As part of the plan, they would need one of the employees to be the scapegoat. Meanwhile, Fred Flintstone loans his best friend and neighbor Barney Rubble money so that he and his wife Betty can adopt a child. The agency pairs them up with a child named Bamm-Bamm , who can only pronounce his own name. Although Bamm-Bamm is initially difficult to control due to being raised by mastodons , and thus has super strength, he eventually warms up to his new family. Barney vows to repay his friend Fred for his debt of gratitude. Fred promises he will prove himself to her one day. As part of his scheme to find the fall guy , Vandercave holds a company-wide aptitude test, where the worker with the highest score would become the new vice president of the company. Fred is unwilling to fire his friend, but Vandercave threatens to fire both Barney and him if he refuses. Fred reluctantly accepts, but does his best to help Barney support his family, and even invites the Rubbles to live with the Flintstone family so that they can rent out their home for extra income. Vandercave eventually tricks Fred into dismissing more workers, over the objections of his office Dictabird. Later, Barney confronts Fred after seeing worker riots on the news, and in the heat of the argument, reveals that he switched tests with Fred. The Rubbles move out, despite having nowhere to live. He finds out that Vandercave has manipulated events to make it look as if Fred stole the money, and that he has reported the stolen money to the police. A manhunt for Fred ensues, led by the police and the workers. Shocked by the news and knowing Fred would never go as far as embezzlement , Wilma and Betty break into Slate and Co. They are, however, unaware that Vandercave has been watching them from his office window. Meanwhile, Fred, while in disguise, attempts to enter a cave where the workers are seeking refuge. However, they see through his disguise and attempt to hang him. Barney is almost hanged as well after he admits his part. Fred and Barney reconcile, but before they are lynched, Wilma and Betty arrive with the Dictabird, who, after Fred apologizes to him and the workers, tells them the true story. The workers release Fred and Barney after realizing that Vandercave was the one who fired them. Fred and Barney confront Vandercave at the quarry, where Vandercave has tied Pebbles and Bamm-Bamm to a large industrial mixing machine. Though they hand him the Dictabird, Vandercave still activates the mixer to stall them while he makes a getaway. Barney rescues the children while Fred destroys the mixer. The Dictabird escapes from Vandercave and lures him back to the quarry, where Miss Stone knocks him out, having had a change of heart after learning that Vandercave was planning to betray her. The police, Wilma, Betty, and Mr. Slate arrive at the quarry while Vandercave attempts to flee, but he becomes trapped by a thick liquid substance oozing out from the wrecked mixer. With the Dictabird as witness and providing evidence against Vandercave, all charges against Fred are dropped. Impressed with the qualities of the liquid substance that Fred inadvertently created when he destroyed the mixing machine, Mr. Slate dubs the substance " concrete " in honor of his daughter Concretia and makes plans to produce it with Fred as the president of its division. With the discovery of concrete, the Stone Age comes to an end. Having realized how his life would change for the worse with his new found wealth and status as the new president, Fred declines the promotion and asks that the workers be rehired and given the job benefits that he was initially to have received. As the Flintstones and Rubbles have finally made amends, Fred and Barney get into a humorous quarrel when Fred once again asks Barney for a small amount of money for breakfast.
