

Chapter 1 : Sapphire Princess Cruise Ship, and Sapphire Princess destinations, deals | The Cruise Web

Sapphire Spa Sampler Package. Sapphires symbolize clear thinking and preserve the wearer from envy, while attracting divine favor. After spending 3 hours with the Sapphire Spa Sampler Package, you'll need this protection because you will definitely be the envy of all of your friends!

I certainly hope you do! I know I do! I am NOT going to give all pressing instructions as most seams will nest from the previous unit instructions and most quilters have their own way of pressing during assembly, especially with a scrappy quilt. Here are the cutting instructions for assembly: This was my measurement, however, your sewing may be a little different than mine. Hold off cutting this clue until the big block assembly. You may use only one navy fabric if you like for these borders, that is your choice. As for me, I chose several. Here is a good place to start Remember these units from clue 1? We will be turning them into 12 of these units. I selected to place my light corners in the center so it would look like a shimmering sapphire. Remember the pressing instructions from Clue 1 will make seams nest for these units. MAKE 12 After constructing these 12 "sapphires" Using the units we just constructed from Clue 1 as our centers, we will be using units from Clue 3, and Clue 5 to make this block. We will be making 12 blocks with the same layout. These are sewn together just like a 9 patch unit. Make sure ALL 12 blocks have the same orientation with reds and yellows. Photo is distorted, thus, uneven corners. I do recommend laying out your quilt blocks for this next step with the sashing for easy piecing. Please note in the photo above, the 4 house top blocks we made along with that cornerstone are all of the same fabrics. You should have 6 sets of these from Clue 4. The 10 random house top blocks will complete the sashing on all the sides of the quilt top. With this being said, you certainly can mix up all of the house top blocks and cornerstones if you wish. If you are interested, this is the way I pressed my sashing strip. And here is one sashing strip completed from the back. Please measure before cutting your gray strips. Here is the sashing sewn on one block. And I am adding a cornerstone here. Notice that the blue strip in the half square triangle do not meet the points of the star in the sashing. We all make quilts differently The choice is yours, as is the pressing. I laid my quilt top one half at a time. This worked for me, and I ask you to do what works for you. Once the center of your quilt top is complete, you will want to add a 2. I sewed several Navy strips together, sewed them to the sides, squared it, then added them to the top and bottom, and squared it again. To go to work on our top and bottom borders. I insert a whole-hearted apology to each and every one of you here. Through a mathematical error on my part, we all pieced 4 extra units of the 7. You should only have 18, not I am human, and mistakes happen more than ever anymore! We will be piecing 9 of these units from Clue 2 together, alternating the placement of the blue. Seams should nest beautifully for this part.. I offset these so you could see. Make 2 One set for the top, and one for the bottom. They should look like this. Notice the reds run straight through in a single line. You should have 24 Light blue rail fence units and 24 bright blue rail fence units made from Clue 2. Divide each into 2 stacks of As shown in the photo, there are 2 stacks of 12 each for bright and light blue units. We will be making 2 long piano key borders for each side of the quilt. Make 2 strips of 24 alternating bright and light blue units. Chain piece them together like this. Notice I used every last inch of that red piece on the left You will now have these strip sets to complete the quilt top. Attach the top and bottom borders first. Trim corners if needed. This photo shows how much I had to trim off using a square ruler. Remember, the 4qty 4. We will be attaching these to each end of our remaining 4. Please notice, it is easiest to go ahead and piece the last navy 2. I used several different lengths of 2. Find the center of your quilt top sides. Find the center of your side border strips, by folding in half, pin them in place, and attach to your quilt top center. Notice, there is some excess on those navy rectangles. After sewing, square them up. I added extra to these rectangles so I had room for error. After the side borders are attached, add a 2. Your "Sapphire Stars" quilt top will be done! I certainly do hope you have enjoyed participating in this mystery quilt, as much as I have? I would LOVE to see your version! Please e-mail your pics to me or post it on your blog! Thanks for all of the encouragement!

Chapter 2 : Sapphire Value, Price, and Jewelry Information

Taste the exceptional quality of tobacco. And in this exclusive sampler, you'll get a taste of 's Blue Sapphire Especial. It's a rare treat!
