

Chapter 1 : Inspirational Books That Will Actually Change Your Life - The Everygirl

*Lifes Little Inspiration Book [Margaret Fishback Powers] on blog.quintoapp.com *FREE* shipping on qualifying offers. This slight volume contains tremendous, inspirational wisdom by the author of the beloved poem Footprints.*

Custom designed acrylic and timber cake toppers 2 When and how Glistening Occasions come about?: Glistening Occasions really had such an organic start. I got married in August of and always being an arty person I decided I wanted to create my cake toppers, cake and knife servers, ring box, Lolly table signs, the list goes on but these were all encrusted in crystals. A couple of our wedding guests said they would like me to make some items for their special occasions so as soon as I got home from our honeymoon I created a Facebook page and Glistening Occasions was born! Cake topper by Glistening Occasions. Cake by Sweet Bakes 3 How has your business evolved over the years?: Glistening Occasions has evolved in many ways over the past few years. The major ones I would say were: The busier I started to get the less time I had as at this stage I was still working full time and I was spending hours sticking tiny crystals on each cake topper so by removing this option I then had the ability to take on more work. Whilst it was a huge investment and a scary step at the time it was the best decision ever made as I could then afford to show off what I can really do as before the outsourcing was costing a small fortune that I could only order toppers when I got the orders booked in rather than just have a play when an idea sprang to mind. My business then started growing quicker than I could keep up, I was staying up all night then going to my full time job the next day. I decided to follow my heart and see where I could take Glistening Occasions so I quit my job to make the business my full time job. I worked full time as a Graphic Designer on the Gold Coast for an advertising company. Whilst I have been absolutely blessed to have created cake toppers for some well known celebrities the fact that I am self made and have grown my business to the level it is at today is by far my proudest achievement. I love that even though I work many more hours now than I did when being employed by someone else I wake up each morning excited for the jobs ahead. I think it helps that every single order is different, it is never repetitive and I also love my work space. I have my own studio down the back of our block fitted out with baby pink, mint green and gold with too many cake stands with a cake topper on each and sometimes I sit back, look at the toppers on display and smile at the thought that I made that! Frozen cake topper â€” Glistening Occasions 7 What is one thing you would like to achieve in for your business? I would also love to invest in another laser cutter, a big bopper so that I can expand my range and capabilities even further! Find your spot in the market, be original and stick with it. Owning your own business is hard work but if you really love what you do then you will make it work even if it is just on a small scale because that joy you feel doing something you really love is worth it. If there comes a day when cake toppers are no longer fashionable then I will certainly still be making them for my family and friends so that I can always feel that little bit of happiness each time I create something. Eiffel tower cake topper â€” Glistening Occasions Thanks so much Kyrie for sharing your advice and experience with all of us today!
