

Chapter 1 : Warriors: Tigerstar and Sasha #1: Into the Woods by Erin Hunter

In the first book of the Tigerstar & Sasha manga arc, a kittypet named Sasha searches for a new home and wonders if she might find it with ShadowClan and its leader, Tigerstar, during the events of the Warriors: The Prophecies Begin series.

Critical reception[edit] The first book of the series, *Into the Wild* , was generally well-received, with reviewers calling it a "spine-tingling," [47] "thoroughly engrossing" [48] and "exciting *Into the Woods*, is especially recommended for cat lovers everywhere". These relationships are not allowed for various reasons: Holmes said that another central theme of the series centres on "faith and spirituality" in StarClan. Thus the existence of an afterlife and the influence of spirits who have passed on and yet retain their earthly identities is integral to all of the plot arcs in the series. Another idea explored in the novels is the reactions of different faiths when meeting each other. For example, the Tribe of Rushing Water, which believes in different spiritual ancestors than the Clans, is introduced in *Moonrise*. In an author chat, Holmes explained that the books never say that either of the Clans or the Tribe of Rushing Water is right about faith because both are "equally valid. Holmes said that "ignorance is a very scary thing! Mothwing and Cloudtail do not believe in StarClan. Another theme is that characters can be a mix of good and evil. Holmes has said she is fascinated by these "shades of gray" in personalities. Her example of this was when Bluestar, a noble and honorable cat, gave up her kits for her own ambitions so an evil cat would not take over. Another example she gave of this is how the antagonist Tigerstar, even with all of his faults, is still courageous and fiercely loyal. This theme ties into the "shades of gray" theme. A reviewer for Publishers Weekly noted that friendship and responsibility are taught to characters in the novels, [49] while booksforyouths. The four Clans, normally hostile to each other, are forced to work together in order to find a new home. Other themes that have been pointed out deal with family, loss, honor, bravery, death, loyalty, and following rules. Starlight , Twilight , and Sunset from *The New Prophecy*, as well as the first four *Omen of the Stars* books, are available in an audiobook format. A reviewer for AudioFile wrote: The books in the four main series have also been released in an e-book format. Whether it will be a role-playing game is unknown. Erin Hunter has stated on the official Warriors website that there is still no plan for an official video game, but if there was, it would probably be based on a movie version of the Warriors series, which was at the time not under consideration. The release date, for now, still remains unscheduled, but, as of May 14, it was announced that screenwriters Jonathan Aibel and Glenn Berger have been attached to write the screenplay for the movie. However, as of now, no director was announced for the film. In it, the spirit of former ThunderClan medicine cat Spottedleaf discusses her love for Firestar. In the story, the four Clans vote for a way to survive a tough winter. Every cat at the meeting votes on whether or not the Clans should work together to survive the winter. The cats vote in favour of working together. The script was released to the public on the official site for the Warriors series. After going to a Gathering, where it is obvious all of the Clans except for ThunderClan are starving, three cats from StarClan appear to them: Brightspirit and her parents, Shiningheart and Braveheart, characters created on Wands and Worlds, a fantasy fiction forum, in memory of a year-old Warriors fan, Emmy Grace Cherry, and her parents, Dana and Jimmy Cherry, who were killed in a tornado in February. Jaypaw is easily convinced, but Hollyleaf and Lionblaze are harder to win over. Eventually, they agree and hunt, then wait at the WindClan border for a patrol. In the Chinese translation of the series, "3-D trading cards" are packaged in each book. The 3-D effect is produced using stereoscopic lenticular printing. These cards feature pictures of the cats on the centre of the bookcover and their Chinese and English names, and biographical information on the back. Also produced are puzzles and cups with Warriors images. The app has been taken off the Google Play store.
