All three were educated at a military school and pursued careers as officers in the French military. They first served during the War of the Polish Succession. Antoine Davy de la Pailleterie, who reached the rank of colonel, notably saw action at the Siege of Philippsburg in 1757. That year Antoine also left the Army and joined his brother and his wife in Saint-Domingue. He lived with them and worked at the plantation until 1763. At that point Antoine broke off contact with his brother and his family for a period of thirty years. In 1763, she gave birth to their mixed-race son Thomas-Alexandre. During her time with Antoine, she also had three daughters with him. Some accounts say two. He used a wharf in the neutral border territory and tiny island of Monte Cristo today Monte Christi, Dominican Republic. Marie-Cessette Dumas Marie-Cessette Dumas, described as a "great matriarch to a saga of distinguished men", [23] was an enslaved woman and concubine of African descent owned by the Marquis Antoine Davy de la Pailleterie. He sold Marie-Cessette Dumas, their other two children, and her daughter by another man to a baron from Nantes before leaving Saint-Domingue. In addition, he was in a hurry to leave for the military front. They also had an older half-sister, Marie-Rose, born to Marie-Cessette before Davy de la Pailleterie purchased her and began their relationship. His father sold Marie-Cessette and her other three children before arranging to take Thomas-Alexandre with him to France. In 1764 when Alexandre was fourteen years old, his father sold the boy for French livres in Port-au-Prince, officially to a Lieutenant Jacques-Louis Roussel but unofficially to a Captain Langlois. The boy accompanied Captain Langlois to Le Havre, France, arriving on August 30, 1764, where his father bought him back and freed him. At this school, he learned swordsmanship from the Chevalier de Saint-Georges, another mixed-race man from the French Caribbean. His notary said that the boy "cost him enormously. Unlike his noble peers, who took arms as commissioned officers, Dumas enlisted as a private. Dumas had this, but the French race laws "made it hard for a man of mixed race to claim his rightful title or noble status. Troops killed between 12 and 50 people when a large crowd gathered to sign a petition calling for the removal of the French king. When, two years later, someone denounced Dumas to the Committee of Public Safety, he claimed that his intervention in the conflict had saved as many as 2,000 people from massacre. He was one of 10,000 men under the command of the General Biron. Stationed on the Belgian frontier in the town of Maulde, on August 18, 1793, Dumas captured 12 enemy soldiers while leading a small scouting party of four to eight horsemen. This was a "free legion" i. The young officer Dumas frequently commanded the legion, as Saint-George was often absent from duty. In the summer of 1793, Saint-Georges was accused of misusing government funds, and the Legion was disbanded. One month later, he was promoted again, to general of division. In September, he was made commander-in-chief of the Army of the Western Pyrenees. Dumas delayed his arrival in Paris until mid-July, and was lucky enough not to be seen by the Committee before the Terror ended with the execution of Robespierre on July 27, 1793. In December 1793, Dumas was put in charge of a division besieging Austrian troops at the city of Mantua. By Christmas he had intercepted a spy carrying a message to the Austrian commander with important tactical information. On January 16, 1794, Dumas and his division halted an Austrian attempt to break out of the besieged city and prevented Austrian reinforcements from reaching Mantua. Under Joubert, Dumas led a small force that defeated several enemy positions along the Adige River. It was this feat for which the French began referring to Dumas as "the Horatius Cocles of the Tyrol" after a hero who had saved ancient Rome. Napoleon called Dumas by this nickname, and rewarded him by making him cavalry commander of all French troops in the Tyrol; he also sent Dumas a pair of pistols. Dumas spent much of his time as military governor, administering the province of Treviso, north of Venice. He joined an enormous French armada massing there in preparation for departure to a secret destination. The armada departed on May 10, 1798, destination still unannounced. Aboard the Guillaume Tell, in the middle of the Mediterranean Sea, Dumas learned that he had been appointed as commander of all cavalry in the Army of the Orient. The armada arrived in the port of Alexandria at the end of June, and on July 3 Dumas led the Fourth Light Grenadiers over the walls as the French conquered the city.

After the fighting, Napoleon sent Dumas to pay ransom to some Bedouins who had kidnapped French soldiers. Seeing "him ride his horse over the trenches, going to ransom the prisoners, all of them believed that he was the leader of the Expedition. Conditions of heat, thirst, fatigue, and lack of supplies for the troops on the desert march were harsh; there were a number of suicides. Dumas soon participated in the Battle of the Pyramids following which he chased retreating Mameluke horsemen and the occupation of Cairo. At some point during the occupation, Napoleon learned of the earlier mutinous talk, and confronted Dumas. In his memoirs, Napoleon remembered threatening to shoot Dumas for sedition. Dumas requested leave to return to France , and Napoleon did not oppose it. In August , Dumas discovered a significant cache of gold and jewels beneath a house in French-occupied Cairo, which he turned over to Napoleon. In October, he was instrumental in putting down an anti-French revolt in Cairo by charging into the Al-Azhar Mosque on horseback. Dumas, you have already posed as the central figure. Boccheciampe had been captured by French forces north of the Neapolitan kingdom, shortly after he had visited the prisoners in Taranto , but Ruffo lost interest in a trade when he learned Boccheciampe had been killed by the French. By the time of his release, he was partially paralyzed, almost blind in one eye, had been deaf in one ear but recovered; his physique was broken. He believed his illnesses were caused by poisoning. During his imprisonment, he was aided by a secret local pro-French group, which brought him medicine and a book of remedies. In November , Napoleon had returned to Paris and seized power. One month after the French National Convention abolished slavery February 4, , Dumas sent a message to troops under his command in the Army of the Alps: Your comrade, a soldier and General-in-Chief Sincere lover of liberty and equality, convinced that all free men are equals, he will be proud to march out before you, to aid you in your efforts, and the coalition of tyrants will learn that they are loathed equally by men of all colors. Dumas bought a farm of 30 acres there. They had daughters Marie-Alexandrine born September 10, , Louise-Alexandrine born January or February , died , and a son, Alexandre Dumas , who became a prolific and notable author, with numerous successes in plays and especially adventure novels. Later years and death[edit] After he finally gained release in , Dumas was not awarded "the pension normally allocated to the widows of generals" by the French government [83] and he struggled to support his family after his return to France.
