

*Mauricio has been writing for 11 years and is deeply into movies, sports and anything funny. Hours after rock legend Ozzy Osbourne announced his final tour, the iconic frontman revealed the reason.*

They renamed themselves Earth, but after being accidentally booked for a show instead of a different band with the same name, they decided to change their name again. They finally settled on the name Black Sabbath in August, based on the film of the same name. Butler told Osbourne about it and together they wrote the lyrics to "Black Sabbath", their first song in a darker vein. Records, Black Sabbath met with swift and enduring success. Just five months after the release of *Paranoid* the band released *Master of Reality*. The album reached the top ten in both the United States and UK, and was certified gold in less than two months. Critics were again dismissive of the album, yet it achieved gold status in less than a month. For the first time, the band received favourable reviews in the mainstream press. Gordon Fletcher of *Rolling Stone* called the album "an extraordinarily gripping affair", and "nothing less than a complete success". Again there were favourable reviews. *AllMusic* gives the album two stars, and notes that the band was "unravelling at an alarming rate". At the request of the other members, Osbourne rejoined Sabbath. In, back in the studio, tensions and conflict between band members were continually present. Osbourne recalls being asked to record his vocals over and over, and tracks being manipulated endlessly by Iommi. Osbourne claims his drug use and alcohol consumption at that time was not better nor worse than that of the other band members. When Iommi saw Osbourne emerge from another room of the house, he left upon discovering it was the same "pest" he knew from growing up, as he knew of and disliked Osbourne from back in their school days. Iommi pulled Osbourne off Butler in an attempt to break up the drunken fight, and the vocalist proceeded to turn around and take a wild swing at him. Iommi responded by knocking Osbourne unconscious with one punch to the jaw. If drummers were trying out, I played guitar, and if a bassist came along, my drummer would help out. We felt sorry for him, basically. Co-written with Daisley and Rhoads, the album brought Osbourne considerable success on his first solo effort. Though it is generally accepted that Osbourne and Rhoads started the band, bassist Daisley later claimed that he and Osbourne formed the band in England before Rhoads officially joined. For his work on this album and *Blizzard of Ozz*, Rhoads [17] was ranked the 85th-greatest guitarist of all time by *Rolling Stone* magazine in. The left wing of the aircraft clipped the bus, causing the plane to graze a tree and crash into the garage of a nearby mansion, killing Rhoads, Aycocock, and Youngblood. The crash was ruled the result of "poor judgement by the pilot in buzzing the bus and misjudging clearance of obstacles". The tour was cancelled for two weeks while Osbourne, Sharon, and Aldridge returned to Los Angeles to take stock while Sarzo remained in Florida with family. After a handful of shows he informed Sharon that he would be returning to England to continue work on a solo album he had begun before coming to America. A live tribute album for Rhoads was also later released. Under contract to produce a live album, it ended up consisting entirely of Sabbath covers recorded with Gillis, Sarzo and Tommy Aldridge. The album contains the fan favourite "Bark at the Moon". Within weeks the album became certified gold. It has sold three million copies in the US. Lee and Osbourne parted ways in. Osbourne continued to struggle with chemical dependency. The *Metal Years* and told the director Penelope Spheeris that "sobriety fucking sucks". Meanwhile, Osbourne found Zakk Wylde, who was the most enduring replacement for Rhoads to date. The subsequent tour saw Osbourne reunited with erstwhile Black Sabbath bandmate Geezer Butler on bass. The album enjoyed much radio and MTV exposure. The album was mixed by veteran rock producer Michael Wagener. At this point Osbourne expressed his fatigue with touring, and proclaimed his "retirement tour" which was to be short-lived. In Osbourne released *Ozzmosis* and returned to touring, dubbing his concert performances "The Retirement Sucks Tour". Keyboards were played by Rick Wakeman and producer Michael Beinhorn. The tour maintained Butler and Castronovo and saw Sinclair return, but a major line-up change was the introduction of former David Lee Roth guitarist Joe Holmes. In early, Butler and Castronovo left. A greatest hits package, *The Ozzman Cometh*, was issued in. *Ozzfest* was an instant hit with metal fans, helping many up-and-coming groups who were featured there to broad exposure and commercial success. Osbourne reunited with the

original members of Sabbath in and has performed periodically with them since. The festival helped promote many new hard rock and heavy metal acts of the late s and early s. Shortly after Ozzfest , Osbourne announced that he will no longer headline Ozzfest. Although he announced his retirement from Ozzfest, Osbourne came back headlining the tour. In Osbourne closed the event for just over half the concerts, leaving the others to be closed by System of a Down. After the concert in Bristol, Virginia , Osbourne announced he would return for another year of Ozzfest in Tickets for the tour were offered to fans free of charge, which led to some controversy. In , Ozzfest was reduced to a one-day event in Dallas , where Osbourne played, along with Metallica and King Diamond. The tour, though small only six US venues and one UK venue were played , generated rave reviews. A live version filmed in Japan, Live at Budokan , followed. Down to Earth went gold in , and platinum in Both Newsted and Osbourne were enthusiastic about recording an album together. On 8 December , Osbourne was rushed into emergency surgery at Wexham Park Hospital in Slough , England when he had an accident with his quad bike on his estate in Jordans, Buckinghamshire. While in hospital, Osbourne achieved his first ever UK number one single, a duet of the Black Sabbath ballad, " Changes " with daughter Kelly. The first and second discs are collections of live performances, B-sides , demos and singles. The third disc contained duets and other odd tracks with other artists, including " Born to Be Wild " with Miss Piggy. The fourth disc, is entirely new material where Osbourne covers his favourite songs by his biggest influences and favourite bands, including the Beatles , John Lennon , David Bowie and others. But you know what? Osbourne revealed in July that he was currently seeking a new guitar player. While he states that he has not fallen out with Zakk Wylde , he said he felt his songs were beginning to sound like Black Label Society and fancied a change. In respect of fan opinion, on 29 March Osbourne announced his album would be renamed *Scream*. The song spent 8 weeks on the Billboard Rock Songs, peaking at No. The first four hundred fans that arrived at the store earlier in the day were given wrist bands, enabling free access to the show.
