We will use the personally-identifying information that you provide about others in order to provide the products or services that you have requested; for example, to enable us to send them your gifts or cards. These lists will never contain sensitive information. If you do not wish for your e-mail or postal address to be shared with companies not owned by Bonnier who want to market products or services to you, you have the opportunity to opt out, as described below. You may also opt out of the receipt of any marketing materials from Bonnier as described below. We may transfer your sensitive personally-identifying information to other Bonnier offices for internal management and administrative purposes. In addition, your personal data will be transferred to other Bonnier offices where necessary for the performance or conclusion of our contractual obligations to you or for your benefit. Transfers of personally-identifying information may also be made where necessary for the establishment, exercise, or defense of legal claims. We do not transfer personal information internationally. Bonnier will only share your sensitive personal information with outside companies or individuals in any of the following limited circumstances: When we use trusted businesses or persons to process personal information on our behalf. Before sharing any personal information with outside parties, we require that these parties agree to process such information based on our instructions and in compliance with this Privacy Policy and any other appropriate confidentiality and security measures. Before we share your sensitive personal information outside of the previously listed circumstances, we will ask you for permission first. Please note that this only applies to sensitive information, as defined above. We may also use, transfer, sell, and share aggregated, anonymous data about our users for any legal purpose, such as analyzing usage trends and seeking compatible advertisers and partners. In no event will this aggregated data contain any information that could be used to identify individual users of our products or services. How we protect the safety and integrity of the information we collect We take appropriate physical, electronic, and procedural measures to safeguard and protect your personal information. We use a variety of security measures, including encryption and authentication, to maintain the confidentiality of your personal information. We store your personal information on systems behind firewalls that are only accessible to a limited number of persons, each of whom is required to keep the information confidential. When you transmit sensitive personal information to us, like credit card information, we offer the use of a secure connection to our servers. To the extent you select the secure connection method or your browser supports such functionality, all credit card account information that you supply is transmitted via secure encryption technology. We will provide notice if we become aware of any security breach that may affect any sensitive personal information pertaining to you that we have stored on our systems. Bonnier employees, agents, and contractors who have access to personally-identifying information are required to protect this information in a manner that is consistent with this Privacy Policy and may not use the information for any purpose other than to carry out the services they are performing for Bonnier. These individuals are bound by confidentiality obligations and may be subject to discipline, including termination and criminal prosecution, if they fail to meet these obligations. Bonnier only collects personal information that is relevant to the purposes for which it will be used. Though we do take appropriate steps to review and update the information that we store to ensure that it is accurate, complete, and current, we also depend on you to update or correct your personal information when necessary. You may correct or delete any or all of the personal information you have provided to us at any time. Many of our websites provide means to review and update the personal information that you have provided on that website. To inquire about personally identifiable information that Bonnier has collected about

you, or about other ways to correct factual errors in that information, please send us an e-mail at privacy@bonniercorp.com. Do not use this email address to send questions about your subscription. To protect your privacy and security, we will take reasonable steps to help verify your identity before granting access or making corrections. We will decline to process requests where we cannot verify the identity of the requester. We may also decline to process requests that are automated, repetitive, systematic, or impractical, or that might jeopardize the privacy of others. In some limited circumstances, such as to resolve disputes, troubleshoot problems, and enforce our policies, we may retain some of information that you have requested us to remove. Therefore, you should not expect that all of your personal information will be completely removed from our databases in response to your requests. We only use the information we collect for purposes consistent with this policy. If we propose to use your personal information for purposes beyond that explained in this policy, we will provide appropriate notice before doing so and we will provide you with the means to opt out of those uses. We will not use your sensitive personal information for any purposes other than those described in this Policy unless we have obtained your consent.

Chapter 2 : The Sailor who Fell from Grace with the Sea - Yukio Mishima - Google Books

In cases of regular books without embargoes, it's up to the bookstore to decide if they want to put the books on the shelves before the publication date. This is perhaps how most books go on sale: stocks come in, they get tagged and placed on shelves for sale.

The first known point at which they are associated with the Nights is a Turkish collection dated Later sources include Abbasid works such the "Wonders of the Created World", reflecting the experiences of 13th century Arab mariners who braved the Indian Ocean. Taken from the Arabian Nights, being the third and fourth voyages of Sinbad the Sailor. An early US edition, The seven voyages of Sinbad the sailor. And The story of Aladdin; or, The wonderful lamp, was published in Philadelphia in The owner of the house hears and sends for the porter, finding that they are both named Sinbad. The rich Sinbad tells the poor Sinbad that he became wealthy "by Fortune and Fate" in the course of seven wondrous voyages, which he then proceeds to relate. After dissipating the wealth left to him by his father, Sinbad goes to sea to repair his fortune. He sets ashore on what appears to be an island, but this island proves to be a gigantic sleeping whale on which trees have taken root ever since the whale was young. Awakened by a fire kindled by the sailors, the whale dives into the depths, the ship departs without Sinbad, and Sinbad is saved by the chance of a passing wooden trough sent by the grace of Allah. He is washed ashore on a densely wooded island. Sinbad gives the king his goods and in return the king gives him rich presents. Sinbad sells these presents for a great profit. Sinbad returns to Baghdad where he resumes a life of ease and pleasure. With the ending of the tale, Sinbad the sailor makes Sinbad the porter a gift of a hundred gold pieces, and bids him return the next day to hear more about his adventures. The floor of the valley is carpeted with diamonds, and merchants harvest these by throwing huge chunks of meat into the valley: The wily Sinbad straps one of the pieces of meat to his back and is carried back to the nest along with a large sack full of precious gems. Rescued from the nest by the merchants, he returns to Baghdad with a fortune in diamonds, seeing many marvels along the way. Encounter with a man-eating giant. Restless for travel and adventure, Sinbad sets sail again from Basra. But by ill chance he and his companions are cast up on an island where they are captured by "a huge creature in the likeness of a man, black of colour, Burton notes that the giant "is distinctly Polyphemus ". He and the remaining men escape on a raft they constructed the day before. After further adventures including a gigantic python from which Sinbad escapes using his quick wits , he returns to Baghdad, wealthier than ever. Fourth Voyage of Sinbad the Sailor[edit] Impelled by restlessness Sinbad takes to the seas again and, as usual, is shipwrecked. The naked savages amongst whom he finds himself feed his companions a herb which robs them of their reason Burton theorises that this might be bhang , prior to fattening them for the table. Sinbad realises what is happening, and refuses to eat the madness-inducing plant. When the cannibals have lost interest in him, he escapes. A party of itinerant pepper-gatherers transports him to their own island, where their king befriends him and gives him a beautiful and wealthy wife. Too late Sinbad learns of a peculiar custom of the land: Just as these meagre supplies are almost exhausted, another coupleâ€”the husband dead, the wife aliveâ€”are dropped into the cavern. Sinbad bludgeons the wife to death and takes her rations. Such episodes continue; soon he has a sizable store of bread and water, as well as the gold and gems from the corpses, but is still unable to escape, until one day a wild animal shows him a passage to the outside, high above the sea. From here a passing ship rescues him and carries him back to Baghdad, where he gives alms to the poor and resumes his life of pleasure. The Arabs in an early day were eager students of Greek literature. Sinbad immediately recognizes the folly of their behavior and orders all back aboard ship. However, the infuriated parent rocs soon catch up with the vessel and destroy it by dropping giant boulders they have carried in their talons. Sinbad kills him after he has fallen off, and then he escapes. A ship carries him to the City of the Apes, a place whose inhabitants spend each night in boats off-shore, while their town is abandoned to man-eating apes. Yet through the apes Sinbad recoups his fortune, and so eventually finds a ship which takes him home once more to Baghdad. Sixth Voyage of Sinbad the Sailor[edit] Sinbad during sixth voyage "My soul yearned for travel and traffic". Sinbad is shipwrecked yet again, this time quite violently as his ship is dashed to pieces on tall

cliffs. He builds a raft and discovers a river running out of a cavern beneath the cliffs. He falls asleep as he journeys through the darkness and awakens in the city of the king of Serendib Ceylon, Sri Lanka , "diamonds are in its rivers and pearls are in its valleys". The king marvels at what Sinbad tells him of the great Haroun al-Rashid , and asks that he take a present back to Baghdad on his behalf, a cup carved from a single ruby, with other gifts including a bed made from the skin of the serpent that swallowed the elephant [a] "and whoso sitteth upon it never sickeneth" , and "a hundred thousand miskals of Sindh lign-aloesa", and a slave-girl "like a shining moon". And so Sinbad returns to Baghdad, where the Caliph wonders greatly at the reports Sinbad gives of the land of Ceylon. Cast up on a desolate shore, he constructs a raft and floats down a nearby river to a great city. Here the chief of the merchants weds Sinbad to his daughter, names him his heir, and conveniently dies. Extolled be the perfection of God! The bird-people are angry with Sinbad and set him down on a mountain-top, where he meets two youths who are the servants of God and who give him a golden staff; returning to the city, Sinbad learns from his wife that the bird-men are devils, although she and her father are not of their number. Burton includes a variant of the seventh tale, in which Haroun al-Rashid asks Sinbad to carry a return gift to the king of Serendib. He then tells the Caliph of his misfortune-filled voyages; Haroun agrees that with such a history "thou dost only right never even to talk of travel". Nevertheless, a command of the Caliph is not to be negated, and Sinbad sets forth on this, his uniquely diplomatic voyage. On the return voyage the usual catastrophe strikes: Sinbad is captured and sold into slavery. I then entered my house and met my family and brethren: In some versions we return to the frame story, in which Sinbad the Porter may receive a final generous gift from Sinbad the Sailor. In other versions the story cycle ends here, and there is no further mention of Sinbad the Porter. Films, TV, animation[edit] Play media Sinbad the Sailor animated short film Many films, television series, animated cartoons, novels, and video games have been made, featuring Sinbad not as a merchant who happens to stumble into adventures, but as a dashing dare-devil adventure-seeker.

Chapter 3 : All the Drowned Sailors by Raymond B. Lech

Books shelved as sailor: Going Overboard by L.A. Witt, Once Burned by L.A. Witt, To Kill a Kingdom by Alexandra Christo, The Belles by Dhonielle Clayton.

Apart from the obvious hagiography, there are some really good novels, such as *The Mirrored World*, a historical novel based on the life of Saint Xenia, and the amazing YA *Icon*. Though of course, there would be no such book without Saint Herman. But anyway, I found the book really fascinating. Here is what this is all about. The book often reads like a thriller and a treasure hunt. The boat had made this trip many times, and Captain Illarion Arkhimandritov was very experienced and skilled both as a navigator and a cartographer. But busy and preoccupied with his journey, he left the island, remembering too late what he had promised. The ship sank a few hours after its departure and the place and position of the wreck could make us believe that Saint Herman punished the captain. All on board survived. Through his profession, the author a marine biologist, now a tenured Full Professor of Marine Science heard about the accident. Close to 15 years after the catastrophe and after lots of research, he organized a team of divers to try to find the wreck. Easier said than done. To locate the ship, he had to study many documents, mostly in Russian, some seeming contradictory. And he could not do this by himself. Gathering a crew of professional and dedicated persons is a hard work. Some people always try to gather all the glory for themselves, and are ready for that to betray a good cause. Archaeology diving requires also a lot of expensive equipment. Funds were then needed. Another frustrating part of the project was to convince people and organizations of the importance of the search, and to make them agree to fund it. I knew nothing about marine archaeology and that type of diving, or any diving for that matter, and all the detailed explanations were fascinating. Also on preserving that type of artifacts. And there are many passages on the local native Alaskan culture. In fact, the work is a tribute to the importance of honoring this culture and doing all that is possible to preserve its past, its history, and treasures. Plus abundant end notes, and a long list of resources, books and websites. Fascinating real life treasure hunt, looking for Alaska oldest known shipwreck, and what it can reveal about history. Or any other book about shipwrecks? I was in no way compensated for this post as a reviewer, and the thoughts are my own.

Chapter 4 : Sailor Moon - Wikipedia

There are a couple must-have books for sailors errr, actually, there are loads of great books out there for sailors. I'd be happy to tell you all the great books we have but the best 'must-have' books are the one's that I've written.

Most of the international versions, including the English adaptations, are titled Sailor Moon. Sailor Moon Crystal[edit] Main articles: A third season subtitled "Death Busters" based on the "Infinity" arc on the manga premiered on April 4, The films are side-stories that do not correlate with the timeline of the original series. Kodansha released some of these books for each of the five story arcs, collectively called the Original Picture Collection. The books contain cover art, promotional material and other work by Takeuchi. Many of the drawings are accompanied by comments on the way she developed her ideas, created each picture and commentary on the anime interpretation of her story. This art book includes drawings by Takeuchi and her friends, her staff, and many of the voice actors who worked on the anime. In , Kodansha published the Materials Collection; this contained development sketches and notes for nearly every character in the manga, and for some characters that never appeared. Each drawing includes notes by Takeuchi about costume pieces, the mentality of the characters and her feelings about them. It also includes timelines for the story arcs and for the real-life release of products and materials relating to the anime and manga. A short story, Parallel Sailor Moon is also featured, celebrating the year of the rabbit. The first book was written by Stuart J. Levy and the following written by Lianne Sentar. Thirty such musicals in all have been produced, with one in pre-production. Music from the series has been released on about 20 memorial albums. Toon Makers produced a minute proof of concept presentation video as well as a two-minute music video, both of which were directed by Rocky Sotoloff, for this concept. Renaissance-Atlantic presented the concept to Toei, but it was turned down as their concept would have cost significantly more than simply exporting and dubbing the anime adaptation. It has since been copied numerous times and has been viewed on many streaming video sites. Because of the relatively poor quality of the source video and circulated footage, many anime fans thought that the music video was actually a leaked trailer for the project. A 2-minute reel was produced and sent to Bandai America, but was also rejected. Its 49 episodes were broadcast on Chubu-Nippon Broadcasting from October 4, to September 25, The series was an alternate retelling of the Dark Kingdom arc, adding a storyline different from that in the manga and first anime series, with original characters and new plot developments. List of Sailor Moon video games The Sailor Moon franchise has spawned several video games across various genres and platforms. Most were made by Bandai and its subsidy Angel; others were produced by Banpresto. The early games were side-scrolling fighters ; later ones were unique puzzle games , or versus fighting games. Another Story was a turn-based role-playing video game. La Luna Splende Sailor Moon: Sailor Moon was broadcast in Spain and France beginning in December ; these became the first countries outside Japan to broadcast the series. The Complete Guide , Jason Thompson gave the manga series three stars out of four. He also said the manga itself appeared similar to Super Sentai television shows. Thompson found the series fun and entertaining, but said the repetitive plot lines were a detriment to the title, which the increasing quality of art could not make up for; even so, he called the series "sweet, effective entertainment. Thompson said fight scenes are not physical and "boil down to their purest form of a clash of wills", which he says "makes thematic sense" for the manga. Sailor V in second place. Thus, Sailor Moon emphasizes a type of feminist model by combining traditional masculine action with traditional female affection and sexuality through the Sailor Soldiers. Archived from the original on October 8, Retrieved February 9, Retrieved October 20,
