Instead I decided to do something similar to the Chinese New Year Post and I am going to honor 17 awesome Irishmen and women from books and movies. After his family farm is burned down, he goes off to take his revenge on the landlord Daniel Christie. With the two masquerading as brother and sister they start working in the factories to earn enough money to buy land West. As the two continue to work in America they find out that their road West will not be an easy one. Why Joseph is awesome: Now I love Tom Cruise in everything he is in; as I find him to be a superb actor and very good-looking. So of course I loved him in this. Joseph is an amazing guy because of his patience and compassion. He cares for the spoiled Shannon, which is no easy feat. If I was Joseph I would have left that mean and spiteful thing to fend for herself. However, he eagerly tries to make her happy and when they reach their lowest point and Joseph cannot provide for her, he returns her to her family; sacrificing his love and happiness to save her life. Besides that, he is hilarious. Plus you gotta love a tough scrapper. Her only option is to move herself and her three children, Philip, Adele, and Grace to the country side and turn the old Larkspur Inn into a lodging house. Why Fiona is awesome: Fiona is a girl that has had many trials and tribulations, yet still has a caring, sweet demeanor and a heart of gold. At a young age her father traded her to another man for a goat. Even though Fiona was legally married, her role in the household consisted of her being more of a slave than a wife. Forced to cook, clean, and care for his children; Fiona only hangs on through her faith in Christ. After she loses her child, Fiona bravely takes off for England in hopes of a better life. There she serves under Julia, becoming more than a servant; a best friend. Giving up the security of a job, she follows Julia to Larkspur Inn, knowing that without her help there Julia would never survive. There at the hotel she becomes head housekeeper and cares for everyone who comes through the doors; helping all to feel loved and welcomed. She even goes to see the Keegans, and Irish family that is shunned by almost the entire village for being Irish and Catholic. Through her kindness and compassion she is able to heal one of the lodgers, Mr. Ambrose Clay, an actor who suffers from depression. While the two love each other, Fiona remains true to her vows, and instead of risking any destruction to the progress made in Mr. In the end her husband dies and she and Mr. Clay are able to be reunited with each other and their old friends. Kyle is the golden child; captain of the basketball team, straight-A student, and Lady Luck always seems to be smiling down at him. With his mom shrinking, and him becoming shorter and more leperchaunty ever minute, he sets out to track down the thief and restore his family luck. Why Kyle is awesome: Besides that, I always thought Kyle was cool because of how he grows as a person when things are no longer easy for him; we see a real strength of character and a heart of gold. Then there are his mad dancing skills he exhibits in the competition against the evil Seamus McTiernen. But most of all it is when he passes the basketball to his friend in the last game, instead of making the shot he gives his friend the glory, something the old Kyle never would have thought of doing. What no one but Father Lonergan knows is that Thornton killed a man in the ring, and decided to give up boxing and fighting for good. Thornton wants to date her, but has to go through all the traditional methods of courtship, something extremely foreign to him. Why Sean Thornton is awesome: Just going to get it out of the way, but the fact that he is played by John Wayne earned him a spot on this list. But seriously, Thornton is awesome because while he feels all the rules of courtship and hoops he has to jump through are silly, he still does them because he loves Mary Kate and knows that it is what she wants. He lays down his pride to make her happy. What an amazing guy! To her surprise she begins receiving letters from Gerry, these letters that encourage her and eventually help her heal and move on in her life. Why Gerry is awesome: Besides being super sexy Gerald Butler, Gerry is the ultimate husband. How amazing is it that he spent so much of his last moments constructing all these messages to send his wife to help her after he was gone. Such a selfless man to be considering her needs above his. Plus he also is an amazing singer! Hotheaded and very into politics and speaking his mind on the subject. Why Branson is awesome: At first I disliked Branson. But after the two marry and Sybil dies in childbirth I began to like him better. He became more

subdued and realized that his destructive thoughts might not really be the best thing. He helped Matthew with the reforms on estate, utilizing his farming skills and helping the home flourish. One of the best things he does though, is stay with the family so they have full access to baby Sybil. I mean it would have been so easy to be selfish and take the baby far away, but he knows that the rest of the family is hurting for their missing member and while Baby Sybil will never replace the hole her mother left, she can help repair it. Why Micky is awesome: We all have the dream to make something of ourselves and here we have a man who kept trying and eventually did it. He totally should have received a nom. I highly recommend it as it is a great movie with one amazing soundtrack. In the film, young cabin boy, Dinky Doyle is shipwrecked on an uncharted, Irish, Leprercaun-filled island. As it is Christmas he searches the place for the perfect tree to cut down for his celebration. The wee folk with the help of Dinky must find a way to stop her. First of all Blarney is adorable. Look at his wee little spectacles and adorable little face. Besides that, he is kind and caring. To read about the plot of the film see above. Well besides being a year old leprechaun, he traveled to America a poor immigrant and worked hard to establish a successful potato chip factory. Not to mention he can play the flute, has a trunkful of shoes to repair, and glorious white beard that Gandalf and Dumbledore would be jealous of, and loves to follow rainbows. True he had a disagreement with his daughter over her marriage, but that all gets resolved in the end. Besides, he helps Bonny be able to play basketball by securing her an internship at his factory and getting her father off her back. He is there for everyone and always lends a helping hand. These vibrations enable him to fly as they help propel him upward. He first joins the X-Men in when Xavier is recreating the team. Why Banshee is awesome: Being an X-men automatically makes you one of the cool crew. But stick to the original comics, the newer ones and alternate dimensions always screw up the things you love. My only problem was that they made him too young. Battle ensues and Vallon is killed by The Butcher. Why Priest Vallon is awesome: Dare I really say more? No, but really even though we only have a few minutes of him in the film, throughout it he is revealed to be an honorable man, kind, compassionate, and super tough. The movie is about two siblings, Tommy and his older sister Becky, who are sent to stay with their aunt for the summer after the death of their father. While they are there they met Irishmen Mr. Connors, who Tommy is convinced is a leprechaun and can bring their father back. Plus when Tommy is convinced that he is a leprechaun, Mr. Connors kind of plays along. By the end of it, he has you wondering if he really is a leprechaun or just an elderly man. After an encounter with radioactive substances they fell off a moving truck he loses his sight. From there on he is mentored on how to see the world through his other senses, gaining super sensitivity. After the death of his father he becomes a lawyer by day and superhero extradonaire by night. How is he not cool? I mean how much cooler can you get? He totally does the whole Clark Kent thing too, but in a much less annoying way. Pretends to be helpless so no one suspects his other identity. Only Marvel could come up with a character this amazing. I love DC, but in comparison Marvel has some much better superheroes. Ben was amazing as Matt, but some of the other characters were poorly portrayed. And I hate how they kill off his amazing villain.

Chase Shafer, Cincinnati, Ohio, appointed by court, for appellant. Code, to vacate a judgment and sentence of twenty-five years under an indictment charging him with the offense of bank robbery, Section , Title 18 U. United States, 6 Cir. United States, 9 Cir. United States, 8 Cir. United States, U. Bannan, supra, 6 Cir. In the aftermath of a trial, it is often found that even the most able of counsel may have erred in some respects. The testimony of prospective witnesses relied upon by a defendant may prove to be overvalued by the defendant and ineffective when fully developed and analyzed by defense counsel in his pretrial preparation. Many questions may arise in the course of a trial, which must be left to the decision of the defense attorney. The fact that a different or better result may have been obtained if a different decision had been made, does not mean that the defendant has not had the effective assistance of counsel. United States, 83 U. An excellent discussion of this subject is found in Mitchell v. United States, supra, U. Welch, supra, 80 U. How much these mistakes contributed to the result can never be measured. There are no tests by which it can be determined how many errors an attorney may make before his batting average becomes so low as to make his representation ineffective. The only practical standard for habeas corpus is the presence or absence of judicial character in the proceedings as a whole. Since the allegations are accepted as a correct statement of the facts, it is unnecessary that a hearing be held. Appellant contends that he was entitled to be heard on the amended motion. Conclusions, not substantiated by allegations of fact with some probability of verity, are not sufficient to warrant a hearing. In our opinion, the District Judge was not in error in declining to give the amended motion further consideration.

Chapter 3 : Charles G. O'Malley, Ph.D. - Home

*Charles O'Malley serves as Chief Financial Officer of Port Of Miami Terminal Operating Company, L.C.*

Thurgood Marshall, for petitioner. Leon Fieldman, Chicago, Ill. Fabrice, who died in , created five irrevocable trusts in and , two for each of two daughters and one for his wife. He was one of three trustees of the trusts, each of which provided that the trustees, in their sole discretion, could pay trust income to the beneficiary or accumulate the income, in which event it became part of the principal of the trust. He accordingly assessed a deficiency, the payment of which prompted this refund action by the respondents, the executors of the estate. The District Court found the original corpus of the trusts includable in the estate, a holding not challenged in the Court of Appeals or here. It felt obliged, however, by Commissioner of Internal Revenue v. The Court of Appeals affirmed, F. Commissioner of Internal Revenue, F. Because of these conflicting decisions we granted certiorari. We now reverse the decision below. Section c 1 B ii , which originated in , was an important part of the congressional response to May v. Commissioner of Internal Revenue v. Estate of Church, U. The section requires the property to be included not only when the grantor himself has the right to its income but also when he has the right to designate those who may possess and enjoy it. Here Fabrice was empowered, with the other trustees, to distribute the trust income to the income beneficiaries or to accumulate it and add it to the principal, thereby denying to the beneficiaries the privilege of immediate enjoyment and conditioning their eventual enjoyment upon surviving the termination of the trust. This is a significant power, see Commissioner of Internal Revenue v. Estate of Holmes, U. This was the holding of the Tax Court and the Court of Appeals almost 20 years ago. Commissioner of Internal Revenue, 1 Cir. The District Court here followed Industrial Trust and affirmed the includability of the original principal of each of the Fabrice trusts. That ruling is not now disputed. By the same token, the first condition to taxing accumulated income added to the principal is satisfied, for the income from these increments to principal was subject to the identical power in Fabrice to distribute or accumulate until the very moment of his death. Contrary to the judgment of the Court of Appeals, we are sure that he had. At the time Fabrice established these trusts, he owned all of the rights to the property transferred, a major aspect of which was his right to the present and future income produced by that property. With the creation of the trusts, he relinquished all of his rights to income except the power to distribute that income to the income beneficiaries or to accumulate it and hold it for the remaindermen of the trusts. He no longer had, for example, the right to income for his own benefit or to have it distributed to any other than the trust beneficiaries. Moreover, with respect to the very additions to principal now at issue, he exercised his retained power to distribute or accumulate income, choosing to do the latter and thereby adding to the principal of the trusts. All income increments to trust principal are therefore traceable to Fabrice himself, by virtue of the original transfer and the exercise of the power to accumulate. Before the creation of the trusts, Fabrice owned all rights to the property and to its income. By the time of his death he had divested himself of all power and control over accumulated income which had been added to the principal, except the power to deal with the income from such additions. Under that section, the power over income retained by Fabrice is sufficient to require the inclusion of the original corpus of the trust in his gross estate. The accumulated income added to principal is subject to the same power and is likewise includable. Commissioner of Internal Revenue, 5 Cir. The courts in those cases considered the taxable event to be a completed inter vivos transfer, not a transfer at death, and the property includable to be only the property subject to that transfer. The value of that property, whatever the valuation date, was apparently deemed an adequate reflection of any income rights included in the transfer since the grantor retained no interest in the property and no power over income which might justify the addition of subsequently accumulated income to his own gross estate. The courts in both Burns, 9 T. This power he exercised by accumulating and adding income to principal and this same power he held until the moment of his death with respect to both the original principal and the accumulated income. Twelve years later he died. The respondents do not question the correctness of that determination. I think the Court misreads the statute. Obviously, the accumulations here involved were not transferred by the decedent to the trustee. It is true, of course, that the accumulations represented the fruit derived from the property which

## DOWNLOAD PDF V. 2-3. CHARLES OMALLEY.

was transferred but, even so, Congress did not make provision for including the fruit, it provided only for the property transferred. If it desired and intended to include the accumulations, it would have been a simple matter for it to have so stated. Nothing in the legislative history persuades me that the statute should not be applied as it was written, and I would therefore affirm the judgment.
