Chapter 2 : China Multifunctional Network Cable Tester (NS) - China Cable, Tester

Cable Tester NS Safety instructions Do not use the cable tester NS if it is damaged. ⚠️ ⚠️ This device is only for use inside dry and clean rooms. This device must be protected from moisture, splash water and impact of heat.

Unconnect both ends of cable being tested from any electronic device, hub, computer, phone jack, or phone. DO NOT attempt to test cable while still connected to any device. Short circuit to device or tester may occur. Not responsible for damages that incur if cables are left in connected position while trying to test cables. DO NOT test cables while trying to crimp new cable ends on cables. Doing so will short circuit tester through the crimp die tooling. This will damage the cable tester. Tester will test each pin sequentially. Green LED will illuminate for patch cables starting at pin 1 and ending at pin 8. Pin G will not illuminate for RJ45 cables. If an LED does not light up, pin connection is bad. If LED lights up in wrong order, I. Pin 1 and Pin 6 are not connected. When testing RJ11 phone cables: Green LED will illuminate for phone cables starting at pin 1 and ending at pin 8. Pin 2, Pin 3, Pin 4, Pin 5. Pin 1, 6, 7, 8, G will not illuminate for RJ11 cables. Pin 2, Pin 4, Pin 3, Pin 5, this would indicate a crossed connection at Pin 3 and 4. When testing RJ12 phone cables: Pin 7, 8, G will not illuminate for RJ12 cables.

Chapter 3 : INNCT-NSX (NS Multi-Function network Cable Tester) : ingellen

⚠️ Do not use the cable tester NS if it is damaged. ⚠️ This device is only for use inside dry and clean rooms. Cable tester manual of doc.

Chapter 4 : EQUIP NS USER MANUAL Pdf Download.

The NS is a cable tester for checking LAN network cables. It is a 2-in-1 multi-testing tool capable of testing network and phone cables. It has sockets for testing RJ11 and RJ45 modular jack connections and tests for the TB and TA wiring schemes.
