

Chapter 1 : Succubus Revealed (Georgina Kincaid, #6) by Richelle Mead

Succubus Revealed is the last book in Richelle Mead's Georgina Kincaid series and I cannot begin to tell you how bittersweet reading this book felt. I wanted to hurry up and read it, yet slow down and savor the story.

Not afraid to enjoy yourself. You just go out there and do what you want. I like the whirlwind you exist in. She prides herself as being less catty than other succubi and genuinely cares for her friends, both immortal and human. She generally avoids having sex with decent men, and mostly survives by feeding off of the life energy of souls already en route to Hell past the point of redemption. Known for being the life of the party and a whiz when it comes to organizing and negotiating anything, she is an adept problem solver and social organizer. She is able to learn nearly anything, but notes more than once that her abilities lie in copying, not in creation. She admires Seth Mortensen and other similarly artistic types for their ability to truly create something new. Dancing in a Las Vegas show is a long-standing dream of hers, but though she can pick up any steps and routines with ease, she doubts her ability to ever act as choreographer. While largely considered upbeat and positive even to the point of naivete, Georgie experiences frequent mood swings and can fall into some deep depressions. These low points result in her doing anything from hiding or running away from everyone and everything, to spiraling into a drunken haze where all of her previous morality goes out the window and she uses her succubus powers far more than she needs to and with no concern for the soul of the target. Appearance Edit Succubi can change their appearance at will due to the shape-shifting ability they gain upon signing their souls over to Hell, and Georgina has a particular aversion to the form she was born with. As we know Georgina, she has long, light brown hair with honey colored highlights, cat-like hazel eyes flecked with green, and full lips. She is gorgeous and her beauty draws attention wherever she goes. As Letha, she had long, coarse black hair and a basically attractive face, though there are not a lot of details given otherwise beyond her being slender and possessing hands larger than her current form. Letha is typically described wearing a long linen dress, presumably typical of the time. Georgina takes on other forms throughout the series, both in the present and in flashbacks to her past. For example, as Suzette in France, she had curly red hair and blue eyes. To seduce a fetishist in a bar, she assumed the name Clara and a tall, willowy frame with pale blonde hair. She, like other succubi, chooses a form she thinks will be particularly pleasing to her intended target. Her preference is to do her succubus work in a form other than her everyday Georgina guise, especially once she becomes involved with a man she cares deeply about. Like other succubi, her wardrobe tends to be sexy, though she loves wearing flannel pants and a t-shirt or camisole to bed and has an old bathrobe that is decidedly not sexy. While a lot of other succubi seem to go for the blonde, Barbie doll look, she considers that the mark of an inexperienced succubus. Amateur succubi also seem to go for spandex, overly skimpy and quite tacky clothing, while Georgina prefers to shapeshift into clothes that fit her body perfectly and look expensive, rather than hookerish.

Succubus Revealed is the perfect ending to this mind-blowing series. I laughed, I cried, and then laughed and cried some more. At its start, things seem to be going well for Georgina.

Succubus Revealed Georgina Kincaid 6 64 Author: Richelle Mead "Can we see her contract? She produced a heavy, metal box from underneath her desk with what appeared to be a numeric lock. After first consulting her laptop, she punched in a long series of digits. Smoke seeped out of the edges of the box. A moment later, she opened it up and produced a long, ornate scroll. She glanced at the judge. Doris repeated the procedure a couple more times, and I leaned toward Roman. Scrolls were obtained for the judge and lawyers. Even though it was a copy, I was still a bit daunted when Roman spread the scroll out before us on the table. This was it, the contract that had bound my immortal soul. One small decision with centuries of consequences. In a softer voice, he added to me, "The rest is pretty much standard Hell legalese. From what I could see, most of it was a painfully detailed description of what it meant to serve as a succubus and give Hell the lease on your soul. Granting to the Damned of succubus powers described in sections 7. All mortals who were acquainted with the Damned in her human life shall have all knowledge of her erased from their memories, never to be regained, in accordance with standard memory loss procedures see appendix Someone she knew when she was human - a mortal - remembered her. Therefore, the contract stands. Operating under the assumption that souls are constant and individuals are defined by their souls, what proof do you have that this reincarnated individual remembered the petitioner here? It was still hard to wrap my head around the idea of everyone just jumping forward and speaking. The one he knew me as back then. This same reincarnated subject revealed under hypnosis remembering her in several other lives. He was the one who actually performed the hypnosis, if you wanted to summon him. Marcel glanced over at the jury. Is she telling the truth? Angels could tell if mortals and lesser immortals were telling the truth. That was handy in a trial like this. I was also surprised Marcel was helping me out like this. We can assume this imp would believe it as well. He did remember me. We can only take your word for it and what you think you heard. And the very nature of his contract contradicts hers. Can you bring it up, Doris?"

Chapter 4 : Succubus Revealed - The Wiki of the Succubi - SuccuWiki

Georgina Kincaid has had an eternity to figure out the opposite sex, but sometimes they still surprise her. Take Seth Mortensen. The man has risked his soul to become Georgina's boyfriend.

Conversely, he had christened all of us with either reindeer or Seven Dwarves names. He took this job very seriously and said the names helped him stay in character. We elves had our own ideas about what might have cut his career short. She was holding back a squirming boy while Santa and I conducted our conversation. I met her pained expression and then glanced down at my watch. You know the deal: You have no idea what Santa endures. I think she was nine. I gave a curt nod to Grumpy. What would you like for this non-denominational winter holiday season? The boy regarded Santa solemnly. If the guy she was plastered all over was old enough to be out of college, I would have been very surprised. Evening was wearing on, increasing the number of families turning out. I could get in a little shopping time and miss the worst of the commuting traffic. As an official mall employee, I got a considerable discount, which made drunken Santas and foil dresses that much easier to bear. One of the greatest things about the happiest time of the year was that all the department stores had extensive cosmetics and fragrance gift sets out right now, gift sets that desperately needed a home in my bathroom. I turned and felt my heart sink as I met the eyes of a pretty middle-aged woman with cropped hair. She nodded and rested her hand on the shoulder of a small, dark-haired girl. Not that that could make things worse, I supposed. Everyone there already thought I was the Whore of Babylon. What was an elf dress on top of that? She actually sounded concerned, which I supposed was better than her gloating. I had a feeling there were a number of people at the bookstore who would have loved the idea of me suffering—not that this job was so bad. He, more than anything, was what had spurred me to leave. It had been terrible, seeing someone I care about so much regard me with such contempt and disappointment. Doug had that effect on people. The same, wacky Doug. And I think he might get your job. Er, your old job. Behind her, a family of four paused in their frantic texting on identical cell phones to glare at me for the hold-up. A moment later, they hunched back down again, no doubt telling all their Twitter friends about every inane detail of their holiday mall experience. Once inside a bathroom, I shape-shifted out of the foil dress, trading it for a much more tasteful sweater and jeans combo. I even made the sweater blue so that there would be no confusion. I was off the holiday clock. Centuries of corruption and seduction of souls had given me a sixth sense for spotting those most vulnerable to my charms. The holidays, while ostensibly being a time of cheer, also tended to bring out the worst in people. Those were exactly the kinds of souls that were ripe for the taking. I could have picked off any number of guys if I wanted to tonight and taken care of my quota for the week. By the time I left, I felt confident traffic had died down and would give me an easy drive back to the city. As I walked past the center of the mall, I heard Santa ho-ho-ho-ing loudly while waving his arms boisterously around, much to the terror of a small child on his lap. My guess was that someone had cracked and broken the drinking rule. On the way home, I noticed I had three voice mail messages, all from my friend Peter. Before I could even attempt to listen to them, the phone rang. What are you talking about? You were a lot more punctual when you were unhappy and single. Peter was one of my best friends. He was also a neurotic, obsessive compulsive vampire who loved hosting dinners and parties. He usually managed to throw something together at least once a week, never for the same reason, so it was easy to lose track. And the cheese is getting cold. Do you really need wine? On any given day, he had a dozen each of reds and whites, both domestic and international. His roommate and apprentice, Cody, opened the door and gave me a broad, fang-filled smile. Light, music, and the scent of fondue and potpourri washed over me. And not just Christmas ones. The guestroom is all done in Kwanza decorations, if you know someone looking for a truly tacky overnight experience. Is that boxed wine? You said you were worried Carter would drink all your good wine. So I brought this for him instead. Your wine is safe. He was the archdemon of all of Seattle and chose to walk the earth looking like a circa John Cusack, which made it easy to forget his true nature sometimes. Fortunately, his brimstone personality always came out the instant he opened his mouth. I helped myself to a fondue fork and speared a piece of apple. Hugh was an imp, a type of hellish administrative assistant, so he

could have actually been buying or selling souls via his phone for all I knew. Do you even read the emails I send? You look like you could use one. He ran a hand over his hair, but it somehow only made things worse. I get a discount at the mall. He filled it with wine from the box and gave it back. He shook his head bitterly. Hugh even looked up from his phone. Just speaking his name sent a flood of joy through me. Seth was what made everything worthwhile. My relationship with him was what had caused the rift between me and my former co-workers at the bookstore. Which, I suppose, I was. I could endure being an elf. With him, I could handle anything. Even a future of damnation. There were just a couple of teeny-tiny things about my relationship with Seth that gave me pause. One had been eating at me for a while, one I kept trying to ignore. But now, suddenly, with my immortal friends watching me, I finally drummed up the courage to address it. It was a stupid thing for me to worry about, and their reactions were just proving that point. A month or so ago, when he was half-asleep, he called me by it. I managed to say the name without tripping over it. That was why the conversation with Seth had totally blindsided me a month ago. But somehow, he knew it. Where he heard it. He probably overheard it. Maybe he saw that. I eyed Carter carefully. And like an elementary school boy, he often thought the best way of showing that affection was by picking on us. Calling me Lethaâ€”when he knew I hated itâ€”and other pet names was one such tactic he used. Carter shook his head. Someone must have told him. You already got your answer: Why does everything have to be so dramatic for you? Are you just looking for something to be unhappy about? There was no mystery here, nothing earth-shattering. Seth had overheard my name somewhere, end of story. There was no reason for me to overreact or assume the worstâ€”only a tiny, nagging voice in my head that refused to forget about that night.

Succubus Revealed, written by Richelle Mead, is the sixth and last book in the Georgina Kincaid series. Plot Summary Edit. In Georgina Kincaid, succubus and she-demon, #1 New York Times bestselling author Richelle Mead has created one of her most enticing characters.

Georgina Kincaid has had an eternity to figure out the opposite sex, but sometimes they still surprise her. Why are the powers-that-be so eager to get her away from Seattle—and from Seth? Father of Roman and Helena. Described as looking like a bum. Bastien - Incubus, long time friend of Georgina Sol - A god. His blood is Ambrosia. He also seeks humans to date rape. Erik - Human psychic, friend of Georgina. Runs a book store. Friend of Georgina and Lead singer in a band. Human assistant to Sol. And here we are I wanted to hurry up and read it, yet slow down and savor the story. Ultimately I settled on "screw it, full speed ahead! Sweet cheesus will Georgie and Seth ever be able to be together?! I did find some parts somewhat predictable, which made the beginning a little slow for me. The first half of the book was slow-moving, but by the middle, things start Happening with a capital H. Some readers probably have figured out several revelations that are hinted at in the last book, Succubus Shadows, but it is the raw emotions Ms. Mead is able to evoke that make this book so fantastic. I think Seth and Roman fans alike will be pleased with the outcome and with how things play out. The plot twists involving Jerome, Carter, and Roman separately are quite powerful. While I would have liked to have seen a few more things addressed, maybe a little more things flipped upside down in true Richelle Mead fashion, I was pleased with the way this ultimate love conquers all series was drawn to an end. The Georgina series will continue to be one of my favorites and I highly recommend it. They are very very sexy, highly emotional books, and I am glad Ms. Mead had this end in mind for Succubus Revealed.
