thought. Just finished it - great book! Lord is ghost hot! I love Ghost too!! Yeah that part made me laugh Shanda: I read it last night and I was still giggling about it this morning. I heart Ghost also!!! Love Ghost, and Macy was tough. This series is awesome. I loved that part. Do you have to read this series in order or are the more stand alone? Must at least read Rock Me first. It is one of my all time favorite reads. Love Brian from Rock Me!!! In love with Ghost now!!!! Love your blog, you rock!!! I LOVE the twist! The funniest part for me is when he and Brian were telling Macy how he got his nickname!! Hoping a fourth book is coming in this series.. A more not-my-type guy never existed. Maybe another go, will get each other out of their systems? Tomorrow, are you gonna just pretend tonight never happened, like you did before? Thought I was only after the score? Seth has a LOAD of baggage that he so carefully hides from everyone even his best friends, that really kicks the angst into high gear. Leave me Breathless has been added to my Favorite Reads List!!! Loved, loved, loved this book. I almost stayed up all night to finish it. My favorite of the series. I love him too! He is competing with Brian in my list of favorites. Not sure who I like more?! Either way, I DO heart Seth! Enough angst and drama to keep you on your toes and feeling the pain after all, no pain no gain, but perfectly realistic! Why not 5 stars? Well, for one, while I enjoyed the ending, I could really use more. There is so much more to experience, and more realistic drama potential. I like love these guys. Cherrie Lynn sent me this book for review. So, thank you Cherrie!!!

Chapter 4 : Review: Leave Me Breathless by Cherrie Lynn - ShhMomsReading®ShhMomsReading®

When I stumbled across the cover of Leave Me Breathless, I knew I was buying it regardless of the fact that it was not the first book in the series and I had not read the two before it.

November 13, 3. This really was like reading two books for me. The first half was hot and heavy with sex scene after sex scene after sex scene, and not a lot of character development or story. But then the second half was amazing character development, with a brilliant intriguing storyline, intense passion but where did the sex go? I have to say my favourite type of romance book is when this balance is struck equally. This book would have nailed it perfectly if only the sex had been more spread out, in that if some of the plot was introduced earlier so you found out more about them in between all the sex, rather than having all the sex then finding out. I really liked both Macy and Seth as characters. They had a fascinating past, which resulted in them having baggage and issues in relationships. Macy is different from Seth. She is a country girl who loves horses and ultimately wants to settle down. But Seth and Macy click, this comes across really well, their heat jumps off the pages screen and it does not feel forced. I really liked the way they hooked up, and the way they just stopped fighting it. But this also leads to one of my biggest disappointments. Once Macy finally gets over her boundaries and tells Seth to do anything he wants, Seth flips out. For fans of Rock Me, there is also a lot of Brian and Candace here. To be honest, Candace annoyed me a little in Rock Me, but I loved her in this one. She has grown up, and matured. It was nice to catch up on them. The other thing I found disappointing about this was the ending. I needed and wanted more. For me a lot of questions remained unanswered. And honestly I needed and wanted one of those descriptive sex scenes from the beginning to also be at the end. Although this is book three in a series, it can easily be read alone. Fans of both Rock Me and Unleashed will like this. I enjoyed it a lot. I really liked Macy and Seth, and I really liked the story that was told. But for me it could have been brilliant, if the sex was spread out, if the real story started earlier, and if the ending gave more, but because of these things it just left me feeling not quite satisfied. Happy to have read it, but just not fulfilled. Will I read it again? Yes 30 people found this helpful Search.

Chapter 5 : blog.quintoapp.com: Customer reviews: Leave Me Breathless

42 quotes from Leave Me Breathless (Ross Siblings, #3): 'Big enough that I should tie a bow around it and attach a little card that says 'To: Macy. You'r.

Aside from a torrid, one-night fling in a backseat a few months back, her love life has been sorely lacking, but fortunately she has devious friends who feel like playing Cupid. Cautious cowgirl Macy is the last thing he needs thrown into the mix. Where the hell had he gotten a name like that? Well, maybe a little. There was nothing wraithlike about him at all; he was a very solidly built six-two or so, judging by how tall he stood next to her five-six. Shaved head, though right now he wore a black baseball cap pulled low over his eyes with the hood of his black sweatshirt over it. The very antithesis to everything she wanted, or thought she wanted. He was looking right at her, shit-eating grin in place, one dark eyebrow arched. That stare was like a vacuum. Or a black hole. Nothing could escape it. When his own grin widened, she pushed herself up from her seat to give him a hug. Unfortunately, her legs were Jell-O, and his tight squeeze kept her from getting up close and personal with the floor even more than those shaking appendages did. Warm, despite the chill of the night air still clinging to his hoodie. And then he had to speak, the rumble of his voice raising the hair at her nape. She only then realized Brian had joined them too, and was snuggling into the booth next to his girlfriend. His denim-clad thigh was rock hard against her bare one. Sam claimed what was left of the seat on his other side, so she was well and truly trapped. A shiver worked through her. But no, his bottom lashes were just that thick. If he had hair on his head, she figured it would be the same chocolate brown as his goatee and maybe he did have hair on his head now for all she knew. But he was one of those guys who definitely rocked the look his features were strong enough. He stretched out both arms, one behind Macy and one behind Sam, and tilted his chin up at Brian. Macy nearly jumped out of her skin when Ghost leaned over and put his lips mere inches from her ear. Nor is it mine. He shrugged, pulling his arms back and resting them on the table. Working a lot, you know. What was up with that? Ghost leaned across the table toward Candace and Brian. It only egged him on. I might even share him with you. As long as, you know, I can watch. You damn moody Capricorns. You would only hurt me in the end. Stake your claim, baby. Save me from him. So what, you were confronted with him when you least expected it. That would throw anyone. Not her, no way. He was part of a world so separate from her own it would be impossible to bridge the chasm between them. He was heavy metal. She was all country, all the time. Since the accident that had damn near killed her, sensibleness had ruled her world, not impulsiveness. And certainly not her heart or hormones. She was the one in control here, and she liked it that way.

Macy Rodgers sipped her Dos Equis and mused that plenty of people would argue with that statement. People happy in their carefree singlehood. And that was fine. Her two best friends, Candace and Samantha, cackled over the noise in the too loud, too warm bar. Apparently, some joke had passed between them while Macy had been pondering bolting for the door to spend the night at her apartment in blessed solitude watching Bridesmaids for the five hundredth time. She did enjoy seeing the girls, though. Candace and Sam had been all aflutter about something when they dragged Macy out of work earlier, and now not a word about whatever was in store had been mentioned since. Her friends exchanged glances and furtive grins. They were about to embarrass the crap out of her somehow. Candace checked her cell phone, tapped out a text and then slipped it back into her purse. Macy slapped her hands on the tabletop. What the hell could it be? Surely not in here. And surely her friends knew better than to cook anything up between her and Jared. Maybe they bought me a male escort. The girls might have grown as tired of her aching dry spell as she was. A man thrown into the mix might very well cause her to snap. Then there were days like these that made her look around and feel like a colossal failure for not having achieved what her best friends had: She tried not to dwell on it. Given the funk she was in, the last thing she needed was to start thinking about him. With Candace, of all people. But her once straight-and-narrow best friend now sported three tattoos, a belly ring, hot pink streaks in her blonde hair and who knew what else. All thanks to her tattoo-parlor-owning boyfriend, Brian Ross. But if they were talking piercings, then everything must be hunky-dory in their world. Sam gave a quasi-orgasmic little shudder. I might think about doing it too. The sun came up in the morning because Brian said it should. Why even do something if it scares you so much? My thrill is simply different than your thrill. When I would watch you barrel race, I could hardly pry my fingers apart to peek through them. Macy shot a glare at Sam. We all know how that ended. She covered her face with her hands. I love you guys. But maybe this was a bad idea. That was a totally insensitive thing for me to say. Macy rolled her eyes and laughed. I wasâ€”intrigued by him. He and I have absolutely nothing in common. You admitted you had a lot of fun when you hung out with him. A more not-my-type guy never existed. I love bald guys. I love their shiny heads. And rub some more. For all his head-rubbing needs. But I think when Ghost gets back, you need to give the guy a break. But her friends did not know that, and did not need to know that, because they would be insufferable. And then, just like that, he was gone, off to Oklahoma to deal with a family crisis. Months had gone by.

Chapter 7 : Cherrie Lynn â€“ Ebook Bike

Leave Me Breathless - Ebook written by Cherrie Lynn. Read this book using Google Play Books app on your PC, android, iOS devices. Download for offline reading, highlight, bookmark or take notes while you read Leave Me Breathless.

Aside from a torrid, one- night fling in a backseat a few months back, her love life has been sorely lacking, but fortunately she has devious friends who feel like playing Cupid. Cautious cowgirl Macy is the last thing he needs thrown into the mix. Each story in the Ross Siblings Series is standalone story that can be enjoyed in any order. Rock Me Book 2. Breathe Me In Book 3: Leave Me Breathless Book 3. Light Me Up Book 4: Take Me On Book 5: Shaved head, though right now he wore a black baseball cap pulled low over his eyes D I loved this book!!!! The hotness, and by that I mean hotter-than-hell-melt-your-panties-need-a-cold-shower-fanning-self-oh-my-god-H-O-T-N-E-S-S starts right in the first scene and only escalates from there. Seriously, talking about sizzling chemistry! This book should be read near an AC vent, with several drool buckets handy. Macy and Ghost come from two completely different worlds - they lead different lives, listen to different music, have different preferences He was heavy metal. She was all country, all the time. But that cooling-off thing? It had depth and a really wonderful plot and I loved that they each has issues to work through before they could fully make it work together. Their past relationship experiences had made them quite jaded and they were quite open with each other in the beginning - going into the relationship without taking anything for granted. Just wait for me. Their characters were heavily featured not just as side characters but we also even got to see them work through some issues and figure out their happily-ever-after together even further. It was quite a treat: Brian and Seth also have a very close brother-like bond that was highlighted a lot. Both guys are absolutely swoony, gorgeous, tough-yet-soft, sweet, caring, and hotter-than-hot and yet, in many ways, different. And yes, its down there. I love them both. Secrets, a serious lack of communication stemming from hurt and assumptions being made without talking things through. I get rusted-out old heaps of junk back on the road, I turn scars into art. Maybe I get once-broken cowgirls back on the horse. Overall though, I totally loved it! You were in dire need to get laid by someone who knew how to do it right. And the right guy was about to walk into the bar as well as back into your life. Then again, you cannot deny that you are incredibly intrigued by Ghost even though you know that you two have nothing in common. Well, were you ever wrong, Macy. A rather huge man and very solidly built. A sexilicious specimen of a male miracle. Oh my, you are such a wonderful and memorable hero. Thank you, thank you! Why do house windows fog up, Seth? You were trying to make her feel better again, and you wanted the confident woman back. Good luck then, Seth! As a matter of fact, when you hooked up again you two set the rules. Just a little bit of fun, no strings attached at all. As it was, you were very eager to live up to her expectations and I was so happy to see you guys together. Mmmmâ€“Seth, you did amazing things to Macy. Wow, what a stunning blur of passion! The sex between you and Macy was darn hot. If you want it, you have to ask me nicely. Honestly, I adored to see your vulnerable side. Well, and then wonders never cease, right? Which true bad boy would act like a wonderful gentleman, doing lovely things like holding a car door open for his queen of hearts? Helping her into her jacket etc.? Baba was oh-so pleasantly surprised, I give you that. Seth, I was so sorry when view spoiler [your Nana died. Your pain was palpable and I really hurt for you. Oh yes, she gave you good advice, Seth. Your Nana was so right when she told you to chase after Macy. Can you explain that please? Without a doubt I was so relieved when you put her pieces back together. Seth, have you seen Macy lately? Macy, where are you? Are you hiding in your dark corner? Come on over hereâ€“yeah, good girl. You thought that the accident took away your identity. It made you afraid. But there is a time when you have to make a decision. Will you continue to be afraid of living your life or will you take up a dare? Do the right thing, Mace, and throw caution to the wind! They fell kinda flat and were too anticlimactic for my liking. Do you think a weepy and weak heroine with too much hang-ups is flattering or attractive? And remember, things are not always as they seem. Love brings people together but trust is what is keeping them together. That said, you cannot live a healthy and loving relationship without trust. What about

your preconceived notions, huh? I know that you gave Seth the power to destroy you, however, you simply have to trust him not to do it. In fact, you did not act very wisely, Mace. In the end though, you two dealt with your problems. I wish you two a life full of love and trust. Take care, my lovelies. I missed your epilogue. Just you and me. It will contain gushing, a lot of it. Cherrie Lynn books just do that to me. He was part of a world so separate from her own it would be impossible to bridge the chasm between them. Macy and Ghost aka. Seth are that couple. Cherrie Lynn in Leave me Breathless gives us a couple so off the charts opposite. And it was beautiful. We meet both our hero and heroine in the previous story in this series, Rock Me. While it was nice to see Brian and Candace again and catch up with them, Seth and Macy had my whole attention. I loved their banter, I loved their chemistry and I loved how utterly sweet and swoon-worthy Ghost ended up being! Ghost has a past and a lot of scars from what he has gone through, a lot of vulnerabilities, and so does Macy. The fact is that these two see that in each other and help the other move past some of their past hurts and hang-ups. I need to mention that Cherrie Lynn should put a warning label on the cover of Leave me Breathless. It should indicate that this book is filled with explosive chemistry and hot, hot, hot sex! I was sitting uncomfortably in my chair for most of the book. You have been warned! If you have not read any of the books in this series, what the hell are you waiting for! They are pure awesome.

Chapter 8 : Book Review - Leave Me Breathless by Cherrie Lynn - Maryse's Book Blog

DAYUM! This book will make you pant, it will make you sweat, it will give you palpitations and it will make you want to immerse your head into a bucket of ice. If you have any known medical conditions, I would definitely suggest consulting a doctor before meeting .

Macy Rodgers sipped her Dos Equis and mused that plenty of people would argue with that statement. People happy in their carefree singlehood. And that was fine. Her two best friends, Candace and Samantha, cackled over the noise in the too loud, too warm bar. Apparently, some joke had passed between them while Macy had been pondering bolting for the door to spend the night at her apartment in blessed solitude watching Bridesmaids for the five hundredth time. She did enjoy seeing the girls, though. Candace and Sam had been all aflutter about something when they dragged Macy out of work earlier, and now not a word about whatever was in store had been mentioned since. Her friends exchanged glances and furtive grins. They were about to embarrass the crap out of her somehow. Candace checked her cell phone, tapped out a text and then slipped it back into her purse. Macy slapped her hands on the tabletop. What the hell could it be? Surely not in here. And surely her friends knew better than to cook anything up between her and Jared. Maybe they bought me a male escort. The girls might have grown as tired of her aching dry spell as she was. A man thrown into the mix might very well cause her to snap. Then there were days like these that made her look around and feel like a colossal failure for not having achieved what her best friends had: She tried not to dwell on it. Given the funk she was in, the last thing she needed was to start thinking about him. With Candace, of all people. But her once straight-and-narrow best friend now sported three tattoos, a belly ring, hot pink streaks in her blonde hair and who knew what else. All thanks to her tattoo-parlor-owning boyfriend, Brian Ross. But if they were talking piercings, then everything must be hunky-dory in their world. Sam gave a quasi-orgasmic little shudder. I might think about doing it too. The sun came up in the morning because Brian said it should. Why even do something if it scares you so much?

Chapter 9 : Breathless | Cherrie Lynn | | NetGalley

Leave Me Breathless is an exact example of me purchasing a book due to a Twitter buzz. Not by the author mind you but rather by the excitement from fellow book bloggers praising this story. That always captures my attention way more than an author plug so I bought it ASAP.
