When the darkening lets go of Naomi for a brief period, it throws her into a spiral of grief, sadness, and depression. The darkening takes hold of Naomi again in Chapter 4, which leads her to attempt suicide without her knowledge. She then experiences another darkening when she learns that she is the one who murdered Seiko under the influence of the darkening. The same events are shown in Corpse Party: Ayumi Shinozaki Edit During her time in Heavenly Host, Ayumi is prone to being possessed, possibly due to her high sensitivity to spirits, but it should not be confused with the influence of the darkening. In Chapter 5 of Corpse Party, Yuki Kanno mentioned that Ayumi already showed signs of the darkening and it began to take hold of her. If Yoshiki decides not to return to Heavenly Host with Ayumi, she will opt to go back on her own. However, it is unclear if these actions are fueled by the darkening or simply out of jealousy. This enrages him, and he starts chasing Sachiko. Naomi follows him, but she falls behind. In the end it is shown that he came back in hope of protecting Ayumi, but succumbs to the darkening near the incinerator and dies. She visited and watched Morishige performed on-stage in Heavenly Host. She first began to darken after Kizami taunted Morishige and made him took his own life away despite trying to reach to him with her voice but as a result, it failed to reach him. As a result, it successfully revived Mayu but came with errors. Shortly after the revived Mayu was materialized, she was once again killed by supernatural forces and her spirit was sent back to Heavenly Host and she darkened even more. In the beginning of Corpse Party: Mayu desperately calls out for Morishige, and then proceeds to chase and attack Ayumi with no hesitation. Sakutarō Morishige In Corpse Party: Book of Shadows , Sakutarō can succumb to darkening in many ways. In addition, she is seen hallucinating while meeting up with Naho in Corpse Party: Book of Shadows manga. He then proceeds to chase Aiko throughout the school. Azusa Takai Edit It is revealed that Azusa fell victim to the darkening at some point. It is unclear what becomes of her after Corpse Party: Significant plot details end here.

They create a fun, relaxed atmosphere for your guests. And when your guests are happy, more than likely so is your bank account. So what do you do when you have a large crowd of people? It may seem as though playing a game would take up too much time from your presentation? What I like to do when I have a big crowd of people at my parties is to play a quick Passing game. These are games that get the whole room involved without taking up too much time. Read on for a few silly party games that you can try out your next big party.

Silly Party Games 1: Clothespin Buzzwords Now this is a game that I love to play. And the great thing is that it is a game that lasts throughout the party without really disrupting it. So here is what you want to do. Before the party gets going choose a buzzword. It can be anything. It can also have something to do with the theme of the party. As each guest arrives at the party, give them a clothespin and attach it to their shirt. Tell them what the buzzword is and tell them to avoid using it during the party. If any of the guests does use the buzzword, someone can steal their clothespin from them. At the end of the party, the person with the most clothespins wins.

Silly party games 2: Hot Potato This is a fun way to give out a gift. Tell your guests to stand in a circle. And hand one of them the gift. Turn your back and instruct them to start passing the gift around the circle. This is the cue for them to stop passing the gift. Another option is to play music and when the music stops, so should the passing of the gift. The person who is left holding the gift is out. Continue until only one person is left in the game. That person is the winner.

Silly party games 3: To play this you tell everyone to sit or stand in a circle. You hand the gift to one person and instruct that the gift be passed to the left or right as you read the following story. The person left holding the gift is the winner.! I hope nothing will be LEFT out. So there is really nothing LEFT for me to do now except to congratulate the winner! These are just some of the many party plan games out there.

Bakerâ€™Fancher party In early , the several groups of emigrants from the northwestern Arkansas region started their trek to California , when they later joined all together to form a group known as the Bakerâ€™Fancher party. This group was initially referred to as both the Baker train and the Perkins train, but after being joined by other Arkansas trains and making its way west, was soon called the Bakerâ€™Fancher train or party. It was named for "Colonel" Alexander Fancher who, having already made the journey to California twice before, had become its main leader. The party reached Salt Lake City with about members. Interactions with Mormon settlers[edit] See also: President James Buchanan had recently issued an order to send troops to Utah. Rumors spread in the territory about the motives for the federal troop movement. Young issued various orders, urging the local population to prepare for the arrival of the troops. Eventually Young issued a declaration of martial law. In August , the Mormon apostle George A. Smith , of Parowan , traveled throughout southern Utah, instructing the settlers to stockpile grain. Christopher Kit Fancher survivor of the Mountain Meadows Massacre While many witnesses said that the Fanchers were in general a peaceful party whose members behaved well along the trail, rumors spread about aggressive and threatening behavior and other misdeeds. Brevet Major James Henry Carleton led the first federal investigation of the murders, published in Carleton interviewed the father of a child who allegedly died from this poisoned spring, and accepted the sincerity of the grieving father. But, he also included a statement from an investigator who did not believe the Fancher party was capable of poisoning the spring, given its size. Dame and Isaac C. Haight and Dame were, in addition, the senior regional military leaders of the Mormon militia. Haight decided to send a messenger south to John D. Seven emigrants were killed during the opening attack and were buried somewhere within the wagon encirclement. Sixteen more were wounded. This resulted in an order to kill all the emigrants, with the exception of small children. Haight â€™Battalion Commanderâ€™died Arizona Maj. Higbee, said to have shouted the command to begin the killings. He claimed that he reluctantly participated in the massacre and only to bury the dead who he thought were victims of an "Indian attack. Lee , constable, judge, and Indian Agent. Having conspired in advance with his immediate commander, Isaac C. Haight , Lee led the initial assault, and falsely offered emigrants safe passage prior to their mile-long march to the field where they were ultimately massacred. He was the only participant convicted. Philip Klingensmith, a Bishop in the church and a private in the militia. Killings and aftermath of the massacre[edit] Main article: Killings and aftermath of the Mountain Meadows massacre On Friday, September 11, , two militiamen approached the Bakerâ€™Fancher party wagons with a white flag and were soon followed by Indian Agent and militia officer John D. The adult men were separated from the women and children. The men were paired with a militia escort. When a signal was given, the militiamen turned and shot the male members of the Bakerâ€™Fancher party standing by their side. The women and children were then ambushed and killed by more militia that were hiding in nearby bushes and ravines. Members of the militia were sworn to secrecy. A plan was set to blame the massacre on the Native Americans. The militia did not kill at least seventeen children who were under the age of 7 and deemed too young to relate the story. These children were taken in by local Mormon families; seventeen of the children were later reclaimed through the efforts of the U. Army and returned to relatives in Arkansas. Some of the cattle were taken to Salt Lake City and sold or traded. The remaining personal property of the Bakerâ€™Fancher party was taken to the tithing house at Cedar City and auctioned off to local Mormons. Investigations and prosecutions relating to the Mountain Meadows massacre An early investigation was conducted by Brigham Young, [12] who interviewed John D. Lee on September 29, In , Young sent a report to the Commissioner of Indian Affairs stating that the massacre was the work of Native Americans. The Utah War delayed any investigation by the U. Carleton interviewed a few local Mormon settlers and Paiute Native American chiefs, and concluded that there was Mormon involvement in the massacre. He issued a report in May , addressed to the U. Assistant Adjutant-General, setting forth his

findings. Jacob Forney, Superintendent of Indian Affairs for Utah, also conducted an investigation that included visiting the region in the summer of and retrieved many of the surviving children of massacre victims who had been housed with Mormon families, and gathered them in preparation of transporting them to their relatives in Arkansas. Congress called the mass killings a "heinous crime", [6] blaming both local and senior church leaders for the massacre. A federal judge brought into the territory after the Utah War, Judge John Cradlebaugh, in March convened a grand jury in Provo concerning the massacre, but the jury declined any indictments. Lee, Isaac Haight, and John Higbee, but these men fled before they could be found. Lee is seated, next to his coffin. Further investigations, cut short by the American Civil War in , [25] again proceeded in when prosecutors obtained the affidavit of militia member Philip Klingensmith. Klingensmith had been a bishop and blacksmith from Cedar City; by the s, however, he had left the church and moved to Nevada. Stewart and Samuel Jukes who had gone into hiding. Klingensmith escaped prosecution by agreeing to testify. Human skeletons, disjointed bones, ghastly skulls and the hair of women were scattered in frightful profusion over a distance of two miles. The first published report on the incident was made in by Carleton, who had been tasked by the U. Army to investigate the incident and bury the still exposed corpses at Mountain Meadows. In , Mark Twain commented on the massacre through the lens of contemporary American public opinion in an appendix to his semi-autobiographical travel book *Roughing It*. In , the massacre was a prominent feature of a history by T. Stenhouse, *The Rocky Mountain Saints*. Smith was sent to southern Utah by Brigham Young to direct the massacre and stating that the local church and city leaders had prayed together in a circle and told him it was their duty to kill the emigrants. Gibbs, who also attributed responsibility for the massacre to Young and Smith. The first detailed and comprehensive work using modern historical methods was *The Mountain Meadows Massacre* in by Juanita Brooks, a Mormon scholar who lived near the area in southern Utah. Brooks found no evidence of direct involvement by Brigham Young, but charged him with obstructing the investigation and provoking the attack through his rhetoric. In , it excommunicated some of the participants for their role in the massacre, [43] and from that point the LDS Church has condemned the massacre and acknowledged involvement by local Mormon leaders. Church officials discouraged historian Juanita Brooks from investigating the matter. During the mids, Young instituted a Mormon Reformation, intending to "lay the axe at the root of the tree of sin and iniquity". In addition, during the prior decades, the religion had undergone a period of intense persecution in the American Midwest, and faithful Mormons moved west to escape persecution in midwestern towns. In particular, they were officially expelled from the state of Missouri during the Mormon War, during which prominent Mormon apostle David W. Patten was killed in battle. Just months before the Mountain Meadows Massacre, Mormons received word that yet another apostle had been killed: Smith Apostle who met the Baker–Fancher party before touring Parowan and neighboring settlements before the massacre

Main article: War hysteria preceding the Mountain Meadows massacre

The Mountain Meadows Massacre was caused in part by events relating to the Utah War, an deployment toward the Utah Territory of the United States Army, whose arrival was peaceful. In the summer of , however, the Mormons expected an all-out invasion of apocalyptic significance. From July to September , Mormon leaders and their followers prepared for a siege. Mormons were required to stockpile grain, and were enjoined against selling grain to emigrants for use as cattle feed. As far-off Mormon colonies retreated, Parowan and Cedar City became isolated and vulnerable outposts. It has been reported that Brigham Young sought to enlist the help of Native American tribes in fighting the "Americans", encouraging them to steal cattle from emigrant trains, and to join Mormons in fighting the approaching army. He met with many of the eventual participants in the massacre, including W. Dame, Isaac Haight, John D. Lee and Chief Jackson, leader of a band of Paiutes. When Smith returned to Salt Lake, Brigham Young met with these leaders on September 1, , and encouraged them to fight against the Americans in the anticipated clash with the U. They were also offered all of the livestock then on the road to California, which included that belonging to the Baker–Fancher party. Young was theocratic leader of the Utah Territory at the time of the massacre. There is a consensus among historians that Brigham Young played a role in provoking the massacre, at least unwittingly, and in concealing its evidence after the fact; however, they debate whether Young knew about the planned massacre ahead of time and whether he initially condoned it before later taking a strong public stand against it. Following the

massacre, Young stated in public forums that God had taken vengeance on the Bakerâ€™Fancher party. In regard to emigration trains passing through our settlements, we must not interfere with them until they are first notified to keep away. You must not meddle with them. The Indians we expect will do as they please but you should try and preserve good feelings with them. There are no other trains going south that I know of]. President James Buchanan implied that face-to-face communications with Brigham Young might have averted the conflict, and Young argued that a north-south telegraph line in Utah could have prevented the Mountain Meadows Massacre. The Utah State Historical Society, who maintains the document in its archives, acknowledges a possible connection to Mark Hofmann , a convicted forger and extortionist, via go-between Lyn Jacobs who provided the society with the document. Remembrances of the Mountain Meadows massacre The first monument for the victims was built two years after the massacre, by Major Carleton and the U. This monument was a simple cairn built over the gravesite of 34 victims, and was topped by a large cedar cross. Wilford Woodruff, who later became President of the Church, claimed that upon reading the inscription on the cross, which read, "Vengeance is mine, thus saith the Lord.

The Password to the Shadows Summary: Search Party Season 1, Episode 9: The crew wreaks havoc on Chantal's sister's rehearsal dinner and have no choice but to pay off an unlikely source for Chantal's possible whereabouts.

Shadow wears black ninja attire with his hood up and dons a mask, hiding his facial characteristics. In flashbacks he is sandy-haired, wearing a brown scarf and cloak over black clothes. Shadow has a troubled past, later warns Terra about "people who have killed their emotions", and encourages her not to do the same. In Thamasa, Shadow rescues the party from a burning house, though he claims it was only to retrieve Interceptor. Despite his cold and taciturn exterior, Shadow does develop a kinship with the party, and he does oppose inhumane actions. Skip section Shadow used to go by the name Clyde, a thief who worked with his partner, Baram. Baram was wounded and begged Clyde to kill him to avoid capture. Clyde was unable to kill his friend and fled. He found himself in the small town of Thamasa where he married a woman and fathered a baby girl. He could not hide from his past, so some years later he left his wife and daughter and changed his identity. He would wear the attire of a dark assassin, and would never show his face. His dog, Interceptor, followed him out of Thamasa. From then on he would only be known as "Shadow. The party meets Shadow in South Figaro. On the way, they pass through an Imperial Camp set up to manage the Siege of Doma. Cyan Garamonde, a knight of Doma, comes to the camp to exact his revenge on the Imperials. Sabin and Shadow help out, and together they escape the camp on Magitek Armor. The three travel south through the Phantom Forest, and accidentally board the Phantom Train. To get off they make their way to the engine and stop the train. Shadow pops up next in Kohlingen during the search for Terra, but he refuses to join the party unless they pay him 3, gil. Still, he would only help them as far as Zozo at most. Alternatively, the party can hire him after Zozo, but he will leave during the opera. Shadow is hired by the Gestahlian Empire to assist in the mission to Crescent Island. On the way, he overhears an intimate conversation between Terra and General Leo, after which he assures Terra he does not care, as his emotions are dead. Interceptor is friendly to Relm, which confuses Shadow. That night Relm is trapped in a burning building, and Terra, Locke, and Strago venture inside to save her. Shadow does not come until Interceptor tries to rescue Relm. Shadow arrives just as everyone is about to burn to death, and helps them by using a smoke bomb to escape. Afterward, he takes Interceptor and leaves Thamasa. The party finds Shadow. Shadow is found wounded on the Floating Continent. He helps the party navigate it and defeat Ultima Weapon, after which he leaves because he is ashamed he ever served the empire and feels unworthy of fighting alongside the party. Kefka kills Emperor Gestahl over the control of the Warring Triad and begins to move the statues out of their delicate balance, which changes the face of the world. Shadow tries to move the statues back in balance and stop Kefka so the party can escape the Floating Continent, but the party can choose to wait for him. If the party waits until the last five seconds, Shadow will jump onto the Blackjack. If the party waited for him, Shadow appears in the World of Ruin; otherwise, he presumably dies. One year later, if the party waited for Shadow, he can be found, wounded, in the Cave on the Veldt otherwise, Relm appears in his stead. To rescue him, the party defeats the Behemoth King and takes him to Thamasa to recover. If the party wagers it, they fight Shadow. If they win, Shadow rejoins permanently. Shadow decided to end his life. After the party has killed Kefka and is escaping his crumbling tower, Shadow says "Baram It looks like I can finally stop running Come and find me all right? Baram was killed when fleeing the authorities, but Shadow escaped to Thamasa, where he fell in love with a woman and fathered a child before leaving the village to keep his past from catching up with him. The village dog, Interceptor, followed him. Shadow orders Interceptor to stay with Relm. If the party allows Shadow to die on the Floating Continent, the flashback sequence viewed when rescuing Relm shows Strago speaking to Relm who cries out for "Daddy" and asks where he went and if he will come back, before Interceptor leaves the house. In the original North American Super NES release, he tells Interceptor to stay with "the girl," but the word used for "girl" in the Japanese release could also be used as a humble form of "daughter. The developers considered having a scene in a bar presumably in Thamasa where Strago asks Shadow to reveal his identity. The dialogue was supposed to be as follows: I have one request Show me your

face. Even if you are him, I have no intention of wasting time trying to talk you into staying. I just want to know He takes off his mask and shows Strago his face.
