## Chapter 1 : Robert Anderson (Civil War) - Wikipedia

*Get this from a library! Reprints of Littell's Political transactions in and concerning Kentucky: and letter of George Nicholas to his friend in Virginia ; also General Wilkinson's Memorial.*

Battle of Fort Sumter Maj. He moved his small garrison from Fort Moultrie , which was indefensible, to the more modern, more defensible, Fort Sumter in the middle of Charleston Harbor. In February the Confederate States of America was formed and took charge. Jefferson Davis, the Confederate President, ordered the fort be captured. The artillery attack was commanded by Brig. The attack began April 12, , and continued until Anderson, badly outnumbered and outgunned, surrendered the fort on April The battle began the American Civil War. No one was killed in the battle on either side, but one Union soldier was killed and one mortally wounded during a gun salute. In , recognition of his heroism, Anderson was elected an honorary member of the New York Society of the Cincinnati. Holzer states that New York City: Composers dedicated songs like "Our Countries Flag" to President Lincoln, and adorned their published sheet music with colorful images of resolute soldiers gripping the national banner. Goodheart explains the flag was transformed into a sacred symbol of patriotism: Before that day, the flag had served mostly as a military ensign or a convenient marking of American territory Suddenly the Stars and Stripes flew The abstraction of the Union cause was transfigured into a physical thing: His next assignment placed him in another sensitive political position, commander of the Department of Kentucky subsequently renamed the Department of the Cumberland , in a border state that had officially declared neutrality between the warring parties. He served in that position from May 28, Historians commonly attribute failing health as the reason for his relinquishment of command to Brig. Sherman , on October 7, Anderson, Speed wrote to Lincoln on October 8, "seemed grieved that [he] had to surrender his command Anderson officially retired from the Army on October 27, , "for Disability resulting from Long and Faithful Service, and Wounds and Disease contracted in the Line of Duty", but continued to serve on the staff of the general commanding the Eastern Department, headquartered in New York City, from October 27, until January 22, Later life[ edit ] Major Robert Anderson is honored with his likeness inscribed in a monument atop Fort Sumter in Charleston harbor. Then, four years after lowering the star flag in surrender, Major General Anderson raised it in triumph over the recaptured but badly battered Fort Sumter. In , he discussed the future of the U. He was later interred at West Point Cemetery. A zealous Catholic and Confederate sympathizer, he briefly moved to Mexico during the reign of Emperor Maximilian in hopes of establishing a Confederate colony there. Robert Anderson married Eliza Bayard Clinch " with whom he had five children: Marie " , Sophie " , Eliza, Robert Jr. Allegedly, the doctor who delivered Ethel Anderson Clift told her when she was an adult that she was the illegitimate daughter of Maria Anderson and Woodbury Blair, but no documentation exists to verify the relationship.

The platform included promoting the decriminalization of drugs for personal use only, not trafficking, as he disapproved of profiteering, tearing up the streets and turning them into grassy pedestrian malls, banning any building so tall as to obscure the view of the mountains, disarming all police forces, and renaming Aspen "Fat City" to deter investors. Thompson Candidate for Sheriff. The Republican candidate agreed to withdraw a few days before the election in order to consolidate the anti-Thompson votes, in return for the Democrats withdrawing their candidate for county commissioner. Thompson later remarked that the Rolling Stone article mobilized his opposition far more than his supporters. For that article, editor Warren Hinckle paired Thompson with illustrator Ralph Steadman, who drew expressionist illustrations with lipstick and eyeliner. Thompson and Steadman collaborated regularly after that. Although it was not widely read, the article was the first to use the techniques of Gonzo journalism, a style Thompson would later employ in almost every literary endeavor. The manic first-person subjectivity of the story was reportedly the result of sheer desperation; he was facing a looming deadline and started sending the magazine pages ripped out of his notebook. Cardoso first met Thompson on a bus full of journalists covering the New Hampshire primary. If this is a start, keep rolling. Horatio Alger gone mad on drugs in Las Vegas. Finding it difficult to talk in the racially tense atmosphere of Los Angeles, Thompson and Acosta decided to travel to Las Vegas, and take advantage of an assignment by Sports Illustrated to write a word photograph caption on the Mint motorcycle race held there. What was to be a short caption quickly grew into something else entirely. Thompson first submitted to Sports Illustrated a manuscript of 2, words, which was, as he later wrote, "aggressively rejected. It is written as a first-person account by a journalist named Raoul Duke on a trip to Las Vegas with Dr. During the trip, Duke and his companion always referred to as "my attorney" become sidetracked by a search for the American Dream, with "two bags of grass, seventy-five pellets of mescaline, five sheets of high-powered blotter acid, a salt shaker half full of cocaine, and a whole galaxy of multi-colored uppers, downers, screamers, laughers Thompson was an early supporter of McGovern and wrote unflattering coverage of the rival campaigns in the increasingly widely read Rolling Stone. Thompson went on to become a fierce critic of Nixon, both during and after his presidency. He was a swine of a man and a jabbering dupe of a president. He missed the match while intoxicated at his hotel, and did not submit a story to the magazine. As Wenner put it to the film critic Roger Ebert in the documentary Gonzo: The Life and Work of Dr. Thompson arrived in Saigon just as South Vietnam was collapsing and as other journalists were leaving the country. Again, Wenner pulled the plug on the project. Beginning with The Great Shark Hunt in and ending with Better Than Sex in, the series is largely a collection of rare newspaper and magazine pieces from the pre-gonzo period, along with almost all of his Rolling Stone pieces. Starting in about, Thompson became more reclusive. He would often retreat to his compound in Woody Creek, rejecting projects assignments or failing to complete them. Despite a lack of new material, Wenner kept Thompson on the Rolling Stone masthead as chief of the "National Affairs Desk", a position he would hold until his death. In Thompson divorced wife Sandra Conklin. Extensively illustrated by Ralph Steadman, the piece first appeared in Running magazine in as "The Charge of the Weird Brigade" and was excerpted in Playboy. In Thompson accepted an advance to write about "couples pornography" for Playboy. The experience evolved into an as-yet-unpublished novel tentatively entitled The Night Manager. Thompson next accepted a role as weekly media columnist and critic for The San Francisco Examiner. The position was arranged by former editor and fellow Examiner columnist Warren Hinckle. The next week it would be incisive political analysis of the highest order. Songs of the Doomed: More Notes on the Death of the American Dream, a collection of autobiographical reminiscences, articles and previously unpublished material. It was briefly excerpted in Rolling Stone in, and Thompson himself described it as "He falls in love

and gets in even more trouble than he was in the sex theater in San Francisco ". Thompson continued to publish irregularly in Rolling Stone, ultimately contributing 17 pieces to the magazine between and Rather than traveling the campaign trail as he had done in previous presidential elections, Thompson monitored the proceedings on cable television; Better Than Sex: Confessions of a Political Junkie, his account of the presidential campaign, is composed of reactive faxes to Rolling Stone. Fear and Loathing, Campaign ", a brief account of the presidential election in which he compared the outcome of the Bush v. Gore court case to the Reichstag fire and formally endorsed Senator John Kerry , a longtime friend, for president. The same year, an early novel The Rum Diary was published, as were the two volumes of collected letters. Thompson finished his journalism career in the same way it had begun: From until his death in , he wrote a weekly column for ESPN. Thompson married assistant Anita Bejmuk on April 23, Death[ edit ] At 5: His son Juan, daughter-in-law Jennifer, and grandson were visiting for the weekend. His wife Anita, who was at the Aspen Club, was on the phone with him as he cocked the gun. Anita said she mistook the cocking of the gun for the sound of his typewriter keys and hung up as he fired. Will and Jennifer were in the next room when they heard the gunshot, but mistook the sound for a book falling and did not check on Thompson immediately. He was also upset over his advancing age and chronic medical problems, including a hip replacement; he would frequently mutter "This kid is getting old. That is 17 years past I am always bitchy. You are getting Greedy. I think that the truth of what rings through all his writing is that he meant what he said. He could never stand being bored. The plans for the monument were initially drawn by Thompson and Steadman, and were shown as part of an Omnibus program on the BBC titled Fear and Loathing in Gonzovision

Its primary mission is to support the curriculum and the research needs of the faculty and the students of the University of Louisville Louis D. Brandeis School of Law. However, as part of an historic and distinguished law school whose roots reach deeply into Kentucky legal history, the Law Library has over the years accumulated rich collections of materials of national and state legal publications, many of which date back to the foundation of the American republic. In addition, through the efforts of Louisville native Louis D. About the Collection This digital collection will draw on the varied collections of the Law Library. A major focus of the collection in the coming years will be documents from the history of the University of Louisville Brandeis School of Law. Currently the collection includes newsletters sent to and featuring alumni between and ; student publications from ; and the Senior Bulletin, which contains photographs of graduates mostly from the s to the s. Later efforts will digitize the early class composites of the school, starting with prints from the s. The materials currently included are: Born in New Jersey and raised in Pennsylvania where tradition says he studied theology and medicine, William Littell joined the migration to the Kentucky frontier, presenting himself in for admission to the Fleming County bar. Littell soon threw himself into the political turmoil of the new commonwealth. A Jeffersonian, his literary skills were enlisted by leading Democratic-Republicans in their struggle with the Federalists over their alleged involvement in the so-called Spanish Conspiracy. In a letter to the Kentucky Gazette published when he was attempting to promote the work on a private subscription basis, Littell set out his political justification for such a publication, noting that "[t]here is no principle more truly republican than that the people who are amenable to the laws should know their import. The finished work, *The Statute Law in Kentucky* , would eventually run to five volumes. While compiling this massive work, he took time to write *Principles of Law and Equity* , the first digest of Kentucky case law. He also published five volumes of reports along with a single volume of older unpublished decisions. The Constitutional convention of was far better documented than prior conclaves. Both the journal and the Report of the Debates and Proceedings of the Convention for the Revision of the Constitution of the State of Kentucky , reproduced as part of this collection, were published and distributed throughout the state, making it possible to research the intentions of the framers. The delegates were articulate and leaders in their regions, so their comments during debates are a valuable resource for understanding the concerns of Kentuckians on the brink of the civil war that would change the commonwealth forever. The driving force behind the constitutional convention was popular democracy and the reform of county government. The main outlines of Kentucky tripartite government remained, but now all three branches, including the judiciary, were directly elected. Along with its electoral reforms, the constitution is also notable for a provision later interpreted to expand state protections of civil rights. Concerns that a future governor or legislature would abolish slavery led to the addition of Section 2 to the state Bill of Rights which proclaimed that "absolute and arbitrary power over the lives, liberty and property of freemen exists nowhere in a republic, not even in the largest majority. Ireland, *The Kentucky State Constitution: A Reference Guide* Westport, Conn: The State Journal Company], Good copies of the original edition are rare because paper used has a tendency to become brittle. The Southern Historical Press published a xerographically reproduced edition in that is available in many libraries, but the reprint edition made little attempt to replicate the 88 high-quality illustrations in any detail. This collection attempts to remedy this by digitizing these illustrations. They derive from an unusually well-preserved copy of the work found in the rare books collection of the University of Louisville Law Library. Intended to "serve as a forum of issues, ideas, and information" and "foster and maintain a closer relationship between the school and the alumni," the publications provided news and updates about current and former students along with the law school and University, as well as, to a lesser extent, local, statewide, and national issues. University of

Louisville School of Law Senior Bulletins The Senior Bulletin , , served as both a yearbook for the graduating law school class as well as an introduction to new graduates for potential employers. A forerunner was printed in February , before a similar compilation was featured as a supplement to the Louisville Lawyer student newspaper between the and school years. The Bulletin once again became a separate publication in It became the Graduating Class Bulletin in , remaining so until its last printing three years later. Conditions of Use The intellectual content of the law books digitized in this collection may have passed into public domain but the specific digital files are the property of the University of Louisville School of Law and are not to be republished for commercial profit. The law student publications and the Senior Bulletins are the property of the University of Louisville Brandeis School of Law and may not be republished commercially without express permission. To inquire about reproductions, permissions, or for additional information, email lawlibrary louisville. Acknowledgments Planning for the law library collection is guided by a team of law librarians that includes Virginia Mattingly, cybrarian; Kurt X. Metzmeier, associate librarian; Marcus Walker, law library archivist and digital collections librarian; and Scott Campbell, head of technical services and curator of the Louis D. Brandeis and John Marshall Harlan collections. Each digital volume was collated against the original by Betsy Law and Kurt Metzmeier and declared complete. Metzmeier and Virginia Mattingly, assisted by Rachel I. Additional proofreading assistance was provided by Gayla M. Cissell and Jamie LaShawn Izlar. Tami Sexton edited the pagination of the files. Metzmeier scanned the images for H. Marcus Walker prepared metadata for both collections, assisted by Rachel I. Howard and Heather Fox. The metadata was created by Marcus Walker with the assistance of Rachel I.
