Stacie Johnson, Walter M. Teacher of creative writing and black history on a part-time basis in New York, NY, ; worked variously as a post-office clerk, inter-office messenger, and an interviewer at a factory. Brainstorm, photographs by Chuck Freedman, F. Watts New York, NY , Sniffy Blue, Ace Crime Detective: The Journal of Joshua Loper: The Journal of Scott Pendleton Collins: A Time to Love: Love on th St. Creator and editor of "18 Pine Street" series of young-adult novels, Bantam, beginning Twenty-five Stories by Black Americans. Now Is Your Time! A Place Called Heartbreak: One More River to Cross: The Life of Dr. Martin Luther King, Jr. Myers Where Does the Day Go? Darnell Rock Reporting was released on video in A Poem was released as a combination book and audio version in Scorpions was adapted as a sound recording in An author of African-American descent, Myers is credited with helping to redefine the image of blacks in juvenile literature through award-winning books such as The Glory Field, Monster, and Somewhere in the Darkness. During the s and s African-American writers such as Alice Childress , Lucille Clifton , Eloise Greenfield , Virginia Hamilton, and Sharon Bell Mathis sought to provide realistic storylines and well-rounded portrayals of black characters in books for younger readers. As a member of this group, Myers distinguished himself by bringing both humor and poignancy to his work, as well by creating books with special appeal to boys; in addition, he is considered the only prominent male writer of the group to have consistently published books of quality. A versatile and prolific author, Myers has written realistic and historical fiction, mysteries, adventure stories, fantasies, nonfiction, poetry, and picture books. Praised for his contributions to several genres, he is perhaps best known for his books geared for readers in middle school and high school, stories that range from farcical, lighthearted tales for preteens to powerful, moving novels for older adolescents. Myers stresses the more positive aspects of black urban life in his works; often setting his stories in his boyhood home of Harlem, he is acknowledged for depicting the strength and dignity of his characters without downplaying the harsh realities of their lives. Although he features both young men and women as protagonists, Myers is noted for his focus on young black males. His themes often include the relationship between fathers and sons as well as the search for identity and self-worth in an environment of poverty, drugs, gangs, and racism. Although his characters confront difficult issues, Myers stresses survival, pride, and hope in his works, which are filled with love and laughter and a strong sense of possibility for the future of their protagonists. Lauded for his understanding of the young, Myers is acclaimed as the creator of believable, sympathetic adolescent characters; he is also praised for creating realistic dialogue, some of which draws on rap music and other aspects of black culture. Calling Myers "a unique voice," Rudine Sims Bishop wrote in Presenting Walter Dean Myers that the author is significant "because he creates books that appeal to young adults from many cultural groups. They appeal because Myers knows and cares about the things that concern his readers and because he creates characters â€ readers are happy to spend time with. Lane noted in the African American Review that the author "celebrates children by weaving narratives of the black juvenile experience in ways that reverse the effects of mediated messages of the black experience in public cultureâ€. The Dean family moved to Harlem when Myers was about three years old. I lived in an exciting corner of the renowned Black capital and in an exciting era. The people I met there, the things I did, have left a permanent impression on me. The books began to shape new bouts of imagination. At school, he enjoyed classwork but found that a speech impediment caused him some difficulty. His fellow classmates would laugh at him and, as a result, he would fight back; consequently, he was often suspended from school. Conway also required her students to read aloud in class. In order to avoid some of the words that he had trouble speaking, she suggested that Walter write something for himself to read. After junior high, Myers attended Stuyvesant High School, a school for

boys that stressed academic achievement. Liebow also told Myers that he was a gifted writer, inspiring him to consider writing as a career. Despite this encouragement, as a teen Myers realized that writing "had no practical value for a Black child," as he recalled. Instead, they convinced me that even though I was bright, even though I might have some talent, I was still defined by factors other than my ability. Consequently, he wrote in SAAS, he began "writing poems about death, despair, and doom" and began "having doubts about everything in my life. He acquired a sti- letto and acted as a drug courier; he also became a target for one of the local gangs after intervening in a fight between three gang members and a new boy in the neighborhood. Finally, influenced by the war poems of British writer Rupert Brooke , Myers joined the army at age seventeen in order to, as he wrote in SAAS, "hie myself off to some far-off battlefield and get killed. There, where I fell, would be a little piece of Harlem. A Memoir, Myers recounts his childhood, then takes the reader through his adolescenceâ€”during which he often skipped school and sometimes made deliveries for drug dealersâ€”and to his beginnings as a writer. Rochman said of this work that "the most beautiful writing is about Mama: I learned a lot about facilitating the process, of making it abstract. After three years in the U. Army, Myers returned home to his parents, who had by now moved to Morristown, New Jersey. Then he returned to Harlem, where he took an apartment and began to work at becoming a professional writer. While working briefly for the U. Post Office , he married Joyce, a woman he later called "wonderful, warm, beautiful, religious, caring. While working odd jobs in a factory and an office, he played bongos with a group of jazz musicians, some of whom were into heroin and cocaine, and wrote jazz-based poetry, some of which was published in Canada. During this time, his first marriage collapsed. In , Myers enrolled in a writing class with author Lajos Egri, who told him that he had a special talent. Where Does the Day Go? When Steven wonders where the day goes, his friends each provide imaginative opinions of their own. Monson, and May Hill Arbuthnot claimed in Children and Books that the story has "other strong values in addition to its exploration of the mystery of night and day. The story features Harry, a lonely dragon who cannot fight, and Mabel May, the African-American fairy who helps him. In order to acquire a wife, Harry must defeat a knight in battle. When Mabel May turns into a dragon to show Harry how to fight, Harry falls in love with her, defeats the knight, and wins her hand, not to mention a good job at the post office. Other picture books by Myers include several in which he teams up with son Christopher Myers. In Jazz, Myers "creates a scintillating paean to jazz," claimed a Publishers Weekly critic. Compared to other authors who struggle to capture the spirit of the music form in text, Booklist reviewer Bill Ott found Jazz "an absolutely airtight melding of words and pictures that is perfectly accessible to a younger audience. Grubbs, who follows him on to New York. Set in a Harlem neighborhood much like the one in which its author grew up, the story describes a group of young teens who take a positive approach to living in a difficult environment. The story is narrated by eighteen-year-old Stuff, who recalls the year that he was thirteen and formed a sort of anti-gang, the Good People, with his best friends Fast Sam and Cool Clyde plus five other boys and girls from the neighborhood. The Good People have several hilarious adventures, including one where Sam and Clydeâ€”who is dressed as a girlâ€”win a dance contest. However, they also deal with such problems as mistaken arrest and the deaths of one of their fathers and a friend who has turned to drugs. The children survive, both through their inner strength and the fellowship of their friends, who are dependable and respectful of one another. Writing in English Journal, Alleen Pace Nilsen called Fast Sam, Cool Clyde, and Stuff "a rich, warm story about black kids in which Myers makes the reader feel so close to the characters that ethnic group identification is secondary. The novel features twelve-year-old Tippy, a motherless Harlem boy who has been living with his loving, principled grandmother since he was a baby. When she goes into a nursing home, Tippy moves in with his father Lonnie, an ex-con who makes his living by stealing and who beats his son viciously. Lonely and afraid, Tippy begins drinking whiskey. When Lonnie and his pals rob a store, he coerces Tippy into participating. Bubba, a member of the group, is shot during the heist; in order to save Bubba and save himself, Tippy calls the police and turns in his father. At the end of the novel, Tippy goes to live with Mr. Roland, a kind man who has befriended him. Shooter focuses on the events leading up to and following a school shooting. The novel is told through a

unique narrative approach: For its dark subject matter and its unique narration, *Shooter* has often been compared with *Monster*. Predicting the book will appeal to readers who enjoyed *Monster* and *Slam*, a *Kirkus Reviews* contributor wrote that *Game* offers readers "a sensitive portrait of a likable young man, his family, city and dreams. In *Scorpions* twelve-year-old Jamal lives in Harlem with his mother and younger sister. He is approached to take the place of his older brother Randy, who is in jail for killing a man, as the leader of his gang, the Scorpions. Jamal and his best friend Tito, a sensitive Puerto Rican boy, join the Scorpions, who are dealing cocaine. During a confrontation, Jamal is defended by Tito, who uses the gun Mack had given Jamal to kill to protect his friend. Marcus Crouch wrote in *Junior Bookshelf* that Myers "writes with great power, capturing the cadences of black New York, and keeps a firm hold on his narrative and his emotions. He is a fine story-teller as well as a social critic and, I suspect, a moralist. Army as a way to make life easier for his mother and younger brother at home in Harlem. During the course of a year, Richie experiences fear and terror as he fights in the war; he burns the bodies of American soldiers because they cannot be carried and" with a rifle at his head" shoots a North Vietnamese soldier in the face; finally, after being wounded twice, he is sent home. Underscoring the novel, which includes rough language and gallows humor, is a strong antiwar message; Myers also addresses such issues as racial discrimination within the service and the conditions faced by the Vietnamese people. Calling Myers "a writer of skill, maturity, and judgment," Ethel L. Cherry, an African-American Air Force pilot who was held as a prisoner of the North Vietnamese for nearly eight years. Enlisting after the terrorist attacks of September 11, , Robin, the nephew of Richie from *Fallen Angels*, narrates his experiences in the army through a series of letters he sends home during his time in Iraq.
