The database has over , public release records. Energy Research Abstracts This indexing and abstracting service covers all areas of energy-related information produced by the DOE and other U. The index will note the location of the article. Nuclear Science Abstracts Includes technical reports of the U. Atomic Energy Commission, U. Energy Research and Development Administration and its contractors, other agencies, universities, and industrial and research organizations. The cumulative indexes allow you to check multiple years and will give updated information on a report. Continued in part by Energy Research Abstracts. American and British atomic energy reports: A list of reports on atomic energy released by the Office of Technical Services. This collection may include documents that are no longer available in print form. EPA Cumulative Bibliography Contains bibliographic citations, abstracts, and indexes for reports generated by EPA and its predecessor agencies and entered into the NTIS collection through The six indexes are: EPA Publications Bibliography This volume contains all the indexes of the original 7-year culmination, plus a Sponsoring EPA Office index. Contains the same indexes as the previous volume current: The fourth issue of each volume contains abstracts for that quarter plus complete cumulated indexes for that year. For reports published prior to that were distributed to federal depository libraries or cited in the U. EPA reports are sometimes sent to federal depository libraries in both paper and microfiche formats. The index indicates the format s and whether the SuDocs number varies as to format. Searches are limited to qualified Georgia Tech researchers with the proper security clearances. For further information contact Bette Finn , Comprehensive index to historical information published by the United States federal government between Jan and June Contains selected technical reports. The period from to is the most heavily represented, although older reports dating from are available. Selected electronic and print technical reports are listed in the Catalog. Check the NTIS database record for an alternative source. Occasionally an alternative paper source, such as a journal article or conference proceeding will be specified in NTIS. If such a source is listed, the Catalog should be searched to determine availability.
