Chapter 1 : Tally ERP 9 Online Course with GST - Tally Training

We know that there are 6 types of Accounting Vouchers in tally For every entry we have to think which type of entry Assignment/Examples Pass the following entries in Tally.

Configuration changes may affect all the active companies. Info, voucher entry, invoice, order entry, printing, etc. General options are used to change information like country detail, date format or graphs in monthly report, etc. Numeric symbol option is used to change format of the numbers. Voucher entry set the features of the vouchers, such as cost vouchers details, bill wise details, ledger current balance, etc. Printing options is used for printing Vouchers, Invoices, Financial Statements, etc. Quit option is used to quit from the configuration menu and go to the previous menu. What is group in Tally? In tally, all accounts entries can be grouped or sub grouped according to the need of users. Group means the type of the account. Functions of each group are fixed. Tally provides facility to user to create own group. Also it provides 28 predefined groups. Out of these 28 groups, 15 are primary groups and 13 are sub groups. Following is the list of groups that affects the Balance sheet. It has a subgroup. A Reserves and surplus: All reserves accounts like general reserves, capital reserves etc. These assets are divided in 6 sub groups as follows A Bank accounts: Holds bank transactions that means current accounts, savings accounts, etc. B Cash in hand: All cash track in ledger. Fixed deposits, security deposits made by company. D Loan and Advances assets: If the company gives any loan or advanced to other. E Stock in hand: Keep records of opening or closing stock of the material. This maintains the list of all companies or persons to whom company gives material on credit. It keeps track of outstanding liabilities or statutory liabilities. A Duties and Taxes: It maintains records of all financial arrangement for possible future requirements. Company purchase material or any other things on credit. Then the list of all companies or persons is under sundry creditors to whom company purchased material. Handle accounts of all assets like machinery, buildings, etc. It keep records of overall investment like shares, Govt. It keeps an account of the loans taken by company and has following three subgroup: A Bank OD accounts: Keep all overdraft accounts. Keep track of loans taken by the company securities against the fixed assets. This account is used to enter the transactions whose detai9ls are ye to tbe finalized. All the names of branches, divisions and subsidiaries of the company. Under this group all expenses are entered. Following group affect Manufacturing, Trading and Profit and loss accounts: It is used to maintain records of all purchase account. It keeps record of all sales. This group is used for entering all direct incomes like sales of goods. This group maintains the all incomes other than sales. That means it keeps record of all incomes like rent received, interest received etc. This group is used for recording all direct expenses means the purchase of raw material, or wages of workers. This group is used to maintain the records of all expenses other than direct expense. All salary paid, rent paid, advertisement charges are under indirect expenses. To create single and multiple groups Ans. Group is the type of account. Group decides how transactions take place in accounting. Tally provides 28 predefined group. But if user wants to create any other group then use create group option. These new group is a sub group of existing group. If user wants to create a new subgroup under different groups then follow the following steps: From Gateway of Tally, select Account info. Then select Group option, as user wants to create group. If user wants to create single group at a time then select create option from single group. Now tally shows data entry screen for group as follows.
