

Chapter 1 : Formats and Editions of Logic of american politics. [blog.quintoapp.com]

"I have been using The Logic of American Politics for ten years, and of all the introductory textbooks on American politics, this is the best. It has a well-carried theme throughout, is comprehensive, and always reflects updated political science research."

It arms students with a revised introduction to institutional design that makes concepts such as command, veto, agenda control, voting rules, and delegation easier for students to master and apply, so they clearly see how the American political system was devised and why it works the way it does. Authors Samuel Kernell, Gary C. This new edition continues to delve into partisan differences among voters and in government and highlight the increasingly partisan nature of campaigns. The concluding chapter on policymaking examines the noticeable logic that guides American policy, as shown through issues like health care reform, global climate change, and the federal budget. Students glean insights into the sources of policy problems, identify possible solutions, and realize why agreement on those solutions is often so hard to achieve. Read more About the author Samuel Kernell is professor of political science at the University of California, San Diego, where he has taught since Previously, he taught at the University of Mississippi and the University of Minnesota. His previous books include Going Public: New Strategies of Presidential Leadership, 3rd edition; an edited collection of essays, James Madison: Jacobson is distinguished professor of political science at the University of California, San Diego, where he has taught since Jacobson specializes in the study of U.
