Plot[ edit ] On Christmas Eve night, while his wife and children sleep, a father awakens to noises outside his house. Looking out the window, he sees Santa Claus Saint Nicholas in an air-borne sleigh pulled by eight reindeer. After landing his sleigh on the roof, the saint enters the house through the chimney, carrying a sack of toys with him. They share a conspiratorial moment before Santa bounds up the chimney again. As he flies away, Santa wishes everyone a "Happy Christmas to all, and to all a good night. For example, while the first two lines each use full anapests, lines 3 and 4 each drop the first unstressed syllable. Likewise, lines 9 and 10 drop the first unstressed syllable; they also add an extra unstressed syllable to the end. His inspiration for the character of Saint Nicholas was a local Dutch handyman as well as the historical Saint Nicholas. Moore originated many of the features that are still associated with Santa Claus today while borrowing other aspects, such as the use of reindeer. It was first attributed in print to Moore in Moore himself acknowledged authorship when he included it in his own book of poems in By then, the original publisher and at least seven others had already acknowledged his authorship. He included it in the anthology at the insistence of his children, for whom he had originally written the piece. By having Saint Nicholas arrive the night before, Moore "defly shifted the focus away from Christmas Day with its still-problematic religious associations. For example, breast in "The moon on the breast of the new-fallen snow" is frequently bowdlerized to crest; the archaic ere in "But I heard him exclaim ere he drove out of sight" is frequently replaced with as. Note that this change implies that Santa Claus made his exclamation during the moment that he disappeared from view, while the exclamation came before his disappearance in the original. New-York Historical Society Four hand-written copies of the poem are known to exist and three are in museums, including the New-York Historical Society library. Joe Nickell, author of Pen, Ink and Evidence. Holley alluded to the author of the Christmas poem, using terms that accurately described Moore as a native and current resident of New York City, and as "a gentleman of more merit as a scholar and a writer than many of more noisy pretensions. Lee, a student at General Theological Seminary when Moore taught there, referred to a holiday figure of St. Nicholas as being "robed in fur, and dressed according to the description of Prof. Moore in his poem. The Christmas poem appears on pages , credited to "Clement C. Bartlett and Welford, Before , the poem was included in two anthologies: Colman, , pages Although Moore did not authorize the earliest publication of the poem in the Troy Sentinel, he had close ties to Troy through the Protestant Episcopal Church that could explain how it got there. David Butler who allegedly showed the poem to Sentinel editor Orville L. Holley that he received it from Mrs. Sackett, the wife of Mr. Daniel Sackett who was then a merchant in this city" [16]. Moore describes two stages of copying, first "by a relative of Dr Moores in her Album" and second, "by a friend of hers, from Troy. By that time, the original publisher and at least seven others had already acknowledged his authorship. Kaller examined the book in question, A Complete Treatise on Merinos and Other Sheep, as well as many letters signed by Moore, and found that the "signature" was not penned by Moore, and thus provides no evidence that Moore made any plagiaristic claim. But Stephen Nissenbaum argues in his Battle for Christmas that the poem could have been a social satire of the Victorianization of Christmas. Moore had even written a letter titled "From Saint Nicholas" that may have predated Foster also contends that Moore hated tobacco and would, therefore, never have depicted Saint Nicholas with a pipe. In actuality, that verse contradicts such a claim. Against this claim, it is suggested by Kaller that Moore "a friend of writer Washington Irving and member of the same literary society" may have acquired some of his knowledge of New York Dutch traditions from Irving. Nicholas came riding over the tops of the trees, in that self-same wagon wherein he brings his yearly presents to children, and he descended hard by where the heroes of Communipaw had made their late repast. And he lit his pipe by the fire, and sat himself down and smoked; and as he smoked, the smoke from his pipe ascended into the air and spread like a cloud overhead. And Oloffe bethought him, and he hastened and climbed up to the top of one of the tallest trees, and saw that the smoke spread over a great extent

of country; and as he considered it more attentively, he fancied that the great volume of smoke assumed a variety of marvelous forms, where in dim obscurity he saw shadowed out palaces and domes and lofty spires, all of which lasted but a moment, and then faded away, until the whole rolled off, and nothing but the green woods were left. Nicholas had smoked his pipe, he twisted it in his hatband, and laying his finger beside his nose, gave the astonished Van Kortlandt a very significant look; then, mounting his wagon, he returned over the tree-tops and disappeared. Analyzing the Clement Clarke Moore Vs. Henry Livingston Question, [23] published in , in which he evaluates the opposing arguments and, for the first time, uses the author-attribution techniques of modern computational stylistics to examine the long-standing controversy. Jackson employs a range of tests and introduces a new one, statistical analysis of phonemes; he concludes that Livingston is the true author of the classic work.

Characters not well developed. In short, "Trashy summer read. Her New Orleans series Shelves: To view it, click here. I was so happy when I finished this book. There is a nice and grotesque murder in the beginning and I really liked the female serial killer. Way too many details on the family. Especially since most of it is reiteration of what came before. By the end I was rooting for the killer. I was hoping t I was so happy when I finished this book. I was hoping that she offed the whole lot of them. That was another problem that I had with the book. I figured out the "big" shocker about twenty pages in and the end just seems to be one big repeat of information. Jackson thinks we need to be hit over the head with the information. Most of the book has to do with her dithering back and forth: After I figured the "shocker" out I just wanted to scream at her, "Yes! So, in effect, every time that she jogs or has sex the Kelly personality is triggered. Also, instead of the intensive therapy normally required to overcome this, Caitlyn manages to overcome her MPD by sheer force of will. The big romance between her and Adam, her shrink, seemed strained and forced. Especially near the end. The only two characters that were moderately bearable were the detectives, Sylvie Morisette and Reed.
