

Chapter 1 : Primitive Forest Rigid Core - Falcon: A

At Practical Primitive, our commitment is to providing you with the practical means for you to master and integrate the knowledge of our shared ancestry into your modern life. "Distance is the Enemy of Awareness".

Description This innovative edited collection charts the rise, fall and possible futures of the word primitive. Since the almost legendary s conference on the Primitive, with the advent of post-modernism and, in particular, post-colonialism, the word has fallen from favour in many disciplines. Despite this, architects continue to use the word to mythologize and reify the practice of simplicity. Structured around five sections, Negotiating Origins; Urban Myths; Questioning Colonial Constructs; Making Marks; and Primitive Futures, the essays highlight the problematic nature of ideas of the primitive, engage with contemporary debate in the field of post colonialism and respond to a burgeoning interest in the non-expert architecture. This now controversial subject remains, for better or worse, intrinsic to the very structure of Modernism and deeply embedded in architectural theory. Considering a broad range of approaches, this book provides a rounded past, present and future of the word primitive in the architectural sphere. Table of Contents Part I: The Primitive as Modern Problem: Invention and Crisis Dalibor Vesely 3. Questioning Colonial Constructs 7. Practically Primitive David Leatherbarrow Giants and Columns Nick Temple The Modern Day Primitive Hut? The Primitive and the Everyday: Air of Comfort Helen Mallinson From which Construction Begins Peter Salter United Cultures of Britain C. She previously worked in architectural practice for 15 years. She is currently working on the architecture and writings of John Wood of Bath in relation to the tradition of Occult Philosophy. Her next project with Flora Samuel is a book entitled Facades. Co-author, with Sarah Menin, of Nature and Space: Aalto and Le Corbusier and author of Le Corbusier: She has a particular interest in the narratives implicit within the construction of buildings and was one of the original initiators of the Primitive conference from which this book has evolved.
