

Chapter 1 : Best meal of the trip, best salmon of my life - Review of Chez Nous, Lee, MA - TripAdvisor

In this book, titled after his acclaimed fourth album, The Good Life, Christian rap artist and author, Trip Lee, unveils what the world, the flesh and the devil promote as the ultimate and most satisfying life.

He returns this time with a more traditional rap album in The Good Life, but as usual, Trip mixes the sounds up throughout the album. The Good Life comes in with big expectations as one of the most anticipated albums of the year, especially in the rap and hip-hop category. As expected, Trip does not disappoint with his newest release as he gives his listeners something to thoroughly enjoy. He goes on in the track to admit that he had it wrong and realized that the good life was living for God. Sho Baraka shares a similar story while J. Things keep moving and actually pick up with "Robot," which was released in January as the first single. This track features Reach Records founder, Lecrae, and is definitely one of the top tracks on the album. One of the most interesting and socially relevant songs on the album, "iLove," comes up a couple of spots later. The lyrics focus on the fact that cell phones and other technology rule our lives and take time away from our Creator. The song has a great sound, but an even better message. Anyone familiar with Trip Lee will obviously know that the lyrics revolve around the scripture Romans 1: The song features some of the best flows and fastest raps on the album. All three guys step their game up for this one and it will likely be a favorite for any fan who listens. The opening line, "Money, sex, and power are good," may throw you off to start, but Trip is simply saying that these things, when treated solely as a gift from the Father, are indeed good. The four-in-a-row run of excellent numbers is capped with V. The track grows on you with repeat listens, and definitely has a certain catchiness to it, but it could have been left off with little to no impact on the whole. Trip Lee collaborated with some different talent than you may be used to seeing, but it was all for the good of the album. Trip has released a near flawless album for his fourth venture that is easily his best work to date. Trip brings on Sho Barka - one of many guests who collaborate on this release - to lend a hand with the raps. Somewhere near the middle of the disc, the album picks back up and the creative juices start flowing. He collabs with smooth stylist Andy Mineo and ultra fast spitter KB to make a stand-out track. The beats are unique and the lyrical content are worthy to be bumped at any house party. Unfortunately, most of the remaining tracks bring back the attempt to stray from what really works, which is rapping. Trip Lee has always delivered seriously strong raps that focus on the greatness of our God. His focus has not changed, but the music has suffered a little. I heard that Trip does plan to release a book as a follow up to "The Good Life" which I am looking forward to.
