Chapter 1 : Quantum Magnetic Resonance Analyzer for Network Amway

Quantum Resonance Magnetic Analyzer--Instructions (4) If the report as shown in the last picture, the report can be shown in a full page and printed, and you can write out a prescription.

Top of the Line Quantum Bio-electric System Now with 31 Reports The human body is a collection of a large number of cells, cells in continuous growth, development, differentiation, regeneration, apoptosis, cell division through its own continuously self-renew. The electromagnetic signals emitted by the human body represents a specific state of the human body, human health, sub-health and disease, under different conditions, the emitted electromagnetic signals are different, if they can determine out of these specific electromagnetic wave signal, we can determine the life of the human body??. Health indication in one Minute the with Hi-Tech Quantum Analyzer Download the manual PDF format Principle of Analysis Human body is an aggregate of numerous cells, which continuously grow develop, split, regenerate and die. By splitting up, cells renew themselves. For adult people, about 25 million cells are splitting up every second and blood cells are constantly renewing at a rate of about million per minute. In the process of cellular split-up and renewal, the charged bodies of nucleus and extranuclear electrons as the basis unit of a cell are moving and changing ceaselessly at a high speed as well, emitting electromagnetic waves without interruption. The signals of electromagnetic waves emitted by human bodies represent the specific condition of human body and therefore, different signals of electromagnetic waves will be emitted by the conditions of good health, sub-health, diseases, etc. The conditions of life can be analyzed if such specific electromagnetic wave signals can be analyzed. Sensitive instruments have been developed that can detect the minute energy fields around the human body. Of particular importance is the SQUID magnetometer 1 which is capable of detecting tiny biomagnetic fields associated with physiological activities in the body. The quantum resonant magnetic analyzer is a new instrument to analyze such phenomenon. The weak magnetic frequency and energy of human body are collected by holding the sensor, and after amplification by the instrument and treatment by the built-in micro-processor, the data are compared with the standard quantum resonant spectrum of diseases, nutrition and other indicators incorporated in the instrument to judge whether the sample waveforms are irregular using the Fourier approach. Software Clip Watch the Video about the Software. Quantum physics describes laws of energy at the quantum level a "quanta" or discrete particle can be a molecule, atom, nucleus, or micro particle. Discoveries in quantum physics micro world are helping us to understand the phenomena of our macro world. The MRA is able to measure, for the first time, quanta in micro levels smaller than molecules. Emoto to discover why diseases occur. Emoto, Hado is a vibrational frequency, resonance wave -- it is the source of energy behind the creation of all things. Hado is the specific vibrating wave generated by the electrons orbiting the nucleus of an atom. A field of magnetic resonance is always present wherever Hado exists. Thus, Hado can be interpreted as the magnetic resonance field itself, which is one type of electromagnetic wave. MRA measures the magnetic resonance of Hado. From his research with MRA, Dr. Emoto concluded that, "all things lie within your own consciousness. Analysis Items The method of quantum resonant magnetic analysis is an emerging rapid, accurate and non-invasive spectral testing method and particularly suitable for comparison of curative effects medicine and health products, and check of sub-health conditions. The main analysis items are over 30, including cardiovascular and cerebrovascular condition, bone mineral density, trace elements, blood lead, rheumatism, lung and respiratory tract, nephropathy, blood sugar, stomach and intestines, liver and gall, cranial nerves, gynecology, prostate, bone disease, the trace elements of selenium, iron, zinc and calcium, etc.

Chapter 2 : Quantum Magnetic Resonance -4ta Generation

Dear friends,if you have the quantum resonance magnetic analyzer, but you didn't have the manual,so you may want to have the quantum magnetic resonance analyzer blog.quintoapp.com,if you really want,you can directly contact us.

In the process of cell division and growth, those charged bodies of atomic nucleuses constituting atoms as the basic unit of cell and the electrons outside the nucleus are in constant high-speed movement and changing, thereby constantly emitting electromagnetic waves. The electromagnetic wave signals emitted by the human body represent the specific state of the human body, and the emitted electromagnetic wave signals are different under the different conditions of the human body, such as health, sub-health, disease, etc. Quantum medicine considers that the most fundamental reason of falling sick is that the spin of electrons outside the atomic nucleus and the orbit change, thereby causing the change of atoms constituting a material, the change of small biomolecules, the change of big biomolecules, the change of all the cells and finally the change of organs. Because the electron is a charged body, when the spin of electrons outside the atomic nucleus and the orbit change, the electromagnetic wave emitted by the atoms will change. The frequency and energy of the weak magnetic field of hair determined directly or by holding a sensor by hand compare with the resonance spectra of standard quantum of diseases and nutrition indicators set in the instrument after the frequency and energy are amplified by the instrument and processed by the computer, and then the corresponding quantum value being from negative to positive is output. The size of the quantum value indicates the nature and extent of the disease and the nutrition levels. Finally, the test results are resolved by clinicians. For example, cancer cells are different from normal cells, and the electromagnetic waves emitted by cancer cells are also different from the electromagnetic waves emitted by normal cells. Quantum resonance testing tumor is to send the standard wave of cancer cells to the specimen. If there are cancer cells in the human body, resonance will occur, and the instrument will detect the signal. The more the number of cancer cells is, the more intense the signal is, and the quantum value tends to the negative value. If there are no cancer cells, resonance will do not occur, and the quantum value tends to the positive value. There are many radio waves in the air. If you want to listen to some designated broadcasting, you can transfer the radio to the corresponding frequency, at this moment, resonance occurs, so that you can listen to this broadcasting. Quantum resonance uses this principle for testing. New test interface instructions more clearly, scientific and precise. All report can be saved as a document by one time, send by email or skype is ok. Increased the comparative analysis report, the results can be compared clearly. Amway products added to professional version, standard version expert advice can be edited. Report display way upgraded, much convinient and easy to understand. The parameters and reference standards of report can be controlled, it is free 8. Each device offer unique encryption key ID, enjoy lifetime free upgrade and software services.

Chapter 3 : Quantum Resonance Magnetic Analyzers - Quantum AE Health Analyzer Wholesale Trader from

quantum magnetic resonance analyzer-The human body is the aggregates of a large number of cells which are in continuous growth, development, differentiation, regeneration and apoptosis, and the cells constantly self-renew through its own division. 25 million cells are divided at one second in an adult's body, and the body's blood cells constantly renew at the rate of about million per.

The early detection will make for early treatment. Users can master the detecting techniques after a short-term training. This will save time for patients. They May Be Counterfeit. Please Do Not Contact Us. Invented in China by a team of medical and computer experts, the Magnetic Health Analyzer was developed based on the study of a hundred million clinical cases over a period of many years. Whatever conventional testing method used, blood analysis or radiography, may take one, two, or as long as three weeks to get results. This can create depression and additional anxiety in anticipating the unknown. The hi-tech QMRA scans the body and will produce health reports in just 2 minutes. A Diagnostic Support Tool You Cannot Afford To Be Without Since we established Essentials Of Life, in , we have seen health care costs skyrocket and the tremendous financial burden those costs have placed on both the insured and the uninsured, that have to pay out-of-pocket. The major factor in driving these healthcare costs has been the multi-million dollar equipment used in conventional diagnostic testing and the costs of processing and analyzing the test results. Imagine the costs your clients would have to incur with conventional diagnostic testing blood tests, CT scans or MRIs compared to the low price you can charge for this service? In addition, many of the findings produced by the analyzer cannot be detected by conventional testing. Using the analyzer in your practice will help you detect health changes before obvious symptoms and signs of disease appear. Using the analysis as a guide, will help you put your clients health on the right track. The Quantum Magnetic Health Analyzer produces up to 47 health reports for analysis. An emerging rapid, accurate and non-invasive spectral testing method, particularly suitable for comparison of curative effects of medicine and health products, and checking of sub-health conditions. We have added more comparative analysis function. The situation of health is different during different periods. The newest analyzer will help you compare the current state of health with the previous testing analysis. What is quantum body scan? We are quantum analyzer quantum analyzer machine quantum analyzer machine price quantum resonance magnetic analyzer,supplier in us. Welcome to inquiry and OEM. Have any question, Please enter the form below and click the submit button.

Chapter 4 : How do you get the quantum resonance magnetic analyzer manual?

Features Of The Quantum Magnetic Resonance Analyzer â€¢ Professional - Based on the study on a hundred million clinical cases for many years, a number of medical and computer experts invented quantum health monitor.

Interfering speed of 1 MHz Electrode or Bioinductor is non-invasive. A high-quality black case or bag with a zipper closure. USB key for the machine to work. The silver electrode or Bioinductor. USB cable to connect to the PC. Installation CD according to the language you prefer and also from Amway if you ask for it. You will have a one year warranty based on what we have established in this regard. It allows you to edit your own tips and those of the expert according to your experience, you can also recommend your own supplements. All the reports obtained can be printed or sent by email, since the format in which they are obtained is in PDF. It will make an assessment of your health in just 60 seconds. Dual Core processor to obtain reports or results. Compatible with Windows from XP to 10, also 32 or 64 Bits. It is not compatible with Linux or MAC. It is configurable so that it can be used by several people. The first thing is to ask the seller if you will receive future updates of the software and that it will be in writing as a guarantee. If the USB key is encrypted? This is one of the most important issues when buying a Quantum, if the USB key that comes with your machine is not encrypted, surely you risk buying something false. What warranty time does it offer? At least the seller must give you 3 months warranty, or some guarantee of what you are selling. Ask what the warranty includes and if you can return it if you can not update it to a higher version than the one you purchased. Ask this always, press the seller a little and when I comment, immediately ask when you can upgrade to a superior, and how you will know it once you have left. What guarantee you will get in return. Those who wear pacemakers are not appropriate for testing. During work, inspect whether the power supply and the testing system are in a good using condition. In the testing process, the operational regulation must be strictly observed. Out of work, cut off the power supply and clear up the used equipment and the tester to make them be in a good standby condition. Important Notice for the Tested Person Should not drink wine and coffee, not eat health products and try not to take medicine two days before testing. Keep regular life and normal sleep two days before testing. After intense activity, have a rest hours before testing. Testing should be carried out in semi-fasting. Keep loose and warm clothing. Remove the metal articles and communication equipment on the body before testing. Relax the feeling, not speak and keep steady breathing during testing. After the test, you can get 16 health reports. Our therapy device can detect changes in health before obvious symptoms and signs of illness appear. Early detection will make the treatment early. Users can master detection techniques after a short-term training. This will save patients time. According to test reports, users can obtain information on health status and prescription. Our quantum diagnostic device is widely used in beauty salon, SPA club, clinics, health exam center, health care products store, direct sale to the distributor of health products , massage center, health center, etc. It can also be used to promote healthy foods and nutritional supplements. Family use is also available Reviews There are no reviews yet.

Chapter 5 : Free download quantum resonance magnetic analyzer software

Quantum Resonance Magnetic Body Health Analyzer Houston Holistic Health Clinic The Quantum Resonance Magnetic Body Health Analyzer is a new instrument to assess.

Chapter 6 : Amazing New Quantum Analyzers

The Quantum Magnetic Resonance Analyzer is an individual guide to the care and consultation of the state of health of the entire human body of advanced health science. With the advantage of being complete non-invasive, practical, simple, fast with the depth of the development of scientific research, this makes a great contribution for the cause.
